Policing Los Angeles Max Felker-Kantor,2018-09-25 When the Los Angeles neighborhood of Watts erupted in violent protest in August 1965 the uprising drew strength from decades of pent up frustration with employment discrimination residential segregation and poverty But the more immediate grievance was anger at the racist and abusive practices of the Los Angeles Police Department Yet in the decades after Watts the LAPD resisted all but the most limited demands for reform made by activists and residents of color instead intensifying its power In *Policing Los Angeles* Max Felker Kantor narrates the dynamic history of policing anti police abuse movements race and politics in Los Angeles from the 1965 Watts uprising to the 1992 Los Angeles rebellion Using the explosions of two large scale uprisings in Los Angeles as bookends Felker Kantor highlights the racism at the heart of the city's expansive police power through a range of previously unused and rare archival sources His book is a gripping and timely account of the transformation in police power the convergence of interests in support of law and order policies and African American and Mexican American resistance to police violence after the Watts uprising **The SAGE Handbook of Political Geography** Kevin R Cox,Murray Low,Jennifer Robinson,2007-12-18 A thorough and absorbing tour of the sub discipline An essential acquisition for any scholar or teacher interested in geographical perspectives on political process Sallie Marston University of Arizona This unique book is a true encyclopedia of political geography Vladimir Kolossov Institute of Geography of the Russian Academy of Sciences and Vice President of the

What Can the Federal Government Do to Decrease Crime and Revitalize Communities? ,1998 *Spatial Policing* Charles E. Crawford,2010 The ghetto the block neighborhood community and hot spot are all terms that capture a particular space or a familiar location for citizens and law enforcement officers These spaces may appear welcoming to some or send waves of fear into others who have to enter What is it about an area of the city that makes it a hot spot for crime at night Why do the police act speak and patrol so differently across segments of the city At their core these questions all show an awareness of the power of space Spatial Policing is a fascinating look at how the contexts of space location and time influence law enforcement which can result in differential treatment and controversial patrol practices Each chapter in Spatial Policing written by leading experts in law enforcement spatial and cultural issues in criminal justice provides a highly readable text and offers an in depth discussion of theory research findings as well as real world examples of the most important spatial contexts for police actions Spatial Policing explores in rich detail the numerous contexts of space from urban settings to rural to the space of minorities and international borders to examine how each represents a unique challenge for individual officers departments and their patrol efforts in our society Recognizing how space is used and defined as well as how it conditions the interactions between citizens and the police is at the heart of Spatial Policing Ultimately for law enforcement space matters Police officers are all too aware of the spaces in which they work but police researchers have been slow to catch on Environmental criminology has made its mark on policing but the literature has been lacking a thorough treatment of this progression Spatial Policing addresses both shortcomings authoritatively and comprehensively John L Worrall The University of Texas at Dallas and Editor Police Quarterly This is a wonderful book It goes far beyond what most books on the geography of crime consider in that it provides both a substantial theoretical underpinning to the field as well as interesting and cutting edge articles that apply the most current thinking on the spatial dimensions of crime Charles Crawford has put together a text that is destined to become a leading authority in an important and emerging segment of criminology John Fuller University of West Georgia Spatial Policing aids readers in developing critical thinking skills in spatial terms which in turn will be an invaluable tool for

policing in the real world and researching crimes and an asset to students and practitioners in critically assessing the root causes of crime in spatial terms Criminal Justice Review
