Politics Of Inclusion And Empowerment Gender Class And Citizenship:

The Politics of Inclusion and Empowerment J. Andersen, B. Siim, 2004-04-20 Globalization poses new challenges for the modern welfare state and democracies One controversial issue is how struggles for economic equality are linked with struggles for recognition of difference according to gender ethnicity and sexuality The Politics of Inclusion and Empowerment examines the political and academic debates about the inclusion or exclusion of women and marginalized social groups from different policy contexts The focus is on the different class and gender regimes influencing the interplay of political civil and social citizenship at different levels of politics *Law and Citizenship* Law Commission of Canada, 2011-11-01 Long confined to the study of nationality citizenship was not always considered a major concern of social scientists In recent decades however the concept of citizenship has generated significant interest and intellectual debate in a variety of academic contexts Globalization is changing the relationships between actors on the national and international stage and shifting the balance of power between them These changes have spawned a wealth of scholarship across social science disciplines The essays in *Law and Citizenship* add to this lively discourse and provide a framework for analyzing citizenship in an increasingly globalized world A number of fundamental issues are addressed How are traditional notions of citizenship erecting borders against those who are excluded What are the impacts of changing notions of state borders and participation on our concepts of citizenship Within territorial borders to what extent are citizens able to participate given that the principles of accountability transparency and representativeness remain ideals There are numerous implications of the concept of citizenship for law and public policy in a number of different fields International law both private and public poverty law immigration law constitutional law history political science and sociology all reflect concepts of citizenship *Law and Citizenship* will appeal to scholars and students in law and politics as well as those interested in the idea of citizenship in contemporary society *Gender equality and welfare politics in Scandinavia* Kari Melby, Christina Carlsson Wetterberg, Anna-Birte Ravn, 2009-05-05 Gender equality is often seen as a hallmark of the Nordic countries This book explores this notion by examining the meanings of gender that underpin policies in the Scandinavian welfare states historically and today The book focuses on three Scandinavian countries Denmark Norway and Sweden and explores the policy reforms that have occurred relating to family and care Beginning with the radical marriage reform carried through in all the three countries in the early decades of the 20th century the book progresses to explore contemporary challenges to the traditional model of equality including equal rights for fathers multiculturalism and a critical young generation The book focuses on differences as well as similarities between the countries and discusses the relevance of talking about a Nordic model Stressing the importance of viewing the concept of equality in its historical context the book critically investigates and discusses the Scandinavian success story portrayed in normative political theory and presents an historical analysis of the development of gendered citizenship rights It will be a valuable collection for researchers lecturers and graduate students

who work with historical and contemporary studies on welfare state and gender models from different disciplinary or interdisciplinary perspectives

Language Policies and (Dis)Citizenship Vaidehi Ramanathan, 2013-08-07 This volume explores the concept of citizenship and argues that it should be understood both as a process of becoming and the ability to participate fully rather than as a status that can be inherited acquired or achieved From a courtroom in Bulawayo to a nursery in Birmingham the authors use local contexts to foreground how the vulnerable particularly those from minority language backgrounds continue to be excluded whilst offering a powerful demonstration of the potential for change offered by individual agency resistance and struggle In addressing questions such as under what local conditions does dis citizenship happen what role do language policies and pedagogic practices play and what kinds of margins and borders keep humans from fully participating The chapters in this volume shift the debate away from visas and passports to more uncertain and contested spaces of interpretation

Civic Learning, Democratic Citizenship and the Public Sphere Gert Biesta, Maria De Bie, Danny Wildemeersch, 2013-10-07 This books explores the relationships between learning democratic citizenship and the public sphere from thee interconnected angles theory methodology and research The main message of the book is that civic learning necessarily has a public character as it is learning that emerges from engagement in democratic processes and practices that occur both at the centre and the margins of society Through a combination of theoretical development methodological reflection and empirical case study the chapters in the book provide new insights in the complexities of learning in the context of the ongoing struggle for democracy

Participation, Marginalization and Welfare Services Aila-Leena Matthies, Lars Uggerhøj, 2016-05-13 Current debates around participation and marginalization dominate the agenda of many European political forums There is an increasing concern about the stability of social cohesion and a growing number of particular groups of people who are regarded as being at risk of being socially excluded or marginalized This volume goes beyond the surface of public discussions to look at the central role played by welfare services in European societies in either strengthening or hindering participatory citizenship and democracy In current discussions welfare services understood in a broad sense are centrally positioned there are high expectations that welfare services can hinder marginalization and enable participation Yet marginalization is in most cases rooted in the deeper structures of society with economy participation and involvement dependent on political or highly personal factors which are beyond the scope of welfare services This groundbreaking volume posits that participation and marginalization are twin concepts expressing opposing sides of one and the same processes faced by individuals and communities It will be essential reading for social workers sociologists and policy makers throughout Europe

Reluctant Representatives Elizabeth Ganter, 2016-11-10 How can you make decisions about Aboriginal people when you can't even talk to the people you've got here that are blackfellas So Sarah a senior Aboriginal public servant imagines a conversation with the Northern Territory Public Service Her question suggests tensions for Aboriginal and Torres Strait Islanders who have accepted the long standing invitation to join the ranks of the public service *Reluctant Representatives* gives us a rare glimpse into the working world of the individuals behind the Indigenous public sector employment statistics This empathetic exposé of the challenges of representative bureaucracy draws on interviews with Aboriginal and Torres Strait Islander Australians who have tried making it work Through Ganter's engaging narration we learn that the mere presence of Aboriginal and Torres Strait Islanders in the public service is not enough If bureaucracies are to represent the communities they serve Aboriginal and Torres Strait Islander public servants need to be heard and need to know their people are heard

by Fred Dallmayr University of Notre Dame *Analysing Social Policy* Greg Marston, Catherine McDonald, 2006-01-01 This book brings together leading international researchers to discuss governmental approaches to analysing social policies. *Analysing Social Policy* expands the scope of social policy analysis using the insights from post Foucauldian scholarship on the art of governing in liberal democracies. One of the main conclusions reached is that policy researchers need to pay much greater attention to the minutiae of policy reform and to the discursive and material ways in which power operates in policy change. The chapters comprising this book are purposefully written in a clear accessible and reflective manner with each of the contributions empirically grounded drawing on social policy problems and practices in many countries ranging from North America to Europe to Australasia. The editors address key concerns of both policy analysts as well as academic researchers attempting to locate appropriate theoretical frameworks to make sense of welfare state restructuring in the 21st century. This book will appeal to researchers and research students in political science, social policy, social work and sociology through its demonstration of how to apply contemporary social theory to research problems. It will also be of interest to policy scholars around the world who are involved in analysing the intersections of power, politics and policy.

Beyond Cosmopolitanism Ananta Kumar Giri, 2017-10-17 Considering the different traditions of cosmopolitan thinking and experimentation, this cutting edge volume examines the contemporary revival of cosmopolitanism as a response to the challenges of living in an interdependent world. Through a unique multidisciplinary approach, it takes the debate beyond the one-sided universalism of the Euro American world and explores the multiverse of transformations which confront cosmopolitanism. The collection highlights central questions of cosmopolitan responsibility, global citizenship and justice as well as the importance of dialogue among civilizations, cultures, religions and traditions. Exploring the ethical and political dimensions of globalization, it outlines the pathways of going beyond cosmopolitanism by striving for a post colonial cosmopolis characterized by global justice, trans civilizational dialogues and dignity for all.
