The Postwar Development of Japanese Studies in the United States Helen Hardacre,2023-07-17 The present volume documents the postwar history of United States scholarship on Japan A careful selection of North American scholars under the general editorship of Helen Hardacre Reischauer Institute Professor of Japanese Religions and Society at Harvard University shows that a range of factors have directed Japanese studies in the United States since 1945 Among these factors are social and political change in Japan and the United States shifts in dominant scholarly concerns about Japan and changing evaluations of area studies The work consists of twelve essays in a wide variety of fields history art religion literature anthropology political science and law Each essay chronicles postwar scholarship in its particular discipline and provides a useful bibliography to serve further reference The general aim of the volume is to put current debates in historical perspective and to help assess the field s achievements It identifies areas requiring more work and charts directions for the future

Who Prospers Lawrence E. Harrison,1992-08-04 Why have East Asian immigrants done so well in the United States in the face of adversity and discrimination Why have the Chinese done so much better outside China than inside Why have Japan Taiwan and Korea grown so rapidly and equitably in the second half of the twentieth century What explains Spain s transformation into a high growth democracy after centuries of poverty and authoritarianism Why has Brazil s economy grown faster in this century than that of any other Latin American country And what explains the paradox of America s blacks two thirds of whom have made it into the middle class mainstream while the remaining one third languishes in the poverty of the ghetto According to Lawrence E Harrison the author of this myth shattering but ultimately hopeful book culture values and attitudes provides the key to unlocking these mysteries Drawing on three decades of experience in Latin American economic and social development as well as extensive research elsewhere Harrison shows how it is the cultural values of a people with respect to work education austerity excellence family and community that largely explain why some succeed while others do not Harrison argues that it is the erosion of these values that lies behind America s decline evident for example in lagging competitiveness declining real income for most workers low savings rates the persistent and growing

budget deficit and the savings and loan scandal not to mention growing divisiveness within the society Understanding how culture can facilitate or impede progress is crucial to a renaissance in the United States just as it is to development in Third World countries mired in authoritarianism economic stagnation and social inequality Who Prospers suggests measures to promote cultural change that nurtures progress both at home and abroad The British National Bibliography Arthur James Wells, 2006 *US-China Relations in the Twenty-First Century* Michael Tai, 2015-04-24 The relationship between the United States and China will be of critical importance to the world throughout the twenty first century In the West China's rise is often portrayed as a threat and China seen in negative terms This book explores the dynamics of this crucial relationship It looks in particular at what causes an international relationship to be perceived negatively and considers what can be done to reverse this arguing that trust is a key factor It goes on to discuss US and Chinese rhetoric and behaviour in three key areas climate change finance and international security The book contends that contrary to much US rhetoric China's actions in these areas is often much more flexible and accommodating than the US position and that the Chinese are much more knowledgeable about and understanding and appreciative of the United States than vice versa **Whitaker's Books in Print**, 1998 *Subject Guide to Children's Books in Print 1997* Bowker Editorial Staff, R R Bowker Publishing, 1996-09

Embracing the Song of Appearance: An Emotional Symphony within **Politics Of Development Perspectives On Twentieth Century Asia The Edwin O Reischauer Lectures**

In a world used by monitors and the ceaseless chatter of instantaneous connection, the melodic beauty and emotional symphony produced by the written word frequently fade in to the back ground, eclipsed by the constant sound and distractions that permeate our lives. But, situated within the pages of **Politics Of Development Perspectives On Twentieth Century Asia The Edwin O Reischauer Lectures** a wonderful literary treasure overflowing with natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that charming masterpiece conducts visitors on a mental trip, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths of the poignant analysis, we shall investigate the book is central harmonies, analyze its enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
