Nahrstadt, 2025-06-26 Recounting the Democratic National Conventions in 1896 1904 1912 1920 and 1924 this book details the bitter inner party struggles that almost always led to Democratic losses in the fall The Democrats couldn t win an election around the turn of the 20th century not because they couldn t find good candidates but because of the infighting and bitter nomination battles that took place prior to and during their national conventions With the exception of 1912 when Woodrow Wilson won the presidency because of the rift between Theodore Roosevelt and William Howard Taft and 1916 when Wilson barely won reelection the Democrats lost six of the eight presidential elections that took place between 1896 and 1924 In 1896 1904 1920 and 1924 that loss was directly attributable to the bruising convention fights that preceded the November general election This book tells the story of each of these contentious conventions the issues facing the country heading into the conventions and the general election the background and personalities of the men who fought for the nomination and the tumultuous rivalries among Democratic factions in the face of the Republicans relative unity Promised Land David Stebenne, 2021-07-20 Explains how the American middle class ballooned at mid century until it dominated the nation showing who benefited and what brought the expansion to an end The Production of American Religious Freedom Finbarr Curtis, 2016-08-02 Americans love religious freedom Few agree however about what they mean by either religion or freedom Rather than resolve these debates Finbarr Curtis argues that there is no such thing as religious freedom Lacking any consistent content religious freedom is a shifting and malleable rhetoric employed for a variety of purposes While Americans often think of freedom as the right to be left alone the free exercise of religion works to produce challenge distribute and regulate different forms of social power The book traces shifts in the notion of religious freedom in America from The Second Great Awakening to the fiction of Louisa May Alcott and the

films of D W Griffith through William Jennings Bryan and the Scopes Trial and up to debates over the Tea Party to illuminate how Protestants have imagined individual and national forms of identity A chapter on Al Smith considers how the first Catholic presidential nominee of a major party challenged Protestant views about the separation of church and state Moving later in the twentieth century the book analyzes Malcolm X s more sweeping rejection of Christian freedom in favor of radical forms of revolutionary change The final chapters examine how contemporary controversies over intelligent design and the claims of corporations to exercise religion are at the forefront of efforts to shift regulatory power away from the state and toward private institutions like families churches and corporations The volume argues that religious freedom is produced within competing visions of governance in a self governing nation
