Politics Of Community:

The Politics of Community Kenneth J. Winkle, 2002-07-25 Winkle explores the influence of migration as they all emerged before the Civil War

The Politics of Community Policing Wilson Edward Reed, 2013-06-17 First published in 1999 As with the other volumes in this series readers will appreciate the clear and compelling way this case study is presented Reed critiques the way in which political and economic dynamics not only threaten but convolute the intended benefits of community policing Although you may not always agree with the author's interpretations he has given us a compelling look at the potential for corruption of model programs

The Politics of Community Policing William Lyons, 2002-07-31 DIV Community policing the author argues does not necessarily empower the community but often increases the power of the police div

The Study of Language and the Politics of Community in Global Context David L. Hoyt, Karen Oslund, 2006-01-01 The essays in this volume suggest that the emergence of language as an autonomous object of discourse was closely connected with the consolidation of new and sometimes competing forms of political community in the period following the French Revolution and the global spread of European power

The History and Politics of Community Mental Health Murray Levine, 1981 I recommend this book to all mental health professionals and students in this field it provides the reader with a historical perspective that can add meaning and perhaps even reassurance to those who continue to care for the mentally ill in these uncertain times Hospital and Community Psychiatry Well worth reading and graduate students scientists and professionals who are involved even obliquely with the field of mental health should add this one to their library Contemporary Psychiatry

Partial Truths and the Politics of Community Robin L. Teske, Mary Ann Tétreault, 2003 Partial Truths and the Politics of Community considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a complex of individuals bound to one another through webs of transactions and obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance and protect human rights They consider gender discrimination in universities and colleges

the United Nations and its mixed record on women's issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms *Social Justice and the Politics of Community* Christine Everingham, 2018-01-18 This title was first published in 2003 Social welfare is the focus of much discussion and there is a broad spectrum of political opinion that agrees on the need for urgent reform The literature informing these policy debates draws on a diversity of theoretical traditions and discourses concerned with remaking community yet there has been no in depth coherent political analysis of these various positions This captivating volume provides such an analysis enabling the diverse discourses informing current social policy debates to be identified and understood in broader perspective The book frames the debates within the context of globalization and the accompanying shift in focus of social policy from issues of social justice to questions of social order It identifies the community as both the site of today's social problems and the main tool that governments have at their disposal to address these problems This portrayal of the community is both theorized and illustrated with empirical material drawn from the Australian experience of community action **Politics and Community-Based Research** Sarah Charlton, Sophie Didier, Kirsten Dörmann, Claire Bénit-Gbaffou, 2019-10-01 Politics and Community Based Research Perspectives from Yeoville Studio Johannesburg provides a textured analysis of a contested urban space that will resonate with other contested urban spaces around the world and challenges researchers involved in such spaces to work in creative and politicised ways This edited collection is built around the experiences of Yeoville Studio a research initiative based at the School of Architecture and Planning at the University of the Witwatersrand Johannesburg Through themed illustrated stories of the people and places of Yeoville the book presents a nuanced portrait of the vibrance and complexity of a post apartheid peri central neighbourhood that has often been characterised as a slum in Johannesburg These narratives are interwoven with theoretical chapters by scholars from a diversity of disciplinary backgrounds reflecting on the empirical experiences of the Studio and examining academic research processes These chapters unpack the engagement of the Studio in Yeoville including issues of trust the need to align policy with lived realities and social needs the political dimensions of the knowledge produced and the ways in which this knowledge was and could be used *Politics, Power and Community Development* Rosie Meade, Mae Shaw, Sarah Banks, 2016-01-13 The increasing impact of neoliberalism across the globe means that a complex interplay of democratic economic and managerial rationalities now frame the parameters and practices of community development This book explores how contemporary politics and the power relations it reflects and projects is shaping the field today This first title in the timely Rethinking Community Development series presents unique and critical reflections on policy and practice in Taiwan Australia India South Africa Burundi Germany the USA Ireland Malawi Ecuadorian and Peruvian Amazonia and the UK It addresses the global dominance of neoliberalism and the extent to which practitioners activists and programmes can challenge critique engage with or resist its influence

Addressing key dilemmas and challenges being navigated by students academics professionals and activists this is a vital intellectual and practical resource

Community and the Politics of Place Daniel Kemmis,1990 Thomas Jefferson envisioned a nation of citizens deeply involved in public life Today Americans are lamenting the erosion of his ideal What happened in the intervening centuries Daniel Kemmis argues that our loss of capacity for public life which impedes our ability to resolve crucial issues parallels our loss of a sense of place A renewed sense of inhabitation he maintains of community rooted in place and of people dwelling in that place in a practiced way can shape politics into a more cooperative and more humanly satisfying enterprise producing better people better communities and better places The author emphasizes the importance of place by analyzing problems and possibilities of public life in a particular place those northern states whose settlement marked the end of the old frontier National efforts to keep citizens apart by encouraging them to develop open country and rely upon impersonal procedural methods for public problems have bred stalemate frustration and alienation As alternatives he suggests how western patterns of inhabitation might engender a more cooperative face to face practice of public life Community and the Politics of Place also examines our ambivalence about the relationship between cities and rural areas and about the role of corporations in public life The book offers new insight into the relationship between politics and economics and addresses the question of whether the nation state is an appropriate entity for the practice of either discipline The author draws upon the growing literature of civic republicanism for both a language and a vantage point from which to address problems in American public life but he criticizes that literature for its failure to consider place Though its focus on a single region lends concreteness to its discussions Community and the Politics of Place promotes a better understanding of the quality of public life today in all regions of the United States

National Politics and Community in Canada R. Kenneth Carty,W. Peter Ward,1986 The authors in this collection challenge traditional notions of the minority and explore Canada s national political system and institutions as a unit

Community Activism and Feminist Politics Nancy Naples,2012-11-12 This collection demonstrates the diversity of women s struggles against problems such as racism violence homophobia focusing on the complex ways that gender culture race ethnicity and class shape women s political consciousness in the US

Social Justice and the Politics of Community Christine Everingham,2003

The Politics of Community Adrian Little,2002 This book provides a critical analysis of the historical use of the concept of community in political philosophy and sociological theory and demonstrates the problems that emanate from the division between communitarianism and liberalism Little also contrast the orthodox views on communitarianism of conservative thinkers in the U K and U S A with more radical and egalitarian perspectives and consider new ways of thinking about community in relation to social and economic policies

Understanding Community Peter Somerville,2016-04-25 This substantially revised edition of a highly topical text applies a critical approach to themes introduced in the first edition including economic development health and housing and draws upon theory from Marx and Bourdieu to offer a clearer

understanding of community in capitalist society

Class Action; Community Mobilization, Race, and the Politics of

Student Assignment in San Francisco Rand A. Quinn, 2011 The principal goal of the dissertation is to explain the political nature and effect of cultural characterizations on the development of student assignment policy Cultural characterizations are socially constructed portrayals that become influential when stakeholders mobilize to bring about change In education as the professional authority of school boards and superintendents diminishes community stakeholders are increasingly prominent They serve as critical producers and providers of cultural characterizations of public education and its beneficiaries As such the engagement of community stakeholders with public sector institutions organizations and individuals can significantly amplify modify or blunt education policy The dissertation traces the history of community mobilization in San Francisco from 1971 to 2005 during which the federal district court supervised all aspects of the school district's student assignment policy Cultural characterizations of student assignment were structured by three distinct logics of action integration choice and neighborhood These logics were stable but not fixed Changes in the institutional environment coupled with how stakeholders framed understood and shaped these logics led to transformations in student assignment policy that ultimately altered the educational experience of multiple generations of public school students Data are drawn primarily from archival documents from the federal district court the school district and community organizations mainstream and community newspaper articles letters to the editor and editorials and retrospective interviews with key stakeholders

The Community Development Reader

Craig, Gary, Mayo, Marjorie, 2011-05-18 This unique Reader traces the changing fortunes of community development through a selection of readings from key writers

The Problems of Communitarian Politics Elizabeth Frazer, 1999-10-28

The book examines the development of the idea of community in western liberal democracy and the way in which it inspires participants in community development and community politics Controversially the book argues that community is a contradictory idea which ultimately frustrates participants in democratic politics

Character, Community, and Politics

Clarke E. Cochran, 1982-03-30 A classic political philosophy text available again The revival of political philosophy has frequently assumed that a theory of human well being and fulfillment is necessary preoccupied with questions of epistemology and technical conceptual analysis In instances where the nature of the human good is considered the paradigm of autonomous individualism customarily dominates In Character Community and Politics Cochran moves away from these prevailing ideas to develop a communal theory of political order helping to redefine a number of fundamental but often neglected ideas Chief among them are commitment community responsibility and character concepts Cochran develops through discussions of authority freedom pluralism and the common good Drawing on a wide variety of fields such as philosophy ethics literature moral theology and sociology the author renews these concepts to outline a theory of human life and political order distinct from sclerotic categories such as conservatism socialism radicalism or Marxism
