Politics Of Gender Ethnicity And Language In Canada:

The Politics of Gender, Ethnicity, and Language in Canada Alan Cairns, Cynthia Williams, 1986 Canada like other industrial nations is undergoing widespread social change at a faster pace than ever before Many features of our basic institutions are being transformed and some of the values on which they were based are being weakened or swept away to be replaced by others As this Royal Commission indicated in its first report *Challenges and Choices* the scope and implications of these changes call into question basic assumptions values and institutions at every level of society from the shop floor to the cabinet room to the international economic system but while many values change others endure **Politics of Gender, Ethnicity and Language in Canada** Royal Commission on the Economic Union and Development Prospects for Canada, 1982 *Women and Political Representation in Canada* Caroline Andrew, Manon Tremblay, 1998 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Published in English **Ethnic Relations in Canada** Raymond Breton, 2005-10-13 The introduction by Jeffrey Reitz focuses on the evolution of Breton's distinctive institutional framework which both extends and in some ways alters John Porter's classic analysis in *The Vertical Mosaic* Reitz shows how Breton's original concept of institutional completeness has been extended to provide a comprehensive framework for the institutional analysis of inter ethnic relations creating a unified theoretical structure that has reshaped the study of inter ethnic relations in Canada and points toward a future research agenda The Politics of Language : Conflict, Identity, and Cultural Pluralism in Comparative Perspective Carol L. Schmid Professor of Sociology Guilford Technical Community College, 2001-04-03 Important aspects of the history of language in the United States remain shrouded in myth and legend The notion of one nation one language is part of the idealized history of the United States although in its short history it has probably been host to more bilingual people than any other country in the world Language is more than a means of communication It brings into play an entire range of experiences and attitudes toward life Furthermore language is a potent symbolic issue because it links power and political claims of ownership with psychological demands for group worth How people belonging to different language and cultural communities live together in the same political community and how political and structural tensions arise to divide them along language lines are questions addressed in *The Politics of Language* This book analyzes the historical background and recent controversy over language in the United States and compares it to two official multilingual societies Canada and Switzerland Its accessibility as a survey of this topic makes it ideal for courses in linguistics political science and sociology **The Politics of Race** Jill Vickers, Annette Isaac, 2012-01-01 *The Politics of Race* is an excellent resource for students and general readers seeking to learn about race policies and legislation Arguing that states make race it provides a unique comparison of the development and construction of race in three white settler societies Canada the United States and Australia This timely new edition

The Practice of Language Rights in Canada C. Michael MacMillan, 1998-01-01 On what grounds should language rights be accorded in Canada and to whom This is the central question that is addressed in C Michael MacMillan s book *The Practice of Language Rights in Canada* The issue of language rights in Canada is one that is highly debated and discussed partly because the basic underlying principles have been a neglected dimension in the debate MacMillan examines the normative basis of language rights in Canadian public policy and public opinion He argues that language rights policy should be founded upon the theoretical literature of human rights Drawing on the philosophy behind human rights the arguments for recognizing a right to language are considered as well as the matter of whether such rights possess the essential features of established rights Another model that is examined is the idea that rights are a reflection of the established values attitudes and practices of society This analysis reveals that there is a significant gap between what a political theory of language rights would endorse and what garners support in public opinion MacMillan also scrutinizes the federal and provincial contexts in the development of a language rights framework From these explorations a case is developed for a recognition of language rights that is consistent with the logic of human rights and that corresponds roughly with developing Canadian practice *The Practice of Language Rights in Canada* is a unique contribution to the current literature not only because it conceives of language rights as a human right but also because it frames the whole debate about language rights in Canada as a question of values and entitlements

countries reputed to be leading the way in policies for women the United States Canada Australia Sweden The Netherlands and Norway Carol Lee Bacchi draws upon current social and feminist theory to present a lucid analysis of the implementation of reform Taking account of the particular historical context of affirmative action policies she considers why expressed commitment to affirmative action for women has failed to translate into meaningful reform She describes how conceptual and identity categories are given meanings and positioned in debate in ways which work to contain the effects of the reform Bacchi concludes that proponents of affirmative action need to direct more attention to the political uses of categories than to their abstract content and to concentrate their efforts upon exposing the effects of category politics Language, Citizenship and Identity in Quebec L. made vital contributions to the creation and development of anti racist education in Canada As cultural mediators within Ontario school systems these women circumvented subtle and overt forms of racial and social exclusion to create resistive teaching methods that centred black knowledges and traditions Within their wider communities and activist circles they fought to change entrenched ideas about what Canadian citizenship should look like As schools continue to grapple with creating diverse educational programs for all Canadians *Schooling the System* is a timely excavation of the meaningful contributions of black women educators who helped create equitable policies and practices in schools and communities
