target not just the public and policymakers but even other interest groups and how they create policy niches as a survival strategy He also looks at winnable issues contrasts them with more difficult ones and explains what makes the difference Groups Interests and U S Public Policy is a serious study written in a lighthearted tone It offers political scientists a new theory of how and why interest groups influence public policy while it enlightens students and general readers about how policy is actually shaped in America *Interest Group Politics in the Southern States* Ronald J. Encyclopedia of Interest Groups and Lobbyists in the United States Immanuel Ness, 2015-07-17 A comprehensive general reference on major American interest groups This encyclopedia provides information on the lobbies and interest groups that dominate modern American politics It provides descriptions of 13 categories of groups followed by A Z entries on the groups within that category *Amici Curiae and Strategic Behavior in State Supreme Courts* Scott A.

Comparato, 2003-09-30 Applying strategic approaches to both interest groups as amici curiae and state supreme court justices Comparato investigates the influence of judicial retention methods and the ballot initiative on their behavior The results demonstrate that they behave strategically attempting to achieve their goals within the confines of the institutional setting What impact do state level institutions have on the behavior of state supreme court justices and interest groups participating as amici curiae in those courts Specifically is the information provided by interest groups conditioned on the judicial retention system or whether the state uses the ballot initiative and does that information impact the decision making process of the justices Comparato answers these questions by employing strategic theories of judicial and group behavior with groups motivated by the attainment of policy and group maintenance and state supreme court justices motivated by policy and the continued maintenance of their position on the court He argues that the information provided in amicus curiae briefs allows both groups and state supreme court justices to achieve their respective goals In order to answer these questions Comparto analyzes litigant and amicus curiae briefs as well as judicial decisions from seven state supreme courts to evaluate the effects of state level institutions on the types of information provided to state supreme court justices and how those justices respond to that information The results suggest that interest groups do behave strategically providing information to justices that they believe will be useful in helping the justices retain their seats on the court and achieve their desired policy outcomes There is also support for the expectation that the information provided by litigants and amici as well as the retention method have a direct impact on the decision making of justices **Outside Lobbying** Kenneth

Kollman, 2020-11-10 In *Outside Lobbying* Ken Kollman explores why and when interest group leaders in Washington seek to mobilize the public in order to influence policy decisions in Congress In the past political scientists have argued that lobbying groups make outside appeals primarily because of their own internal dynamics to recruit new members for example Kollman however grants a more important role to the need for interest group leaders to demonstrate popular support on particular

issues He interviewed more than ninety interest group leaders and policy makers active on issues ranging from NAFTA to housing for the poor While he concludes that group leaders most often appeal to the public when they perceive that their stand has widespread popular support he also shows that there are many important and revealing exceptions to this pattern Kollman develops his theory of outside lobbying through a combination of rational choice modeling and statistical tests that compare public opinion data with data from his interviews about interest groups policy positions and activities The tests reveal that group leaders use outside lobbying to take advantage of pre existing public preferences not to recruit members or to try to generate the mere appearance of grass roots support Kollman s innovative book will clarify the complex relationship among lobbying public opinion and public policy and will set a new standard for interest group research **Federalism and the Making of America** David Brian Robertson,2013-03-01
