Judith Butler: Ethics, Law, Politics Elena Loizidou, 2007-04-11 The first to use Judith Butler's work as a reading of how the legal subject is formed this book traces how Butler comes to the themes of ethics law and politics analyzing their interrelation and explaining how they relate to Butler's question of how people can have more liveable and viable lives Acknowledging the potency and influence of Butler's concept of gender as process which occupies a well developed and well discussed position in current literature Elena Loizidou argues that the possibility of people having more liveable and viable lives is articulated by Butler within the parameters of a sustained agonistic relationship between the three spheres of ethics law and politics Suggesting that Butler's rounded understanding of the interrelationship of these three spheres will enable critical legal scholarship as well as critical theory more generally to consider how the question of life's unsustainable conditions can be rethought and redressed this book is a key read for all students of legal ethics political philosophy and social theory

vocabularies e.g. governance and governmentality Others reveal the rich polyjurality of the present from the local to the global The result is a rich picture of both present scholarship on laws and norms and the state of contemporary legal complexity each crossing traditional boundaries

Law, Society and Community Richard Nobles, David Schiff, 2016-04-22 This collection of socio legal studies written by leading theorists and researchers from around the world offers original perceptive and critical contributions to ideas and theories that have been expounded by Roger Cotterrell over a long and distinguished career Engaging with many classic issues and theories of the sociology of law the contributions are likely to become classics themselves as they tackle some of the most significant challenges that modern law faces They do not shy away from what one of the contributors describes as the complexity and multiplicity of our contemporary legal world The book is organized in three parts socio legal themes methodological and jurisprudential themes globalization cultural and comparative law themes Starting with a chapter that re engages with the need to interpret legal ideas sociologically and ending with one that explores the global significance of modern fascination with the idea of the rule of law this selection offers important additions to the oeuvre of Roger Cotterrell a list of whose academic writings is included in the book

Legal Theory and the Legal Academy Maksymilian Del Mar, 2017-07-05 The third in a series of three volumes on Contemporary Legal Theory this volume deals with four topics 1 the role of legal theory in the legal curriculum 2 the teaching of legal theory 3 the relationship of legal theory to legal scholarship and 4 the relationship of legal theory to comparative law The focus of the first two topics is on the common law world where the debates over the aims and proper place of legal theory in the study of law have traversed a good deal of ground since John Austin's 1828 lecture *The Uses and the Study of Jurisprudence* These first two parts offer a selection of the most important papers including surveys as well as pedagogical viewpoints and particular course descriptions from analytical critical feminist law and literature and global perspectives The last three decades have seen just as many changes for legal scholarship and comparative law These

changes such as the rise of empirical legal scholarship have often attracted the attention of legal theorists Within comparative law the last thirty years have witnessed intense methodological reflection within the discipline the results of these reflections are themselves properly recognised as legal theoretical contributions The volume collects the key papers including those by Neil MacCormick Mark Van Hoecke Andrew Halpin William Ewald and Geoffrey Samuel **From Violence to Peace** Alex Deagon,2017-08-24 This book contributes to the literature on jurisprudence and theology by arguing for the role of a theoretically robust Christian theology in a legal community dominated by secular and liberal ideology It is not a doctrinal or empirical analysis but a theoretical exposition of the way in which modern law has contingently drifted from its theological origins As a result the legal system and the ideal of individual and communal relationship it envisages is characterised by antagonism and alienation or more broadly violence The book contends that the way to restore a legal community of peace is to return to a Christian theology which is informed by Trinitarian thinking or the notion of unity in diversity and reunites faith with reason Returning reason to its ground in being allows peaceful persuasion by the revelation of God s perfect being through the Trinity and Incarnation which models and enables the peaceful coexistence of difference through self sacrificing love This in turn produces the law of love to love your neighbour as yourself Since love does no wrong to a neighbour a legal community operating by the law of love can fulfil the obligations of law by going beyond merely what is required by law and love individuals as part of a community Reimagining Public Managers Usman W. Chohan,2020-09-03 Public value theory speaks to the co creation of value between politicians citizens and public managers with a focus on the public manager in terms of her contributions initiatives and limitations in value creation But just who are public managers Public value regularly treats the public manager as synonymous with bureaucrat government official civil servant or public administrator However the categories of public managers represent a more versatile and expansive set of agents in society than they are given credit for and the discourse of public value has typically not delved sufficiently into the variety of possible cadres that might comprise the public manager This book seeks to go beyond the assumed understandings of who the public manager is and what she does It does so by examining the processes of value creation that are driven by non traditional sets of public managers which include the judiciary the armed forces multilateral institutions and central banks It applies public value tools to understand their value creation and uses their unique attributes to inform our understanding of public value theory Tailored to an audience comprising public administration scholars students of government public officials practitioners and social scientists interested in contemporary problems of values in society this book helps to advance public administration thought by re examining the theory s ultimate protagonist the public manager It therefore constitutes an important effort to take public value theory forward by going beyond conceptions of the public manager as she has thus far been understood *Human Rights Law and Corporate Regulation* Jonathan Barrett,2024-10-24 This book argues for an intensely humanist engagement with the company and presents a model of company regulation that is compatible with the

protection respect for and fulfilment of human rights Dr Barrett provides a theoretical framing for corporate regulation in the context of human rights States He argues that States which have ratified the fundamental human rights instruments should on principle exclude bodies corporate from the human rights ecosystem except to the degree necessary to respect property rights of humans and human rights in business He therefore develops a neo concession account of the corporation as the basis for a model of corporate regulation to protect human rights The book outlines and recommends the principal features of a company under a neo concession model and the role of regulators in furthering the State s human right obligations It also delves into the potential issues of technological developments including decentralised autonomous organisations and the lessons policymakers can gain from First Nations approaches to business This is a thought provoking volume that will appeal to scholars in the disciplines of human rights law and corporate governance as well as policymakers and regulators interested in regulating business for greater societal good

Law as a Social Institution Hamish Ross,2001-06-05 This book develops the rudiments of a sociological perspective on state law and legal theory It outlines a distinctive approach to theoretical enquiry that offers an improved understanding of law as a social and institutional phenomenon The book draws upon Max Weber s sociological and juristic writings as a context in which to explore themes arising or selectively developed from a critical reassessment of key aspects of H L A Hart s theory of law The discussion initially centres around three problematical areas or Gordian Knots essentially weaknesses in the analytical nucleus of The Concept of Law matters of misplaced emphasis and other elements that it is argued have obscured fundamental aspects of a perceived social reality Using the critique as a point of departure the book explores key issues that Hart merely touched upon or seemingly passed over the role of the sociologically inclined jurist the defensibility of an institutional insider s perspective the institutional behavioural dimension of the legal world and the relational and social power dynamics of law affected human behaviour

Research Handbook on Law and Utilitarianism Guillaume Tusseau,2024-10-03 The Research Handbook on Law and Utilitarianism sheds light on contemporary legal culture and the ways in which it interacts with theories of justice Guillaume Tusseau brings together an interdisciplinary range of scholars to analyse the utilitarian standpoint on legal disciplines and legal governance as well as the contribution of utilitarian arguments to current legal debates

Living Law Roger Cotterrell,2017-07-05 Living Law presents a comprehensive overview of relationships between legal and social theory and of current approaches to the sociological study of legal ideas It explores the nature of legal theory and sociolegal studies today as teaching and research fields and the work of many of the major sociolegal theorists In addition it sets out the author s distinctive approach to sociological analysis of law applying this in a range of studies in specific legal fields such as the law of contract property and trusts constitutional analysis and comparative law

Alternative Dispute Resolution of Shareholder Disputes in Hong Kong Ida Kwan Lun Mak,2019-12-19 The landscape of shareholder dispute resolution in Hong Kong has changed vastly since the launch of the Civil Justice Reform in 2009 Key initiatives the voluntary court connected scheme and

reform of the statutory unfair prejudice provisions were employed to promote the greater use of alternative dispute resolution ADR in shareholder disputes While the Hong Kong government and judiciary introduced such schemes to prove the legitimacy of extra judicial over court based litigation processes their success is still uncertain In this book socio legal theory and sociological institutionalism are used to develop a theoretical framework for analyzing the key stages of institutionalization The author analyzes how procedural innovations could acquire legitimacy through different types of legal and non legal inducement mechanisms within the institutionalization process Recommendations on codifying and innovating ADR policy in Hong Kong shareholder disputes are also made with comparison to similar policies in the United Kingdom South Africa and New Zealand

National Judges As EU Law Judges: The Polish Civil Law System Urszula Jaremba, 2013-10-17 National Judges as EU law Judges The Polish Civil Law System by Urszula Jaremba aims at filling a research gap in one of the key areas of EU law concerning its enforcement at the national level and the phenomenon of judicial behaviour More precisely it examines the way civil judges in Poland function as EU law judges and the practical problems they encounter while striving to actualise this constitutive role However the book goes beyond the formal law scenario and investigates how Polish civil judges establish their own understanding of EU law and the new requirements it has imposed upon them To this end the study employs an empirical that is to say quantitative and qualitative methodology and theory to result in a socio legal study that combines legal and empirical insights into the way national judges function in the context of EU law

The Anxiety of the Jurist Claudio Michelson, 2016-04-01 The contributions in this volume pay homage to Zenon Ba kowski with a focus on problems concerning law s normalization and the revitalizing force of anxiety Ranging from political critique to methodological issues and from the role of human rights in development to the role of parables and analogy in legal reasoning the contributions themselves are testament to the richness of Ba kowski s scholarship as well as to the applicability of his core ideas to a wide range of issues Divided into five parts the book focuses on the role and methods of the jurist conceptions of legality and the experience of living under rules jurisprudential issues affecting exchange and the market and the burden and methods of legal judgement It also includes Ba kowski s 2011 valedictory lecture and a bibliography of his work Comprising all original contributions the contributors represent a balance of established leading figures and younger emerging scholars in the field of legal and social theory

Inconsistency in the Torah Joshua Berman, 2017 Rather than viewing inconsistencies in the Torah as signs of revision this book identifies precursors for these phenomena in ancient Near Eastern writings It claims that Enlightenment and German historicist influences corrupted critical study of the Bible and calls for a return to the more modest agenda set out by Spinoza
