*The Politics of Retribution in Europe* Istvan Deak, Jan Gross, Tony Judt, 2000-04-01      *The Politics of Retribution in Europe* István Deák, Jan T. Gross, Tony Judt, 2009-11-06 The presentation of Europe's immediate historical past has quite dramatically changed. Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told. Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler's Europe not resistance fighters but millions actively co-operated with and many millions more rather easily accommodated to Nazi rule. Moreover after the war those who judged former collaborators were sometimes themselves former collaborators. Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment. Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed. This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent. In inspiring essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war's aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history. In short these scholars explore how the drama of the immediate past was and was not successfully overcome. Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs. Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe. Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse László Karsai Mark Mazower and Peter Romijn as well as the editors. Taken separately their essays are significant contributions to the contemporary history of several European countries. Taken together they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium.

**The Holocaust, Religion, and the Politics of Collective Memory** Ronald J. Berger, 2017-07-05 The program of extermination Nazis called the Final Solution took the lives of approximately six million Jews amounting to roughly 60 percent of European Jewry and a third of the world's Jewish population. Studying the Holocaust from a sociological perspective Ronald J. Berger explains why the Final Solution happened to a particular people for particular reasons why the Jews were for the Nazis the central enemy. Taking a unique approach in its examination of the devastating event *The Holocaust Religion and the Politics of Collective Memory* fuses history and sociology in its study of the Holocaust. Berger's book illuminates the Holocaust as a social construction. As historical scholarship on the Holocaust has proliferated perhaps no other tragedy or event has been as thoroughly

documented Yet sociologists have paid less attention to the Holocaust than historians and have been slower to fully integrate the genocide into their corpus of disciplinary knowledge and realize that this monumental tragedy affords opportunities to examine issues that are central to main themes of sociological inquiry Berger's aim is to counter sociologists who argue that the genocide should be maintained as an area of study unto itself as a topic that should be segregated from conventional sociology courses and general concerns of sociological inquiry The author argues that the issues raised by the Holocaust are central to social science as well as historical studies

**In War's Wake** Gerard Daniel Cohen, 2012 After WWII Europe was awash in refugees Never in modern times had so many been so destitute and displaced No longer subjects of a single nation state this motley group of enemies and victims consisted of Jewish survivors of the Holocaust ex Soviet POWs ex forced laborers in the Third Reich legions of people who fled the advancing Red Army and many thousands uprooted by the sheer violence of the war This book argues that postwar international relief operations went beyond their stated goal of civilian rehabilitation and contributed to the rise of a new internationalism setting the terms on which future displaced persons would be treated by nations and NGOs

The Politics of Moderation in Modern European History Ido de Haan, Matthijs Lok, 2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century *Juste Milieu* and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view

**Laboring Along** Adrian Grama, 2018-11-05 Products of war rather than revolution the socialist regimes of Eastern Europe emerged in a global conjuncture defined by the aftermath of the Second World War How did these regimes manage to overcome the domestic impact of the war and build socialism at the same time This book shows how a commitment to productivity structured the transition from the period of postwar reconstruction to the take off of industrial development during the late 1950s Conceived as 1 pacification of labor relations 2 the recovery of managerial authority 3 monetarization of everyday life 4 rationalization and 5 austerity the politics of productivity provides a comprehensive conceptual framework for grasping together the end of the postwar period and the building of state socialism in Eastern Europe By revealing how the social consequences of the Second World War were absorbed in the transition to authoritarian state socialism in the age of the rolling steel mill this book carries implications for the way in which we may think about the aftermath of wars reconstruction and development during the second half of the twentieth century

**The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe** Liviu Damşa, 2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property

Goda, 2017-12-29 Since the end of World War II the ongoing efforts aimed at criminal prosecution restitution and other forms of justice in the wake of the Holocaust have constituted one of the most significant episodes in the history of human rights and international law As such they have attracted sustained attention from historians and legal scholars This edited collection substantially enlarges the topical and disciplinary scope of this burgeoning field exploring such varied subjects as literary analysis of Hannah Arendt's work the restitution case for Gustav Klimt's Beethoven Frieze and the ritualistic aspects of criminal trials

**Hitler's Collaborators** Philip Morgan, 2018-06-03 Hitler's Collaborators focuses the spotlight on one of the most controversial and uncomfortable aspects of the Nazi wartime occupation of Europe the citizens of those countries who helped Hitler Although a widespread phenomenon this was long ignored in the years after the war when peoples and governments understandably emphasized popular resistance to Nazi occupation as they sought to reconstruct their devastated economies and societies along anti fascist and democratic lines Philip Morgan moves away from the usual suspects the Quislings who backed Nazi occupation because they were fascists and focuses instead on the businessmen and civil servants who felt obliged to cooperate with the Nazis These were the people who faced the most difficult choices and dilemmas by dealing with the various Nazi authorities and agencies and who were ultimately responsible for gearing the economies of the occupied territories to the Nazi war effort It was their choices which had the greatest impact on the lives and livelihoods of their fellow countrymen in the occupied territories including the deportation of slave workers to the Reich and hundreds of thousands of European Jews to the death camps in the East In time as the fortunes of war shifted so decisively against Germany between 1941 and 1944 these collaborators found themselves trapped by the logic of their initial cooperation with their Nazi overlords caught up between the demands of an increasingly desperate and extremist occupying power growing internal resistance to Nazi rule and the relentlessly advancing Allied armies

*Bringing the Dark Past to Light* John-Paul Himka, Joanna Beata Michlic, 2019-06-12 Despite the Holocaust's profound impact on the history of Eastern Europe the communist regimes successfully repressed public discourse about and memory of this tragedy Since the collapse of communism in 1989 however this has changed Not only has a wealth of archival sources become available but there have also been oral history projects and interviews recording the testimonies of eyewitnesses who experienced the Holocaust as children and young adults Recent political social and cultural

developments have facilitated a more nuanced and complex understanding of the continuities and discontinuities in representations of the Holocaust People are beginning to realize the significant role that memory of Holocaust plays in contemporary discussions of national identity in Eastern Europe This volume of original essays explores the memory of the Holocaust and the Jewish past in postcommunist Eastern Europe Devoting space to every postcommunist country the essays in *Bringing the Dark Past to Light* explore how the memory of the dark pasts of Eastern European nations is being recollected and reworked In addition it examines how this memory shapes the collective identities and the social identity of ethnic and national minorities Memory of the Holocaust has practical implications regarding the current development of national cultures and international relationships
