Changing Landscapes for Childhood and Youth in Europe Vassiliki Deliyianni,2014-06-02 Contemporary social transformations characterised by multi dimensional globalisation and technological change have lent new impetus to the emergence of internationally oriented and interdisciplinary childhood and youth studies Analysis of sharpened polarisations of chances and risks within and between generations in specific life circumstances meets up with the re conceptualisation of childhood and youth as social constructions within the life course As such insulated national discourses are no longer an adequate framework to address such issues economic and cultural globalisation processes exert dual and reciprocal influences restructuring societies and identities from within and without This collection offers a three fold thematic focus on the social construction of the life course privileging gendered and family transitions and transformations on the contours of not belonging in particular bringing migration and poverty into the spotlight and on the potential of virtual worlds for creating and enabling new positive and negative forms of individual social and political action on the part of young people This collection thus offers a particular snapshot of the current landscape of childhood and youth studies and it provides a set of exemplars from diverse national contexts Each chapter can stand for itself but the contributions are ordered thematically not according to the corner of the world from which they derive As the introductory chapter explores the intention is via a loose vectoring of theme and context to encourage multiple opportunities for reflection on relations between the specificities and commonalities of children s and young people s lives today This volume joins the growing library of scholarly resources for international and interdisciplinary childhood and youth studies it brings together well established and young scholars writing from an unusual range of national and cultural contexts The collection will be of interest not simply for specialist researchers and those in related fields but equally as a teaching and learning resource for higher education professionals and students in social sciences and education including courses that link theory and research with policy and practice

Information Society and Globalization ,2011 Gender and Popular Visual Culture in India Francis Philip Barclay,Kaifia Ancer Laskar,2023-11-03 Perhaps male mindedness seems to have adapted to changing contemporary circumstances to become more covert and conspiratorial Sexist suggestions through objectification and substantiated subordination for instance may have been explicit in Indian media a decade earlier But in the contemporary times of online social media and vociferous feminism such openness of unfairness against women in the media will more

often than not be met with strife and unpalatable backlash fearing which blatant prejudice is prudently steered clear of It is hence understandable that patriarchy to sustain itself as a culture has adapted to become more benevolent in an increasingly hostile environment To identify such sly and stealthy sexism embedded in media content one may need a reconfigured grasp of contemporary feminist issues and an altered nuance for isolation and identification of discriminatory depictions This book exposes redefined and hidden sexism that predominates the popular visual culture of India particularly investigating mass and new media representations that are a prime part of and have a domineering effect on the ensemble of popular visual culture and characterises contemporary feminist movements It binds a collection of contemporary Indian case studies of sexism and feminism encompassing communication media such as print cinema television Web series and social media There is a lack of book titles that study media sexism in the present times and the proposed book aims to explore an unexplored area that is of social and scholarly importance This book highlights the duality of media platforms while media is a critical tool associated with fourth wave feminism they still remain to be a deterrent to the development of women engendering inherent and age old patriarchal notions This book will be an eye opener to the general readers about benevolent sexism and train them to identify sexism hidden in seemingly pro women media representations

Civic Hope Roderick P. Hart, 2018-03-22 Civic Hope is a history of what everyday Americans say in their own words about the government overseeing their lives Based on a highly original analysis of 10 000 letters to the editor from 1948 to the present published in

twelve US cities the book overcomes the limitations of survey data by revealing the reasons for people's attitudes. While Hart identifies worrisome trends including a decline in writers' abilities to explain what their opponents believe and their attachment to national touchstones, he also shows why the nation still thrives. Civic Hope makes a powerful case that the vitality of a democracy lies not in its strengths but in its weaknesses and in the willingness of its people to address those weaknesses without surcease. The key Hart argues is to sustain a culture of argument at the grassroots level.

Political Media Relations Online as an Elite Phenomenon Jan Niklas Kocks, 2016-04-07 Jan Niklas Kocks explores the effects of the now almost ubiquitous online media on political media relations and the interactions defining them. He analyses the ways in which leading political spokespersons and journalists perceive digitisation in terms of technological, organisational and political change as well as the actual adaptations of digitisation on an individual and organisational level. Political media relations are approached from a perspective of social network analysis. Findings indicate a picture of political media relations as a continuing elite phenomenon. Networks are still mostly characterised by exclusive arrangements and often to an even larger degree than the actors involved actually perceive.
