countries especially African countries face a myriad of problems as they try to counteract decades of national poverty and political ineffectiveness. If these countries are to secure an active role in world politics they need communication techniques that are both broad and effective. In this book Dr Ngwainmbi presents a comprehensive approach to media and communication in developing countries. The author analyzes traditional methods of communication: dance, ritual, caste, religious oracles and more, and shows how these communication agents, in addition to the basic, affordable modern media, create the context for realizing development efforts. The author also examines the new world information and communication debate and raises new questions about its meaning to Africa. For more information visit www.manigistics.com **Leader**

Study of Political Leadership Glenn D. Paige, 1977 Political Transition and Inclusive Development in Malawi Dan Banik, Blessings Chinsinga, 2016-06-10 Malawi is among the few countries in sub-Saharan Africa that has witnessed significant improvements in relation to meeting the Millennium Development Goal (MDG) targets. It exhibits some of the main challenges facing African democracies while they attempt to consolidate the benefits of democratisation. Political Transition and Inclusive Development in Malawi critically analyses opportunities and constraints related to the impact of democracy on development in one of the world's poorest countries. The book explores how and to what extent processes related to democratic and economic governance can be strengthened in order to make political and administrative authorities more responsive to development needs. It also considers characteristics of successful implementation of public policy and the effective and timely delivery of basic services in local contexts: increased citizen participation and dialogue with local government authorities; factors that enable civil society organisations to hold political and administrative officials to account; and better utilisation of academic research for improved evidence-based policy formulation and implementation. This volume will be of great interest to scholars in development studies, African studies, politics, law, and anthropology, as well as policymakers and those interested in democracy, governance, human rights, and the implementation of anti-poverty programmes, development administration, and decentralisation.
