Tattered Banners Walter Connor, 2018-05-04 In post Soviet Russia's transition to new political and economic systems few issues are as important as labor Although the worker's paradise may have been largely imaginary the loss of job security and benefits that has accompanied marketization could well become a catalyst for yet another political upheaval In this timely book Walter Connor explores how the Yeltsin government attempted to avoid this pitfall of system change Connor examines Russia's emergent labor politics in the critical first years of the post Soviet period focusing on the problems Yeltsin encountered in attempting to adopt a corporatist solution to the conflicts of interest that have arisen between labor employers and the state With many employers still heavily dependent on the state while others are already beyond state control the corporatist effort has been sabotaged Connor contends by the lack of distinct interest groups found in more mature market economies He concludes with an analysis of what these recent developments may portend for Russian politics and government in the future

Do Institutions Matter? R. Kent Weaver, Bert A. Rockman, 2010-12-01 As a stunning tide of democratization sweeps across much of the world countries must cope with increasing problems of economic development political and social integration and greater public demand of scarce resources That ability to respond effectively to these issues depends largely
