Politics Theology And History:

Politics, Theology and History Raymond Plant, 2001-01-29 This book examines the moral foundations of liberal societies through the role of Christian belief in public policy

Christianity and Politics C. C. Pecknold, 2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country. It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity. In this brief guide to the history of Christianity and politics, Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time, participation and communion with God and neighbor. The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods. Shifts in how we understand the nature of the person, community and the moral conscience that would give birth to a new relationship between Christianity and politics. While we have many accounts of this narrative from either political or ecclesiastical history, we have few that avoid the artificial separation of the two. This book fills that gap and presents a readable, concise and thought-provoking introduction to what is at stake in the contentious relationship between Christianity and politics.

American Political Theology Chas Dunn, 1984-08-15 Dunn has admirably fulfilled his modest and useful intention to provide in textbook fashion a dispassionate exposition of how, why and when politics and religion intersect.

Chronicles Postsecular History Maxwell Kennel, 2022 This book explores how contemporary approaches to the meaning of time and history follow patterns that are simultaneously political and theological. Even after postsecular critiques of Christianity, religion and secularity, many influential ways of dividing time and history continue to be formed by providential narratives that mediate between experience and expectation in movements from promise to fulfillment. In response to persistent theological influences within ostensibly secular ways of understanding time and history, *Postsecular History* revisits and revises the concept of periodization by tracing powerful efforts to divide time into past, present and future and by critiquing historical partitions between the Reformation and Enlightenment. Developing a postsecular critique of theopolitical periodization in six chapters, *Postsecular History* questions how relations of possession, novelty, freedom and instrumentality implied in the prefix 'post' are reproduced in postsecular discourses and the field of political theology.

The Encyclopedia of Christianity, Vol. 5 Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world, the articles in this volume range from sin, Sufism and terrorism to theology in the 19th and 20th centuries, Vatican I and II and the virgin birth.

The English Modernist Novel as Political Theology Charles Andrews, 2024-01-11 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE. Novels by Virginia Woolf, D. H. Lawrence, Evelyn Waugh and Sylvia Townsend Warner as political theology works that imagine a resistance to the fusion of Christianity and patriotism which fuelled and supported the First World War. This book shows how we can gain valuable insights from their works for anti-militarist, anti-statist and anti-nationalist efforts today. While none of the four novelists in this study were committed

Christians during the 1920s Andrews explores how their fiction written in the wake of the First World War operates theologically when it challenges English civil religion the rituals of the nation that elevate the state to a form of divinity Bringing these novels into a dialogue with recent political theologies by theorists and theologians including Giorgio Agamben William Cavanaugh Simon Critchley Michel Foucault Stanley Hauerwas and Jürgen Moltmann this book shows the myriad ways that we can learn from the authors theopolitical imaginations Andrews demonstrates the many ways that these novelists issue a challenge to the problems with civil religion and the sacralized nation state and in so doing offer alternative visions to coordinate our inner lives with our public and collective actions Theo-politics of the Hussite Movement Martin Pjecha,2024-08-26 This intellectual history of the dissident Hussite reform movement in early 15th century Bohemia explains the process of Hussite radicalization which led to their overthrow of secular and religious structures in the so called first European revolution It does this by discovering the political relevance of diverse heterodox leaders and the discourses they adapted into mobilizing calls to conflict As such the work represents a reimagining of the Hussite revolution which emphasizes the symbolic worldview of its agents This includes an appreciation of the Hussite debt to unexpected traditions of thought and of the movement's participation in innovative visions of theopolitical order Apocalyptic Political Theology Thomas Lynch,2019-01-24 Hegel's philosophy of religion contains an implicit political theology When viewed in connection with his wider work on subjectivity history and politics this political theology is a resource for apocalyptic thinking In a world of climate change inequality oppressive gender roles and racism Hegel can be used to theorise the hope found in the end of that world Histories of apocalyptic thinking draw a line connecting the medieval prophet Joachim of Fiore and Marx This line passes through Hegel who transforms the relationship between philosophy and theology by philosophically employing theological concepts to critique the world Jacob Taubes provides an example of this Hegelian political theology weaving Christianity Judaism and philosophy to develop an apocalypticism that is not invested in the world Taubes awaits the end of the world knowing that apocalyptic destruction is also a form of creation Catherine Malabou discusses this relationship between destruction and creation in terms of plasticity Using plasticity to reformulate apocalypticism allows for a form of apocalyptic thinking that is immanent and materialist Together Hegel Taubes and Malabou provide the resources for thinking about why the world should end The resulting apocalyptic pessimism is not passive but requires an active refusal of the world

T&T Clark Handbook of Political Theology Rubén Rosario Rodríguez,2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars **God, Race, and History** Matt R. Jantzen,2021-02-05 In crafting racial

visions of the modern world European thinkers appropriated the Christian doctrine of providence constructing the idea of European humanity's rule over the globe on the model of God's rule over the universe As a powerful ordering theory of the relationship between God and creation time and space self and other the doctrine served as an intellectual framework for the theorization of whiteness as the male European subject replaced Jesus Christ as the human being at the center of world history Through an analysis of the work of G W F Hegel Karl Barth and James H Cone *God Race and History* examines this subversion of the Christian doctrine of providence as well as subsequent attempts within modern Protestant theology to liberate the doctrine from its captivity to whiteness It then develops a constructive political theology of providence in conversation with Delores S Williams and M Shawn Copeland discerning Jesus Christ at work through the Holy Spirit in the struggles of ordinary overlooked and oppressed human creatures to survive and to carve out a flourishing life for themselves their communities and their world

Leo Strauss and the Theologico-Political Problem Heinrich Meier, 2006-12-25 This book by one of the most prominent interpreters of Leo Strauss's thought was the first to address the problem that Leo Strauss himself said was the theme of his studies the theologico political problem or the confrontation with the theological and the political alternative to philosophy as a way of life In his theologico political treatise which comprises four parts and an appendix Heinrich Meier clarifies the distinction between political theology and political philosophy and reappraises the unifying center of Strauss's philosophical enterprise The book is the culmination of Meier's work on the theologico political problem It will interest anyone who seeks to understand both the problem caused by revelation for philosophy and the challenge posed by political religious radicalism The appendix makes available for the first time two lectures by Strauss that are immediately relevant to the subject of this book and that will open the way for future research and debate on the legacy of Strauss

Theology and World Politics Vassilios Paipais, 2020 Situated within the wider post secular turn in politics and international relations this volume focuses not on religion per se but rather explicitly on theology Contributions to this collection highlight the political theological foundations of international theory and world politics recasting theology and politics as symbiotic discourses with all the risks promises and open questions this relation may involve The overarching claim the book makes is that all politics has theology embedded in it both in the genealogical sense of carrying ineradicable traces of rival theological traditions and also in the more ontological sense of being enacted by alternative configurations of the theologico political The book is unique in bringing together a diverse group of scholars spanning knowledge areas as varied as IR political theory philosophy theology and history to investigate the complex interconnections between theology and world politics It will be of interest to students and scholars of political theory international relations intellectual history and political theology Vassilios Paipais is Lecturer in International Relations at the University of St Andrews UK He is the author of *Political Ontology and International Political Thought Voiding a Pluralist World* 2017

Thinkers of Our Time Paul Gottfried, 1990-01-01

Two Reformers Caryn D. Riswold, 2007-07-15 By them we have been carried away out of our own land as into a Babylonian captivity and despoiled of all our precious possessions Martin Luther 1520 Their goal is our deracination which is detachment from one's background as from homeland customs traditions Thus women and other Elemental creatures on this planet are rendered homeless cut off from knowledge of our Race's customs and traditions Mary Daly 1984 What is this land this world of which these two theologians are speaking Why do the two statements above sound similar in the authors longing for a true home for our own land And who is this them who carries us away and cuts us off Could it be possible that Martin Luther and Mary Daly different in almost every way are saying something similar Why do these key figures in the Christian theological tradition who come from different times places and politics engage in such a parallel task How is this possible This book examines a series of surprising parallels between two key reforming figures in

the Christian theological tradition and suggests that the two are in fact engaged in the same task political theology Applying a new label to familiar theologians enables readers to see both of them as well as their reformations in a new light The sixteenth century Reformation and second wave feminism are viewed through the pioneering work of Luther and Daly here to further establish the political content and consequence of these theologians

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crawcroft, Gordon Pentland, 2018 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges
