*The Politics of Group Rights* Ishtiaq Ahmed, 2005 *The Politics of Group Rights* presents case studies from seven countries illuminated by the latest insights from multicultural and group rights theory that explore the political implications of cultural diversity has powerful political implications for both industrialized nations and developing countries Metaphoricity and the Politics of Mobility, 2016-08-01 This collection of essays investigates the convergence between the postmodern politics of mobility and a politics of metaphor a politics in other words in the context of which the production and displacement of meanings constitute the major stakes Ranging from discussions of re territorialization multiculturalism digisporas and transnational politics and ethics to September 11th the Pentagon's New Map American legislation on Chinese immigration Gianni Amelio's film *Lamerica* Keith Piper's online installations and Doris Salcedo's *Atrabiliarios* the collection aims to follow three different theoretical trajectories First it seeks to rethink our concepts of mobility in order to open them up to the complexity that structures the thoughts and practices of a global order Second it critically examines the privileged position of concepts and metaphors of mobility within postmodern theory In juxtaposing conflictual theoretical formulations the book sets out to present the competing responses that fuel academic debates around this issue Finally it evaluates the influence of our increasingly mobile conceptual frameworks and everyday experience on the redefinition of politics that is currently under way especially in the context of Post Marxist theory Its hope is to contribute to the production of alternative political positions and practices that will address the conflicting desires for attachment and movement marking postmodernity

and Indigenous Affairs T p verso      *Gender and Justice in Multicultural Liberal States* Monique Deveaux, 2006-11-30 Gender and Justice in Multicultural Liberal States explores the challenges that culturally plural liberal states face when they hold competing political commitments to cultural rights and sexual equality and advances an argument for resolving such dilemmas through democratic dialogue and negotiation Exploring recent examples of gendered cultural conflicts in South Africa Canada and Britain this book shows that there is an urgent need for workable strategies to mediate the antagonisms between the cultural practices and arrangements of certain ethno cultural and religious groups and the norms and constitutional rights endorsed by liberal states Yet such strategies will be successful only insofar as they can resolve conflicts without either reinforcing women s subordination within cultural communities or unjustly dismissing calls for cultural recognition and forms of self governance To this end the book develops an approach to mediating cultural tensions that takes seriously the demands of justice by cultural and religious minorities in liberal democratic states Grounded in an argument for democratic legitimacy this approach invokes norms of political inclusion and democratic dialogue and highlights negotiation and compromise as the best vehicles for arriving at resolutions to conflicts of cultural value However it also reconceives the basis of democratic legitimacy so as to include not merely formal expressions of political consent but also a range of non formal democratic activity that occur in the private and social spheres from acts of cultural reinvention and subversion to outright expressions of dissent and cultural refusal      **Multiculturalism and Identity Politics** Kalika Shah, 2019-12-20 This book aims at analysing the fiction produced by the expatriate Parsee writers of the Indian subcontinent Bapsi Sidhwa Rohinton Mistry and Boman Desai These Parsee writers of the South Asian origin have emigrated to Canada and USA in the latter part of the twentieth century Their works offer several possibilities seen from the multicultural point of view The fiction of these Parsee diasporic writers examines the problem of migration relocation and changing identities from a vantage point of distance gained by an insider s view of their community and an outsider s view from the host country Dislocations even when voluntary always have a traumatic side to it due to the process of acculturation assimilation into or differences with the host country and the issue of rights and privileges in the new location For the diasporic communities of different backgrounds their memory history and cultural beliefs are the important factors that determine their identities These Parsee novels demonstrate how individual and group collective identities of the Parsees get constructed and reconstructed redefined against the changing multinational contexts      Multicultural Questions Christian Joppke, Steven Lukes, 1999-10-07 This volume assembles leading scholars from a range of disciplines to debate multiculturalism in theory and practice The volume is grouped around four central questions raised by multiculturalism Is universalism ethnocentric Does multiculturalism threaten citizenship Do minorities require group rights and what can Europe learn from North America The book aims to answer these questions by moving the debate about multicultural questions into a more consensual mode The authors show a resistance to either endorsing or rejecting multiculturalism but a preference for dissecting and differentiating the concrete

historical and geographical contexts in which specified versions of multiculturalism make sense and others in which they do not

American Identity and the Politics of Multiculturalism Jack Citrin, David O. Sears, 2014-08-11 The civil rights movement and immigration reform transformed American politics in the mid 1960s Demographic diversity and identity politics raised the challenge of *e pluribus unum* anew and multiculturalism emerged as a new ideological response to this dilemma This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group conscious policies The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms such as by insisting on the primacy of English

**The Politics of Multiculturalism** Robert W. Hefner, 2001-08-31 Few challenges to the modern dream of democratic citizenship appear greater than the presence of severe ethnic religious and linguistic divisions in society With their diverse religions and ethnic communities the Southeast Asian countries of Malaysia Singapore and Indonesia have grappled with this problem since achieving independence after World War II Each country has on occasion been torn by violence over the proper terms for accommodating pluralism Until the Asian economic crisis of 1997 however these nations also enjoyed one of the most sustained economic expansions the non Western world has ever seen This timely volume brings together fifteen leading specialists of the region to consider the impact of two generations of nation building and market making on pluralism and citizenship in these deeply divided Asian societies Examining the new face of pluralism from the perspective of markets politics gender and religion the studies show that each country has developed a strikingly different response to the challenges of citizenship and diversity The contributors most of whom come Southeast Asia pay particular attention to the tension between state and societal approaches to citizenship They suggest that the achievement of an effectively participatory public sphere in these countries will depend not only on the presence of an independent civil society but on a synergy of state and society that nurtures a public culture capable of mediating ethnic religious and gender divides The Politics of Multiculturalism will be of special interest to students of Southeast Asian history and society anthropologists grappling with questions of citizenship and culture political scientists studying democracy across cultures and all readers concerned with the prospects for civility and tolerance in a multicultural world

**Multicultural Odysseys** Will Kymlicka, 2009-02-05 We are currently witnessing the global diffusion of multiculturalism both as a political discourse and as a set of international legal norms States today are under increasing international scrutiny regarding their treatment of ethnocultural groups and are expected to meet evolving international standards regarding the rights of indigenous peoples national minorities and immigrants This phenomenon represents a veritable revolution in international relations yet has received little public or scholarly attention In this book Kymlicka examines the factors underlying this change and the challenges it raises Against those critics who argue that multiculturalism is a threat to universal human rights Kymlicka shows that the sort of multiculturalism that is being globalized is inspired and constrained by the human rights revolution and embedded in a framework of liberal democratic values However the formulation and implementation of these international norms has generated a number of dilemmas The policies adopted by international organizations to deal with ethnic diversity are driven by conflicting impulses Pessimism about the destabilizing consequences of ethnic politics alternates with optimism about the prospects for a peaceful and democratic form of multicultural politics The result is often an unstable mix of paralyzing fear and naive hope rooted in conflicting imperatives of security and justice Moreover given the enormous differences in the characteristics of minorities eg their size territorial concentration cultural markers historic

relationship to the state it is difficult to formulate standards that apply to all groups Yet attempts to formulate more targeted norms that apply only to specific categories of minorities eg indigenous peoples or national minorities have proven controversial and unstable Kymlicka examines these dilemmas as they have played out in both the theory and practice of international minority rights protection including recent developments regarding the rights of national minorities in Europe the rights of indigenous peoples in the Americas as well as emerging debates on multiculturalism in Asia and Africa *Race and the Politics of Solidarity* Juliet Hooker, 2009-02-03 Solidarity the reciprocal relations of trust and obligation between citizens that are essential for a thriving polity is a basic goal of all political communities Yet it is extremely difficult to achieve especially in multiracial societies In an era of increasing global migration and democratization that issue is more pressing than perhaps ever before Political theorists have long wrestled with the topic but they have typically addressed it from within the framework of liberal theory How can a multicultural and multiracial polity with all of the different allegiances inherent in it be transformed into a unified liberal one Juliet Hooker flips this question around Difference she argues is inevitable in multiracial societies and liberalism offers inadequate prescriptions for making it less divisive Instead the social fact of difference itself should be the starting point How can we create political solidarity when multiracialism and multiculturalism is more or less permanent Unlike most liberal theorists who focus on nationality and culture Hooker stresses the differences produced by race and explores the role that it plays in both the United States and Latin America Coming to terms with the lasting power of racial identity she contends is the starting point for any political project attempting to achieve solidarity

Multicultural Immunisation Ulbricht Alexej Ulbricht, 2014-12-10 Multiculturalism has recently been declared dead at the same time the value of diversity is still emphasised How can we explain this In this book Alexej Ulbricht sets out to completely reassess liberal theories of multiculturalism and argues that the backlash is actually the strengthening of tendencies already present in liberal multiculturalism Using the theories of Roberto Esposito he argues that liberal multiculturalism is best understood as a series of immunitary processes He examines three of these processes using the work of Kymlicka Parekh and Taylor and looks to what cultural coexistence beyond immunity might be like **The Kurdish**

**Model of Political Community** Hanifi Baris, 2021-01-28 The Kurdish Model of Political Community A Vision of National Liberation Defiant of the Nation State undertakes a task long due in Kurdish studies addressing common misunderstandings about and outlining theoretical implications of Kurdish politics Hanifi Baris develops his arguments with an historical examination and finds apathy towards and a resistance to state building in Kurdistan Accordingly Baris argues this tendency to establish self government with distaste to state building has enabled major Kurdish movements in Turkey and Syria to develop a form of political community that constitutes a viable alternative to those based on theocratic imperial and national sovereignty Thus Baris concludes rather than being a conflict between competing nationalisms the current Kurdish conflict in Turkey and Syria is between competing visions of political community CONTEMPORARY POLITICAL THEORY VINOD, M.

J.,DESHPANDE, MEENA,2013-01-11 Intended as a text for the postgraduate students of political science this well researched book attempts to track the evolution of political ideas in the recent past and their background It brings out the contemporary epistemological and methodological debates within the discipline and social sciences as a whole and incorporates the latest developments in the field Divided into forty chapters under eleven parts the book deals with the core concepts and debates in political theory and focuses on the state society interactions It tries to explain how the states societies and cultures have responded to the emerging challenges thrown up by the social economic and political factors and the direction of the response It also dwells on the impact of globalisation on current trends Finally the book analyses the ideas of modern Indian thinkers such as V D Savarkar Jawaharlal Nehru Ram Manohar Lohia B R Ambedkar and Jayaprakash Narayan Besides the postgraduate students of political science the book would also be useful to the aspirants of civil services examinations and the initiated readers

**Constitutional Democracy in a Multicultural and Globalised World** Thomas Fleiner,Lidija

Basta Fleiner,2009-01-31 After World War II states transformed into collective fortresses in order to protect competing ideological systems The debate on post modern statehood heavily built on ideological disputes between liberalism and communism over the nature of the economic and social system and the state and government that could sustain such a system What is an ideologically acceptable state concept which tasks and functions should the state fulfil and how to legitimate not only democratic but also authoritarian and even totalitarian regimes These questions were at the very centre of state theory However after the fall of communism in Europe and the former Soviet Union the discourse of state and government scholarship radically changed The need for a profound shift in the state paradigm was emerging The time after 1989 seemed to proclaim that the nation state had lost its raison d'être as an island of undisputed and unlimited sovereignty A globalised world order broke open the fortress state that developed within the tradition of European constitutionalism Given the simultaneous structural changes to the nation state's foundations socio economic and political reforms going hand in hand with new constitutional designs the state in transition started paving the way towards a new state paradigm and not only with regard to the states in the process of democratic transformation from socialist into liberal constitutional democracies
