Politics Out of History Wendy Brown, 2001-08-26 What happens to left and liberal political orientations when faith in progress is broken when both the sovereign individual and sovereign states seem tenuous when desire seems as likely to seek punishment as freedom when all political conviction is revealed as contingent and subjective **Politics Out of History** is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared Wendy Brown diagnoses a range of contemporary political tendencies from moralistic high handedness to low lying political despair in politics from the difficulty of formulating political alternatives to reproaches against theory in intellectual life as the consequence of this disorientation **Politics Out of History** also presents a provocative argument for a new approach to thinking about history one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by for example identifying the haunting and constraining effects of past injustices unresolved Brown also argues for a revitalized relationship between intellectual and political life one that cultivates the autonomy of each while promoting their interlocutory potential This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers Freud Marx Nietzsche Spinoza Benjamin Derrida to rethink democratic possibility in our time

Liberal Democracy as the End of History Christopher Hughes, 2011-10-07 Francis Fukuyama claims that liberal democracy is the end of history This book provides a theoretical re examination of this claim through postmodernist ideas The book argues that postmodern ideas provide a valuable critique to Fukuyama s thesis and poses the questions can we talk about a universal and teleological

history a universal human nature or an autonomous individual It addresses whether postmodern theories concerning the movement of time what it means to be human and what it means to be an individual subject can be accommodated within a theory of a history that ends in liberal democracy The author argues that incorporating elements of postmodern thought into Fukuyama s theory makes it possible to produce a stronger and more compelling account of the theory that liberal democracy is the end of history The result of this is to underpin Fukuyama s theory with a more complex understanding of the movement of time the human and the individual and to show that postmodern concepts can paradoxically be used to strengthen Fukuyama s theory that the end of history is liberal democracy The book will be of interest to students and scholars of political theory postmodernism and the work of Francis Fukuyama *Power, Neoliberalism, and the Reinvention of Politics* Amy Allen, Eduardo Mendieta, 2022-08-08 Wendy Brown is one of the most prolific and influential political theorists of her generation This collection of essays designed for the undergraduate classroom presents an introduction to and critical assessment of Brown s substantial body of work with a particular focus on her contributions to the tradition of critical theory Coeditors Amy Allen and Eduardo Mendieta provide an overview of Brown s work situating her scholarship in relation to some of the major thinkers and methodologies of the Frankfurt School Brown opens the discussion with a new essay expounding upon the meaning of freedom and the prospects for emancipation in our current political moment Subsequent chapters address different aspects of Brown s corpus including her early feminist interpretation of the history of political theory her influential critiques of identity politics and progressive philosophies of history and her recent interrogation of the rise of neoliberalism and the resurgence of authoritarian politics The volume concludes with Brown s response to her critics where she clarifies and expands upon the implications of her core ideas In addition to Brown and the editors the contributors to this volume include Robin Celikates Loren Goldman Asad Haider Robyn Marasco and Johanna Oksala **Democracy and the Death of Shame** Jill Locke, 2016-04-01 Is shame dead With personal information made so widely available an eroding public private distinction and a therapeutic turn in public discourse many seem to think so People across the political spectrum have criticized these developments and sought to resurrect shame in order to protect privacy and invigorate democratic politics *Democracy and the Death of Shame* reads the fear that shame is dead as an expression of anxiety about the social disturbance endemic to democratic politics Far from an essential supplement to democracy the recurring call to bring back shame and other civilizing mores is a disciplinary reaction to the work of democratic citizens who extend the meaning of political equality into social realms Rereadings from the ancient Cynics to the mid twentieth century challenge the view that shame is dead and show how shame as a politically charged idea is disavowed invoked and negotiated in moments of democratic struggle Decolonizing Democracy Ferit Güven, 2015-05-06 *Decolonizing Democracy* Intersections of Philosophy and Postcolonial Theory analyzes the concept and the discourse of democracy Ferit G ven demonstrates how democracy is deployed as a neo colonial tool to discipline and further subjugate formerly colonized peoples and spaces The

book explains why increasing democratization of the political space in the last three decades produced an increasing dissatisfaction and alienation from the process of governance rather than a contentment as one might have expected from the rule of the people Decolonizing Democracy aims to provide a conceptual response to the crisis of democracy in contemporary world With both a unique scope and argument this book will appeal to both philosophy and political science scholars as well as those involved in postcolonial studies cultural studies and peace studies The History of Social Movements in Global Perspective Stefan Berger,Holger Nehring,2017-01-12 Social movements have shaped and are shaping modern societies around the globe this is evident when we look at examples such as the Arab Spring Spain s Indignados and the wider Occupy movement In this volume experts analyse the classic and new social movements from a uniquely global perspective and offer insights in current theoretical discussions on social mobilisation Chapters are devoted both to the study of continental developments of social movements going back to the nineteenth century and ranging to the present day and to an emphasis on the transnational dimension of these movements Interdisciplinary and truly international this book is an essential text on social movements for historians political scientists sociologists philosophers and social scientists **The Godman and the Sea** Michael J. Thate,2019-11-01 If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus s personality on divergent communities In *The Godman and the Sea* Michael J Thate shifts the terms of this study by focusing on the Gospel of Mark which ends when Mary Magdalene Mary the mother of James and Salome discover a few days after the crucifixion that Jesus s tomb has been opened but the corpse is not there Unlike the other gospels Mark does not include the resurrection portraying instead loss puzzlement and despair in the face of the empty tomb Reading Mark s Gospel as an exemplary text Thate examines what he considers to be retellings of other traumatic experiences the stories of Jesus s exorcising demons out of a man and into a herd of swine his stilling of the storm and his walking on the water Drawing widely on a diverse set of resources that include the canon of western fiction classical literature the psychological study of trauma phenomenological philosophy the new materialism psychoanalytic theory poststructural philosophy and Hebrew Bible scholarship as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular *The Godman and the Sea* is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world More fundamentally however it attempts to position this reading as a story of trauma ecstasy and what has become through the ruins of past pain **After Extinction** Richard Grusin,2018-03-20 A multidisciplinary exploration of extinction and what comes next What comes after extinction Including both prominent and unusual voices in current debates around the Anthropocene this collection asks authors from diverse backgrounds to address this question *After Extinction* looks at the future of humans and nonhumans exploring how the scale of risk posed by extinction has changed in light of the accelerated

networks of the twenty first century The collection considers extinction as a cultural artistic and media event as well as a biological one The authors treat extinction in relation to a variety of topics including disability human exceptionalism science fiction understandings of time and posthistory photography the contemporary ecological crisis the California Condor systemic racism Native American traditions and capitalism From discussions of the anticipated sixth extinction to the status of writing theory and philosophy after extinction the contributions of this volume are insightful and innovative timely and thought provoking Contributors Daryl Baldwin Miami U Claire Colebrook Pennsylvania State U William E Connolly Johns Hopkins U Ashley Dawson CUNY Graduate Center Joseph Masco U of Chicago Nicholas Mirzoeff New York U Margaret Noodin U of Wisconsin Milwaukee Jussi Parikka U of Southampton Bernard C Perley U of Wisconsin Milwaukee Cary Wolfe Rice U Joanna Zylińska Goldsmiths U of London

Magical American Jew Aaron Tillman, 2017-11-15 Efforts to describe contemporary Jewish American identities often reveal more questions than concrete articulations more statements about what Jewish Americans are not than what they are Highlighting the paradoxical phrasings that surface in contemporary writings about Jewish American literature and culture language that speaks to the elusive difference felt by many Jewish Americans Aaron Tillman asks how we portray identities and differences that seem to resist concrete definition Over the course of *Magical American Jew* Tillman examines this enigma the indefinite yet undeniable difference that informs contemporary Jewish American identity demonstrating how certain writers and filmmakers have deployed magical realist techniques to illustrate the enigmatic difference that Jewish Americans have felt and continue to feel Similar to the indeterminate nature of Jewish American identity magical realism is marked by paradox and does not fit easily into any singular category Often characterized as a mode of literary expression rather than a genre within literature magical realism has been the subject of debates about definition origin and application After elucidating the features of the mode Tillman illustrates how it enables uniquely cogent portrayals of enigmatic elements of difference Concentrating on a diverse selection of Jewish American short fiction and film including works by Woody Allen Sarah Silverman Cynthia Ozick Nathan Englander Steve Stern and Melvin Jules Bukiet *Magical American Jew* covers a range of subjects from archiving Holocaust testimony to satirical Jewish American humor Shedding light on aspects of media marginalization excess and many other facets of contemporary American society the study concludes by addressing the ways that the magical realist mode has been and can be used to examine U S ethnic literatures more broadly

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crawford, Gordon Pentland, 2018 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political

historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain s political past and a thought provoking long view for those interested in current political challenges

Riddles of Belonging Christi A. Merrill, 2009 Can the subaltern joke Christi A Merrill answers by invoking riddling oral based fictions from Hindi Rajasthani Sanskrit and Urdu that dare to laugh at what traditions often keep hidden whether spouse abuse ethnic violence or the uncertain legacies of a divinely wrought sex change Herself a skilled translator Merrill uses these examples to investigate the expectation that translated work should allow the non English speaking subaltern to speak directly to the English speaking reader She plays with the trope of speaking to argue against treating a translated text as property as a singular material object to be carried across as *translatulus* implies She refigures translation as a performative telling in turn from the Hindi word *anuvad* to explain how a text might be multiply possessed She thereby challenges the distinction between original and derivative fundamental to nationalist and literary discourse humoring our melancholic fixation on what is lost Instead she offers strategies for playing along with the subversive wit found in translated texts Sly jokes and spirited double entendres she suggests require equally spirited double hearings The playful lessons offered by these narratives provide insight into the networks of transnational relations connecting us across a sea of differences Generations of multilingual audiences in India have been navigating this Ocean of the Stream of Stories since before the 11th century arriving at a fluid sense of commonality across languages Salman Rushdie is not the first to pose crucial questions of belonging by telling a version of this narrative the work of non English language writers like Vijay Dan Detha whose tales are at the core of this book asks what responsibilities we have to make the rights and wrongs of these fictions come alive age after age

Towards Peoples' Histories in Pakistan Kamran Asdar Ali, Asad Ali, 2023-05-04 After seventy five years of independence the history of Pakistan remains centered on the state its ideology and the two nation theory *Towards Peoples Histories in Pakistan* seeks to shift that focus away from histories of an imagined nation to the history of its peoples Based on the premise that the historiographical tradition in Pakistan has ignored the existence of people who actually make history this book brings together historians anthropologists sociologists and political scientists to shed light on the diverse histories of the people themselves Assembling histories of events and peoples missing from grand narratives of national history the essays in this collection incorporate a diversity of approaches to the past as it opens the possibilities of multiple histories the archives through which they are registered and the various temporalities in which they persist The volume highlights and recuperates the entangled nature of history and memory within Pakistan s social and cultural life By critically examining both leftist and nationalist thought *Towards People s*

Histories in Pakistan explores competing visions of what is meant by the people and charts new ground in developing the promise of people's histories both within Pakistan and beyond

The Making of Modern Cynicism David Mazella, 2007
 Asks how did ancient Cynic philosophy come to provide a name for its modern unphilosophical counterpart and what events caused such a dramatic reversal of cynicism's former meanings This work traces the concept of cynicism from its origins as a philosophical way of life in Greek antiquity

A History of American Political Theories Charles Edward Merriam, 2008
 A History of American Political Theory is a comprehensive attempt to understand the full sweep of American political thought since the founding Working within the liberal progressive tradition Merriam reviewed American political history in its entirety from the founding down to his own day He was not out to reduce political thought to a single element such as economics alone his aim was to encompass the whole of modern social science The political science of the liberal progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as Merriam The progressive tradition in general and Merriam in particular interpreted the rise of a new science of politics that would be required for the liberal progressive world view he represented His work stands at a momentous fork in the road two great traditions of how American democracy should be understood interpreted and analyzed parted company and afterward each went their separate ways These traditions are represented respectively by the founders and the liberal progressives There was much at stake in these academic debates though the consequences were not entirely foreseen at the time An overview of the authors works and general source material covered in History of American Political Theories is impressive Merriam viewed the study of American democracy as an eclectic activity embracing the broadest definition of the social sciences with particular emphasis on psychology Such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate and distinct academic departments Charles Merriam 1874-1953 was professor of political science at the University of Chicago He served on the Research Committee on Social Trends under President Herbert Hoover and on the National Resources Planning Board under President Franklin D Roosevelt He is known as the father of the behavioral movement in political science and believed that theories of political process needed to be linked to practical political activity Sidney A Pearson Jr is professor emeritus of political science at Radford University He is the series editor of Library of Liberal Thought at Transaction Publishers In addition he also wrote new introductions for Presidential Leadership The New Democracy and Party Government all available from Transaction

A Companion to Lesbian, Gay, Bisexual, Transgender, and Queer Studies George E. Haggerty, Molly McGarry, 2015-06-29

various academic disciplines as well as contemporary politics

Philosophy, Society and the Cunning of History in Eastern Europe Costica Bradatan, 2013-09-13 Philosophy Society and the Cunning of History in Eastern Europe charts the intellectual landscape of twentieth century East Central Europe under the unifying theme of precariousness as a mode of historical existence Caught between empires often marked by catastrophic historic events and grand political failures the countries of East Central Europe have for a long time developed a certain intellectual self representation a culture that not only helps them make some sense of such misfortunes but also protects them somehow from a collapse into nihilism An interdisciplinary study of this sophisticated culture of survival and endurance has been long overdue Not only is it charming and worth studying in its own right but with the re integration of the new Europe into the old one and the emergence on the Western European intellectual scene of many authors from the East such a culture will also shape the European mind of the 21st century This volume decodes and explores this culture of precariousness from the complementary angles of philosophy political theory intellectual history and literary studies Expert contributors look at a wide range of topics from philosophical martyrdom to collective suffering to geographical fatalism and explore the works of key authors in the field including Cioran Ko akowski Kert sz Bauman and i ek This book was originally published as a special issue of Angelaki The Journal of the Theoretical Humanities

Writing Political History Today Willibald Steinmetz, Ingrid Gilcher-Holtey, Heinz-Gerhard Haupt, 2013-05 In recent years political history has been rediscovered by historians In this volume the contributors approach the new political history in a constructivist way conceiving the political as a communicative space whose boundaries are constantly reconfigured through acts of verbal visual and sometimes violent communication Writing Political History Today is organized into four sections focusing on politics and the political as contested concepts boundary disputes between the political and other spheres the question whether violence is a means an object or the end of political communication and on a future agenda for writing political history

The History of Media and Communication Research David W. Park, Jefferson Pooley, 2008 Strictly speaking James Carey wrote there is no history of mass communication research This volume is a long overdue response to Carey s comment about the field s ignorance of its own past The collection includes essays of historiographical self scrutiny as well as new histories that trace the field s institutional evolution and cross pollination with other academic disciplines The volume treats the remembered past of mass communication research as crucial terrain where boundaries are marked off and futures plotted The collection intended for scholars and advanced graduate students is an essential compass for the field
