Politics Of Canadas Airlines From Diefenbaker To Mulroney:

The Politics of Canada's Airlines from Diefenbaker to Mulroney Garth Stevenson, 1987 **Canadian History:**

Confederation to the present Martin Brook Taylor, Doug O'ram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover **Canadian Multimodal Transport Policy and Governance** G. Bruce Doern, John Coleman, Barry E. Prentice, 2019-05-09 Given its geographical expanse Canada has always faced long term transport policy issues and challenges Canadian Multi Modal Transport Policy and Governance explains how and why Canadian transportation policy and related governance changed from the Pierre Trudeau era through the Chretien Martin Mulroney Harper and Justin Trudeau eras With particular attention paid to the diversity and ongoing evolution of transportation policy since the 1960s the broad distribution of regulatory authority across different levels of government and the politicization of regulatory regimes and investment decisions since the 1970s Doern Coleman and Prentice attempt to answer three critical questions How and to what extent have policy and governance changed over the decades Where has transport policy resided in federal policy agendas And is Canada developing the policies institutions and capacities it needs to have a socio economically viable and technologically advanced transportation system for the medium and long term A sweeping history of transportation policy in Canada that fills a gap in the existing literature Canadian Multi Modal Transport Policy and Governance concludes that transportation has been subordinate to other federal goals and priorities delaying and eroding transport systems into the twenty first century **Drifting Together** John N.

McDougall, 2006-01-01 This is one of the best accounts of Canadian American relations to appear in many many years Thomas Keating University of Alberta *Parties Long Estranged* Margaret MacMillan, Francine McKenzie, 2003 This book brings together recent and original work to illuminate comparisons and contrasts between two former colonies of the British Empire The contributors include some of the top names in history and political science in Canada and Australia They cover the entire twentieth century and examine different aspects of Canadian Australian relations including trade civil aviation and military constitutional imperial and diplomatic relations The comparisons include Aboriginal rights nation building middle powers and attitudes toward the Empire This timely volume is well situated in the field of comparative studies a new and growing area It will be of interest to students and scholars of foreign affairs the British Commonwealth and its dismantling constitutional history and international relations The State, Business, and Industrial Change in Canada Michael M.

Atkinson, William D. Coleman, 1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada's industrial policy effectively particular attention must be given to industry organization state structures and systems

of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth

Rules and Unruliness G. Bruce Doern, Michael J. Prince, Richard J. Schultz, 2014-04-01 A critical examination of Canadian regulatory governance and politics over the past fifty years Rules and Unruliness builds on the theory and practice of rule making to show why government unruliness the inability to form rules and implement structures for compliance is endemic and increasing Analyzing regulatory politics and governance in Canada from the beginning of Pierre Trudeau's era to Stephen Harper's government the authors present a compelling argument that current regulation of the economy business and markets are no longer adequate to protect Canadians They examine rules embedded in public spending programs and rules regarding political parties and parliamentary government They also look at regulatory capitalism to elucidate how Canada and most other advanced economies can be characterized by co governance and co regulation between governments corporations and business interest groups Bringing together literature on public policy regulation and democracy Rules and Unruliness is the first major study to show how and why increasing unruliness affects not only the regulation of economic affairs but also the social welfare state law and order parliamentary democracy and the changing face of global capitalism

Speedbird Robin Higham, 2013-05-30 Between 1939 and 1946 BOAC the British Overseas Airways Corporation was the nationalised airline of Great Britain and between 1946 and 1974 as such it exclusively operated all long haul British flights With its iconic Speedbird logo and its central role in the glamorous jet age of the 1950s and 1960s BOAC achieved a near cult status with admirers around the globe Yet to date there has been no comprehensive history of the organisation covering its structure fleet and the role it played in the critical events of the age from World War II to the end of empire a period when BOAC played a pivotal part in projecting British political power even as that power was waning During World War II BOAC operated a limited wartime service and prepared for the return of commercial flight in the postwar era But it was in the service of Britain's colonies and latterly the process of decolonisation that BOAC achieved its most pivotal role The development of flight technology enabled much faster connections between Britain and her imperial possessions as the colonies prepared for independence BOAC ferried diplomats politicians and colonial administrators between London and the far flung corners of Africa and Asia in much faster times than had previously been possible In this book acclaimed historian Robin Higham presents a unique comprehensive study of BOAC from the early jet travel of the de Havilland Comet and the Vickers VC10 to the dawn of supersonic passenger aviation Highly illustrated and meticulously researched using previously unseen sources this book will be essential reading for all aviation enthusiasts and anyone

interested in the history of modern Britain *Unfulfilled Union, 5th Edition* Garth Stevenson, 2009 In *Unfulfilled Union* Garth Stevenson examines such topics as the origins and objectives of Confederation And The BNA Act of 1867 The interpretation of Canada's federal constitution by the courts The impact of economic regionalism and Quebec nationalism financial relations between the federal and provincial levels of government The consequences of federalism for economic policy The sources of federal provincial conflicts And The means to resolve them And The lengthy but inconclusive efforts to reform the Canadian constitution through federal provincial agreement particularly since Quebec's Quiet Revolution in the 1960s Although institutional factors such as the defects of the original constitution And The sometimes questionable interpretations of the Judicial Committee of the Privy Council are given due attention Stevenson emphasizes the political economy of Canada including its relationship with the United States And The vitality of Quebec nationalism as the major reasons Canada has not achieved the same level of centralization and stability as other federations in the industrialized world This updated edition of *Unfulfilled Union* includes a new chapter that discusses the extensive changes that have taken place in Canadian federalism since the previous edition was published in 2004 **Saskatchewan** Bernard D. of capital accumulation in both the capitalist sphere and independent commodity production She shows that while the family economy was based on the mutual dependence of male and female labour there was not equality in productive relations The male ownership of capital in the context of the family economy had significant implications for the control over female labour Among countries which experience industrial development there are common patterns in the impact of change on women s work there are also significant differences One of the most important of these is the fact that economic development did not result in women s labour being withdrawn from the social sphere of production Rather economic growth has steadily brought women s productive efforts more directly into the market sphere In exploring the roots of this development Cohen adds a new dimension to the study of women s labour history Populism and Democratic Thought in the Canadian Prairies, 1910 to 1945 David H.
