**Christian Meier**

## **Politics In The Ancient World:**

Politics in the Ancient World Moses I. Finley, 1983-07-07 Sir Moses Finley explores politics in the city states of Greece and republican Rome and their impact on our understanding of the ancient world Politics in the Ancient World , 1991

**Politics Ancient and Modern** Pierre Vidal-Naquet, 1995-10-30 Written by one of the leading ancient historians in the world today this book shows how politics in the ancient world has been interpreted and re interpreted through the ages **A Companion to Greek and Roman Political Thought** Ryan K. Balot, 2012-12-26 A COMPANION TO GREEK AND ROMAN POLITICAL THOUGHT Justice virtue and citizenship were at the center of political life in ancient Greece and Rome and were frequently discussed by classical poets historians and philosophers This Companion illuminates Greek and Roman political thought in all its range diversity and depth Thirty four essays from leading scholars in history classics philosophy and political science provide stimulating discussions of classical political thought ranging from the Archaic Greek epics to the final days of the Roman Empire and beyond These essays strike a judicious yet thought provoking balance between theoretical and historical perspectives A Companion to Greek and Roman Political Thought is an authoritative guide to the ancient Greek and Roman political questions that continue to shape and challenge the modern world **Moses Finley and Politics** William V. Harris, 2013-11-14 Moses Finley 1912 1986 was one of the most widely read scholarly historians and journalists of his age having grown famous with *The World of Odysseus* and he exercised a transformative influence on the study of the history of Greek and Roman antiquity In this centenary volume distinguished ancient historians and Americanists analyse Finley s political and intellectual evolution and attempt to understand the paradoxes of the young leftist and victim of McCarthyism whose work owes more to Weber than to Marx and of the young Jewish scholar Moses Finkelstein who distanced himself from Jewishness The Politics of Inequality Michael Thompson, 2007 Since the early days of the American republic political thinkers have maintained that a grossly unequal division of property wealth and power would lead to the erosion of democratic life Yet over the past thirty five years neoconservatives and neoliberals alike have redrawn the tenets of American liberalism Nowhere is this more evident than in our current mainstream political discourse in which the politics of economic inequality are rarely discussed In this impassioned book Michael J Thompson reaches back into America s rich intellectual history to reclaim the politics of inequality from the distortion of recent American conservatism He begins by tracing the development of the idea of economic inequality as it has been conceived by political thinkers throughout American history Then he considers the change in ideas and values that have led to the acceptance and occasional legitimization of economic divisions Thompson argues that American liberalism has made a profound departure from its original practice of egalitarian critique It has all but abandoned its antihierarchical and antiaristocratic discourse Only by resuscitating this tradition can democracy again become meaningful to Americans The intellectuals who pioneered egalitarian thinking in America believed political and social relations should be free from all forms of domination servitude

and dependency They wished to expose the antidemocratic character of economic life under capitalism and hoped to prevent the kind of inequalities that compromise human dignity and freedom the core principles of early American politics In their wisdom is a much broader more compelling view of democratic life and community than we have today and with this book Thompson eloquently and adamantly fights to recover this crucial strand of political thought In this impassioned book Michael J Thompson reaches back into America s rich intellectual history to reclaim the politics of inequality from the distortion of recent American conservatism He begins by tracing the development of the idea of economic inequality as it has been conceived by political thinkers throughout American history Then he considers the change in ideas and values that have led to the acceptance and occasional legitimization of economic divisions Thompson argues that American liberalism has made a profound departure from its original practice of egalitarian critique it has all but abandoned its antihierarchical and antiaristocratic discourse Only by resuscitating this tradition can democracy again become meaningful to Americans The intellectuals who pioneered egalitarian thinking in America believed political and social relations should be free from all forms of domination servitude and dependency They wished to expose the antidemocratic character of economic life under capitalism and hoped to prevent the kind of inequalities that compromise human dignity and freedom the core principles of early American politics In their wisdom is a much broader more compelling view of democratic life and community than we have today and with this book Thompson eloquently and adamantly fights to recover this crucial strand of political thought

*The End of Politics?* Andreas Schedler, 2016-07-27 Since communism collapsed we have witnessed the emergence of numerous political actors neopopulists neoliberals fundamentalists nationalists and others who share one ideological leitmotif their deep contempt for modern democratic politics The book asks an old question What is politics And it adds a new one to the agenda of social sciences What is antipolitics Some authors trace antipolitical traditions in Western political thought while others analyze the rhetoric of contemporary antipolitical actors in the US the former Soviet Union and South America The book contains contributions from Charles H Fairbanks Jr Barry Hindess Erwin A Jaffe Norbert Lechner Jose Nun Louis Pauly Andreas Schedler and Gershon Weiler

**Cities, Politics & Power** Simon Parker, 2010-11-02 Traditionally the study of power in the city was confined to the institutions of urban government and the actors involved in contesting and making political decisions in and for metropolitan societies Increasingly however attention has turned to the function of the city not only as a centre of urban governance but as a major economic social cultural and strategic force in its own right *Cities Politics and Power* combines this traditional concern with how the cities in which we live are organized and run with a broader focus on cities and urban regions as multiple sites and agents of power This book is divided into five sections with a short introduction outlining the argument and organisation of the text Part two charts the development of the urban polity and considers the ways in which coercion and force continue to be used to segregate oppress and annihilate urban populations Part three critically examines the key collective actors and processes that compete for and organise political

power within cities and how urban governance operates and interacts with lesser and greater scales of government and networks of power Part four then explores the ways in which the political is constituted by urban inhabitants and how social identity information and communication networks and the natural and built environment all comprise intersecting fields of urban power The conclusion calls for a broader theoretical and thematic approach to the study of urban politics This book makes extensive use of comparative and historical case studies providing broad coverage of politics and urban movements in both the Global North and the Global South with a particular focus on the UK USA Canada Latin America and China It is written in an accessible and lucid style and provides suggestions for further reading at the end each chapter

*The Greek Discovery of Politics* Christian Meier, 1990 Why the Greeks How did it happen that these people out of all Mediterranean societies developed democratic systems of government The outstanding German historian of the ancient world Christian Meier reconstructs the process of political thinking in Greek culture that led to democracy He demonstrates that the civic identity of the Athenians was a direct precondition for the practical reality of this form of government Meier shows how the structure of Greek communal life gave individuals a civic role and discusses a crucial reform that institutionalized the idea of equality before the law In Greek drama specifically Aeschylus Oresteia he finds reflections of the ascendancy of civil law and of a politicizing of life in the city state He examines the role of the leader as well as citizen participation in Athenian democracy and describes an ancient equivalent of the idea of social progress He also contrasts the fifth century Greek political world with today's world drawing revealing comparisons The Greek Discovery of Politics is important reading for ancient historians classicists political scientists and anyone interested in the history of political thought or in the culture of ancient Greece

*Essays on the Foundations of Aristotelian Political Science* Carnes Lord, David K. O'Connor, 2023-11-15

A Companion to Greek Democracy and the Roman Republic Dean Hammer, 2014-08-25 A Companion to Greek Democracy and the Roman Republic offers a comparative approach to examining ancient Greek and Roman participatory communities Explores various aspects of participatory communities through pairs of chapters one Greek one Roman to highlight comparisons between cultures Examines the types of relationships that sustained participatory communities the challenges they faced and how they responded Sheds new light on participatory contexts using diverse methodological approaches Brings an international array of scholars into dialogue with each other

The Political Economy of Classical Athens Barry O'Halloran, 2018-11-26 Recently there has been a welcome revival of scholarly interest in the economy of classical Greece In the face of increasingly compelling arguments for the existence of a market economy in classical Athens the Finleyan orthodoxy is finally relinquishing its long dominion In this book Barry O'Halloran seeks to contribute to this renewed debate by re-interrogating the ancient evidence using more recent economic interpretative frameworks The aim is to re-evaluate accepted orthodoxies and present the economic history of this emblematic city state in a new light More specifically it analyses the economic foundations of Athens through the prism of its navy Its macroeconomic approach utilises an

employment demand model through which enormous naval defence expenditures created an exceptional period of demand led economic growth

### **Politics Ancient and Modern. I. The Prophets of the Old Testament** Sir Edward

Strachey,1862      *A Companion to the Political Culture of the Roman Republic* Valentina Arena,Jonathan R. W. Prag,Andrew Stiles,2022-01-25 An insightful and original exploration of Roman Republic politics In *A Companion to the Political Culture of the Roman Republic* editors Valentina Arena and Jonathan Prag deliver an incisive and original collection of forty contributions from leading academics representing various intellectual and academic traditions The collected works represent some of the best scholarship in recent decades and adopt a variety of approaches each of which confronts major problems in the field and contributes to ongoing research The book represents a new updated and comprehensive view of the political world of Republican Rome and some of the included essays are available in English for the first time Divided into six parts the discussions consider the institutionalized loci political actors and values rituals and discourse that characterized Republican Rome The Companion also offers several case studies and sections on the history of the interpretation of political life in the Roman Republic Key features include A thorough introduction to the Roman political world as seen through the wider lenses of Roman political culture Comprehensive explorations of the fundamental components of Roman political culture including ideas and values civic and religious rituals myths and communicative strategies Practical discussions of Roman Republic institutions both with reference to their formal rules and prescriptions and as patterns of social organization In depth examinations of the afterlife of the Roman Republic both in ancient authors and in early modern and modern times Perfect for students of all levels of the ancient world *A Companion to the Political Culture of the Roman Republic* will also earn a place in the libraries of scholars and students of politics political history and the history of ideas

### **Second**

**international conference of economic history** International Conference of Economic History,1965      *Augustine's Political Thought* Richard J. Dougherty,2019 This important collection reveals that Augustine s political thought drew on and diverged from the classical tradition contributing to the study of questions at the center of all Western political thought

*The Political Philosophy of Judith Butler* Birgit Schippers,2014-04-03 Judith Butler can justifiably be described as one of the major critical thinkers of our time While she is best known for her interventions into feminist debates on gender sexuality and feminist politics her focus in recent years has broadened to encompass some of the most pertinent topics of interest to contemporary political philosophy Drawing on Butler s deconstructive reading of the key categories and concepts of political thought Birgit Schippers expounds and advocates her challenge to the conceptual binaries that pervade modern political discourse Using examples and case studies like the West s intervention in Iraq and Afghanistan and in relation to the Israeli Palestinian conflict Schippers demonstrates how Butler s philosophically informed engagement with pressing political issues of our time elucidates our understanding of topics such as immigration and multiculturalism sovereignty or the prospect for new forms of cohabitation and citizenship beyond and across national boundaries A detailed exposition and analysis of Butler

s recent ideas championing her efforts at articulating the possibilities for radical politics and ethical life in an era of global interdependence this book makes an important contribution to the emerging field of international political philosophy

A History of Western Political Thought J. S. McClelland, Dr J S McClelland, 2005-07-15 A History of Western Political Thought is an energetic and lucid account of the most important political thinkers and the enduring themes of the last two and a half millennia Written with students of the history of political thought in mind the book traces the development of political thought from Ancient Greece to the late twentieth century focuses on individual thinkers and texts includes 40 biographies of key political thinkers offers original views of theorists and highlights those which may have been unjustly neglected develops the wider themes of political thought and the relations between thinkers over time

**Graffiti in Antiquity** Peter Keegan, 2014-10-10 Ancient graffiti hundreds of thousands of informal ephemeral texts spanning millennia offer a patchwork of fragmentary conversations in a variety of languages spread across the Mediterranean world Cut painted inked or traced in charcoal the surviving graffiti present a layer of lived experience in the ancient world unavailable from other sources Graffiti in Antiquity reveals how and why the inhabitants of Greece and Rome men and women and free and enslaved formulated written and visual messages about themselves and the world around them as graffiti The sources drawn from 800 BCE to 600 CE are examined both within their individual historical cultural and archaeological contexts and thematically allowing for an exploration of social identity in the urban society of the ancient world An analysis of one of the most lively and engaged forms of personal communication and protest Graffiti in Antiquity introduces a new way of reading sociocultural relationships among ordinary people living in the ancient world

Political Worship Bernd Wannenwetsch, 2009-06-18 How does Christian ethics begin This pioneering study explores the grammar of the Christian life as it is embodied and learned in worship as the formative experience of the fellow citizens of God's people The book presents the first in depth theological investigation of the phenomenon of political worship by exposing the political nature of worship and the worship dimension of politics In a careful analysis of biblical and traditional conceptions of worship Wannenwetsch demonstrates how the genuine political character of worship neutralizes attempts to politicize or de politicize it In the imprinting of the experience of divine reconciliation on the Christian body worship challenges the deepest antagonisms of political theory and practice antagonisms of private and public freedom and necessity and action and contemplation At the same time the spill over of worship into every sphere of life instils a healthy suspicion of post liberal conceptualizations of role mobility In the experience of hearing in communion an encounter with a word that does not deceive announces the end of the rule of the hermeneutics of suspicion Further questions discussed include the conditions of true consensus forgiveness as a political virtue political rhetoric between accountability and self justification how reversible role taking can avoid losing the otherness of the other and how the rhetoric of responsibility can be saved from hubris or depression Particular practices or dimensions of worship confession preaching praising intercession observance of holy days are examined and their

heuristic and formative potentials explored in relation to these topics A special feature of the study is a strong ecumenical and international focus The book brings into conversation a variety of traditions including Lutheran Catholic Anglican and Orthodox and contemporary voices An original contribution to Christian ethics the book addresses systematic and practical theology as well as political theory while indicating the essential interpenetration of these disciplines

## Decoding **Politics In The Ancient World**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
