Muehlenbeck, 2021-04-30 As Marko Duman i writes in his introduction to Gender Sexuality and the Cold War despite the centrality of gender and sexuality in human relations their scholarly study has played a secondary role in the history of the Cold War It is not an exaggeration to say that few were left unaffected by Cold War gender politics even those who were in charge of producing disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period to the policing of sexuality inside the militaries of the world Gender Sexuality and the Cold War brings together a diverse group of scholars whose combined research spans fifteen countries across five continents claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War Table of Contents Preface Introduction Hidden in Plain Sight The Histories of Gender and Sexuality during the Cold War Marko Duman i Part I Sexuality Faceless and Stateless French Occupation Policy toward Women and Children in Postwar Germany 1945 1949 Katherine Rossy Patriarchy and Segregation Policing Sexuality in US Icelandic Military Relations Valur Ingimundarson Queering Subversives in Cold War Canada Patrizia Gentile Nonreligious Activities Sex Anticommunism and Progressive Christianity in Late Cold War Brazil Benjamin A Cowan Manning the Enemy US Perspectives on International Birthrates during the Cold War Kathleen A Tobin Part II Femininities Indian Peasant Women s Activism in a Hot Cold War Elisabeth Armstrong The Medicalization of Childhood in Mexico during the Early Cold War 1945 1960 Nichole Sanders Africa s Kitchen Debate Ghanaian Domestic Space in the Age of the Cold War Jeffrey S Ahlman

years due to changes in the security landscape of world politics Yet inter state relations have continued to dominate security  
concerns in East Asia This has unfortunately eluded the broader understanding of issues and challenges facing the peoples of  
East Asia Home to nations with rapid economic growth and development East Asia is at the core of what some individuals  
have termed as the coming Asian Century Years of economic liberalization and exposure to globalization have permitted the  
region to achieve high levels of interconnectedness from within and without in unprecedented ways This has certainly  
reduced state control and opened up spaces for cross border human activities While economic wealth have increased  
substantially over the years it has also brought about bigger income disparities unsustainable safety nets and a surge in  
social problems from health issues to migratory concerns that threaten the safety and well being of individuals Human  
Security Securing East Asia s Future timely examines the fundamental issues causing human insecurities and evaluates the  
extent of which human security plays a role at the state and regional levels Covering the different areas of threats to humans

*Red Army Faction, A Documentary History* J. Smith, André Moncourt, 2009-02-01 The first in a two volume series this is by far the most in depth political history of the Red Army Faction ever made available in English. Projectiles for the People starts its story in the days following World War II showing how American imperialism worked hand in glove with the old pro Nazi ruling class shaping West Germany into an authoritarian anti communist bulwark and launching pad for its aggression against Third World nations. The volume also recounts the opposition that emerged from intellectuals, communists, independent leftists and then explosively the radical student movement and countercultural revolt of the 1960s. It was from this revolt that the Red Army Faction emerged an underground organization devoted to carrying out armed attacks within the Federal Republic of Germany in the view of establishing a tradition of illegal guerilla resistance to imperialism and state repression. Through its bombs and manifestos the RAF confronted the state with opposition at a level many activists today might find difficult to imagine. For the first time ever in English this volume presents all of the manifestos and communiqués issued by the RAF between 1970 and 1977 from Andreas Baader's prison break through the 1972 May Offensive and the 1975 hostage taking in Stockholm to the desperate and tragic events of the German Autumn of 1977. The RAF's three main manifestos The Urban Guerilla Concept, Serve the People and Black September are included as are important interviews with Spiegel and le Monde Diplomatique and a number of communiqués and court statements explaining their actions. Providing the background information that readers will require to understand the context in which these events occurred, separate thematic sections deal with the 1976 murder of Ulrike Meinhof in prison, the 1977 Stammheim murders, the extensive use of psychological operations and false flag attacks to discredit the guerilla, the state's use of sensory deprivation, torture and isolation wings and the prisoners resistance to this through which they inspired their own supporters and others on the left to take the plunge into revolutionary action. Drawing on both mainstream and movement sources this book is intended as a contribution to the comrades of today and to the comrades of tomorrow both as testimony to those who struggled before and as an explanation as to how they saw the world, why they made the choices they made and the price they were made to pay for having done so.
