Politics Of British Foreign Policy In The Era Of Disraeli And Gladstone:

The Politics of British Foreign Policy in the Era of Disraeli and Gladstone Marvin Swartz, 1985 *The Politics of British Foreign Policy in the Era of Disraeli and Gladstone* Marvin Swartz, 1985 **Mary, Countess of Derby, and the Politics of Victorian Britain** Jennifer Davey, 2019-06-06 Lady Mary Derby 1824 1900 occupied a pivotal position in Victorian politics yet her activities have largely been overlooked or ignored This volume places Mary back into the political position she occupied and offers the first dedicated account of her career Based on extensive archival research including hitherto neglected or lost sources this study reconstructs the political worlds Mary inhabited Her political landscape was dominated by the machinations and intrigues of high politics and diplomacy As Jennifer Davey uncovers Mary's political skill and acumen were highly valued by leading politicians of the day including Benjamin Disraeli and William Gladstone and she played a significant role in many of the key events of the mid Victorian era This included the passing of the Second Reform Act the formation of Disraeli's 1874 Government the Eastern Crisis of 1875 1878 and Gladstone's 1880 1885 Government By exploring how one woman was able to exercise influence at the heart of Victorian politics this book considers what Mary's career tells us about the nature of political life in the mid nineteenth century It sheds new light on the connections between informal and formal political culture incorporating the politics of the home letter writing and social relations into a consideration of the politics of Parliament and Government It provides a rich investigation of how a woman with few legal or constitutional rights was able to become a significant figure in mid Victorian political life *The Liberal Ascendancy, 1830-1886* T. Jenkins, 1994-07-19 The diverse coalition of forces that came to be known as the Liberal party dominated British politics in the period between 1830 and 1886 This book seeks to account for the remarkable success of the Liberals by analysing who they were both in parliament and in the constituencies and showing how they managed to inter relate But at the same time it is emphasised that the dominance of the Liberals was seldom a simple matter let alone a foregone conclusion The complex story of the Liberal ascendancy requires the interweaving of high political strategy the practical business of government the electoral position of the party and the development of Liberal ideology It also involves assessing the personalities of outstanding individuals such as Earl Grey Lord John Russell Lord Palmerston and W E Gladstone

Parliament, Party, and Politics in Victorian Britain Terence Andrew Jenkins, 1996 In this concise and readable new study T A Jenkins explains in full how political parties operated within the Victorian political arena and how this gradually changed in response to the enormous demands being made upon parliament by a rapidly changing society and an expanding electorate *The Politics of Patriotism* Jonathan Parry, 2006-11-30 Between the 1830s and 1880s European problems had a profound impact on British politics Jonathan Parry examines the effect on the British Liberal movement of the most significant of these such as the 1848 Revolutions the unification of Italy the Franco Prussian War and the Eastern Question arguing that these European problems made patriotism a major political question governments were judged by their success

in promoting British interests abroad but also by the purity potency and Englishness of the political values they represented This volume makes a major contribution towards understanding three important aspects of nineteenth century British history British attitudes to Europe contemporary notions of national identity and the nature and dynamic of British Liberalism Setting foreign and domestic policy discussions in a patriotic framework Parry offers an analysis of the ideas that influenced the Liberal political coalition and the turning points affecting its vigour and unity as a political movement

The Primacy of Foreign Policy in British History, 1660-2000 William Mulligan, Brendan Simms, 2010-10-20 External challenges strategic threats and war have shaped the course of modern British history This volume examines how Britain mobilized to meet these challenges and how developments in the constitution state public sphere and economy were a response to foreign policy issues from the Restoration to the rise of New Labour

The Mid-Victorian Generation K. Theodore Hoppen, 2000-06-30 This the third volume to appear in the New Oxford History of England covers the period from the repeal of the Corn Laws to the dramatic failure of Gladstone s first Home Rule Bill In his magisterial study of the mid Victorian generation Theo Hoppen identifies three defining themes The first he calls established industrialism the growing acceptance that factory life and manufacturing had come to stay It was during these four decades that the balance of employment shifted irrevocably For the first time in history more people were employed in industry than worked on the land The second concerns the multiple national identities of the constituent parts of the United Kingdom Dr Hoppen s study of the histories of Ireland Scotland Wales and the Empire reveals the existence of a variety of particular and overlapping national traditions flourishing alongside the increasingly influential structure of the unitary state The third defining theme is that of interlocking spheres which the author uses to illuminate the formation of public culture in the period This he argues was generated not by a series of influences operating independently from each other but by a variety of intermeshed political economic scientific literary and artistic developments This original and authoritative book will define these pivotal forty years in British history for the next generation

The Two Mr. Gladstones Travis L. Crosby, 1997-01-01 This text explains that although Gladstone was among the most revered figures of his age there was another side to his character one of sudden bursts of anger and aggressiveness towards opponents It applies a psychological framework to Gladstone s life to explain this duality of his character

A Companion to Modern European History Martin Pugh, 1997-10-22 Its sixteen thematic chapters each written by an expert in the field cover social and economic developments the rise and fall of all the major political movements as well as the immense changes generated by war and international diplomacy across Europe

The Political Economy of Grand Strategy Kevin Narizny, 2007 A nation s grand strategy rarely serves the best interests of all its citizens Instead every strategic choice benefits some domestic groups at the expense of others When groups with different interests separate into opposing coalitions societal debates over foreign policy become polarized along party lines Parties then select leaders who share the priorities of their principal electoral and financial backers As a result the overarching goals and guiding principles

of grand strategy as formulated at the highest levels of government derive from domestic coalitional interests In *The Political Economy of Grand Strategy* Kevin Narizny develops these insights into a comprehensive theoretical framework for understanding the dynamics of security policy The focus of this analysis is the puzzle of partisanship The conventional view of grand strategy in which state leaders act as neutral arbiters of the national interest cannot explain why political turnover in the executive office often leads to dramatic shifts in state behavior Narizny in contrast shows how domestic politics structured foreign policymaking in the United States and Great Britain from 1865 to 1941 In so doing he sheds light on long standing debates over the revival of British imperialism the rise of American expansionism the creation of the League of Nations American isolationism in the interwar period British appeasement in the 1930s and both countries decisions to enter World War I and World War II **Politics Of British Foreign Policy In The Era Of Disraeli And** Marvin

[British Political History 1815-1914](#) Stephen J. Lee,2013-03-07 Aspects of British History 1815 1914 addresses the major issues of this much studied period in a clear and digestible form Introduces a fresh feel to long studied topics Consolidates a great deal of recent research Carefully organised to reflect the way teachers tackle this course Written by and experienced and renowned textbook author Illustrated with helpful maps and photographs **A Duel of Nations** David

Wetzel,2012-09-04 On July 19 1870 Emperor Napoleon III of France declared war against the Prussia of King William I and Prime Minister Otto von Bismarck This book depicts the world in which that war took place In this study of the diplomatic history of the Franco Prussian War the author draws extensively on private and official records journalistic accounts cabinet minutes and public statements by key players to produce a book that is unmatched in the range and clarity of its analysis its

characterizations and its vivid language Description from book cover **Twilight of the Titans** Paul K. MacDonald, Joseph M. Parent, 2018-04-15 In *Twilight of the Titans* Paul K MacDonald and Joseph M Parent examine great power transitions since 1870 to determine how declining powers choose to behave identifying the strong incentives to moderate their behavior when the hierarchy of great powers is shifting Challenging the conventional wisdom that such transitions push declining great powers to extreme measures this book argues that intimidation provocation and preventive war are not the only alternatives to the loss of relative power and prestige Using numerous case studies MacDonald and Parent show how declining states tend to behave the policy options they have how rising states respond to those in decline and what conditions reward particular strategic choices **Victorian Britain (Routledge Revivals)** Sally Mitchell, 2012-08-06 First published in 1988 this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies The signed articles which cover persons events institutions topics groups and artefacts in Great Britain between 1837 and 1901 have been written by authorities in the field and contain bibliographies to provide guidelines for further research The work is intended for undergraduates and the general reader and also as a starting point for graduates who wish to explore new fields

Free Trade and Liberal England, 1846-1946 Anthony Howe, 1997 The argument about the limits of Free Trade or Protectionism rages throughout the world to this day Following the Repeal of the Corn Laws in 1846 free trade became one of the most distinctive defining features of the British state and of British economic social and political life While the United States much of the British Empire and the leading European Powers turned towards protectionism before 1914 Britain alone held to a policy which had seemingly guaranteed power and prosperity This book seeks to explain the political history of this tenacious loyalty While the Tariff Reform opponents of free trade have been much studied this is the first substantial account based on a wide range of printed and archival sources which explains the primacy of free trade in nineteenth and early twentieth century Britain It also shows that by the centenary of the Repeal of the Corn Laws in 1946 although British free traders lamented the death of Liberal England they heralded under American leadership the rebirth of the liberal international order *Government and Armed Forces in Britain, 1856-1990* Paul Smith, 2010-07-15 In a period that began

with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem of how far politicians could decide on

strategies proposed by the military other than by the crude yardstick of cost The essays in Government and the Armed Forces in Britain 1856 1990 provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces
