Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions **Political Oppositions in Industrialising Asia** Garry Rodan, 2013-04-15 Industrialization has meant sweeping social transformations across Asia Some political commentators have predicted that the expansion of civil society and the rapid development of liberal democracy will necessarily follow The contributors to this volume dissect the extent of political opposition in Asia and analyze the nature of new social movements outside institutional party politics which are contesting the exercise of state power Nine original case studies explore the variety of political oppositions across Asia from non governmental organizations and the formal opponents of the PAP in Singapore to Chinese dissidents based outside the People's Republic of China All take up the

challenge of looking at political opposition in the light of the new social phenomenon of the rising middle class or new rich of Asia Garry Rodan's hard hitting analysis of the problems of current political theorizing in relation to Asia sets the case studies firmly in the context of wider debates about democratization Political Oppositions in Industrialising Asia shatters complacent assumptions about the progress of liberal democracy *The US Versus the North Korean Nuclear Threat* Er-Win Tan, 2013-11-26 Although the current world order is still dominated by the US there is increasing international concern over the possibility of regional security dilemmas arising from smaller powers attempts to develop Weapons of Mass Destruction A study of US North Korean interaction using the security dilemma as a conceptual frame of analysis is thus not only hugely topical but also particularly relevant for the 21st century on theoretical as well as empirical grounds Is there the prospect of a security dilemma contagion if North Korea acquire nuclear weapons capability leading to an Asia Pacific wide nuclear arms race This book examines this contentious issue in depth and explores the difficult choices policymakers face as a result of the uncertainty in international politics *Indonesia Betrayed* Elizabeth Fuller Collins, 2007-07-31 Supporters of neoliberalism claim that free markets lead to economic growth the creation of a middle class and the establishment of democratically accountable governments Critics point to a widening gap between rich and poor as countries compete to win foreign investment and to the effects on the poor of neoliberal programs that restrict funding for health education and welfare This book offers a ground level view from Sumatra of the realities behind these debates during the final years of Suharto's New Order and the beginning of a transition to more democratic government The author's wealth of primary data from ten years of interviews and local newspaper reportage 1994-2004 shows how farmers and laborers were dispossessed by both government policies and crony capitalism Elizabeth Collins relates the stories of populist efforts in South Sumatra to combat development policies responsible for producing extreme poverty and allowing corruption to flourish She describes how student led NGOs worked with farmers fighting to retain their livelihoods in the lowland forests of South Sumatra She reports on a local branch of the Indonesian Environmental Forum as it battled multinational companies and Indonesian conglomerates responsible for damage to the environment on contract workers protesting exploitation by a company with ties to a Suharto crony and on systemic corruption under the New Order which spread throughout all levels of government and into civil society organizations She examines the sometimes strained relationships between Islamists and human rights activists arguing that there is no inherent contradiction between Islam and democratic politics Collins concludes that for real change to occur neoliberal capitalism must be recognized as a utopian ideology democracy imperfect as it offers the best hope for sustainable development in Indonesia **Journalism and Conflict in Indonesia** Steve Sharp, 2013 This book examines through the case study of Indonesia over recent decades how the reporting of violence can drive the escalation of violence and how journalists can alter their reporting practices in order to have the opposite effect and promote peace It discusses the nature of press freedom in Indonesia from 1966 onwards considers the relationship between the press and

politicians and explores journalistse tm working methods It goes on to outline in detail the communal wars in eastern Indonesia in the period 1999 2000 arguing that communication as much as physical preparations for violence were key to bringing about the wars with journalistse tm rigid professional routines and newswriting conventions causing them to reproduce and enlarge the battle cries of those at war The book concludes by advocating a development communication approach to journalism in transitional settings in order to help journalists to counter the disintegrative tendencies of failing states and the communal strife that can result

Book News Inc Islamism and the Quest for Hegemony in Indonesia Luqman Nul Hakim,2023-02-25 This book examines the failure of Islamic politics in becoming a hegemonic force in Indonesia and the far reaching consequences for current practices of democracy and of Islam itself In contrast to the thesis of compatibility between Islam and democracy following the dominant discourse of the Global War on Terror GWOT and neoliberal democracy this study situates Islamic politics in broader social settings by examining its nature and trajectories throughout Indonesia s modern political history The book thus investigates how the practices of Islamic politics or Islamism have shaped and been transformed through political contestations and the formation of coalitions of multiple forces in constructing Indonesia s socio political landscape Using the concept of hegemony from poststructuralist discourse theory the analytical framework applied in this book goes beyond liberal epistemologies of Islamism that prescribe the separation of religion from politics and treat Islamism as an object of intervention Instead the book is premised on the contention that Indonesia is a political construction in which Islam has become one of the major discourses that have defined and transformed Indonesia s nation state throughout history In this view it is argued that the nature and dynamics of Islamism are not driven primarily by different interpretations of religious doctrines cultural norms or by the imperative of institutions Rather the struggles of different Islamist projects in their quest for hegemony are contingent on the outcomes of socio political changes and contestations that involve multiple political forces both within and beyond the Islamists in specific historical conjunctures

Korostelina,2006-10-26 Identity Morality and Threat offers a critical examination of the social psychological processes that generate outgroup devaluation and ingroup glorification as the source of conflict Dr Daniel Rothbart and Dr Karina Korostelina bring together essays analyzing the causal relationship between escalating violence and opposing images of the Self and Other The essays confront the practice of demonizing the Other as a justification for violent conflict and the conditions that enable these distorted images to shape future decisions The authors provide insight into the
