*Pollen and Fragments* Novalis,1989 The Esoteric Origins of the American Renaissance Arthur Versluis, 2001-03-08 The term Western esotericism refers to a wide range of spiritual currents including alchemy Hermeticism Kabbala Rosicrucianism and Christian theosophy as well as several practical forms of esotericism like cartomancy geomancy necromancy alchemy astrology herbalism and magic The early presence of esotericism in North America has not been much studied and even less so the indebtedness to esotericism of some major American literary figures In this book Arthur Versluis breaks new ground showing that many writers of the so called American Renaissance drew extensively on and were inspired **Pollen and Fragments** Novalis, 1989 by Western esoteric currents **Crossing and Dwelling** Thomas A. TWEED, 2009-06-30 A deeply researched and vividly written study this book depicts religion in place and in movement dwelling and crossing Drawing on insights from the natural and social sciences Tweed s work is grounded in the gritty particulars of distinctive religious practices even as it moves toward ideas about cross cultural patterns It offers a responsible way to think broadly about religion a topic that is crucial for understanding the contemporary world The Philosophical Foundations of Early German Romanticism Manfred Frank, 2012-02-01 Often portrayed as a movement of poets lost in swells of passion early German Romanticism has been generally overlooked by scholars in favor of the great system builders of the post Kantian period Schelling and Hegel In the twelve lectures collected here Manfred Frank redresses this oversight offering an in depth exploration of the philosophical contributions and contemporary relevance of early German Romanticism Arguing that the early German Romantics initiated an original movement away from idealism Frank brings the leading figures of the movement Friedrich Schlegel and Friedrich von Hardenberg Novalis into concert with contemporary philosophical developments and explores the role that Friedrich H Iderlin and other members of the Homburg Circle had upon the development of early German Romantic philosophy

The Cambridge Companion to German Romanticism Nicholas Saul, 2009-07-09 The late eighteenth and early nineteenth centuries saw an extraordinary flowering of arts and culture in Germany which produced many of the world's finest writers artists philosophers and composers This volume first published in 2004 offers students and specialists an authoritative introduction to that dazzling cultural phenomenon now known collectively as German Romanticism Individual chapters not only introduce the reader to individual writers such as Friedrich Schlegel Novalis Eichendorff Heine Hoffmann Kleist Schiller and Tieck but also treat key concepts of Romantic music painting philosophy gender and cultural anthropology science and criticism in concise and lucid language All German quotations are translated to make this volume fully accessible to a wide audience interested in how Romanticism evolved across Europe Brief biographies and bibliographies are supplemented by a list of primary and secondary further reading in both English and German An Episode of Jewish Romanticism Ernest H. Rubinstein, 2012-02-01 Examining romanticism in the thought of Jewish philosopher Franz Rosenzweig this book compares his magnum opus The Star of Redemption with Leo

Baeck's essay Romantic Religion and Friedrich Schelling's Philosophy of Art texts representing two distinct and to a large extent opposed interpretations of romanticism Rosenzweig s thought was shaped by two intellectual histories Germany s and Judaism's Because romanticism had such a definite impact on modern German writing and thought it becomes a question whether and to what extent Rosenzweig too was a romantic Part of the force of the question derives from the tensions sometimes noted between Jewish and romantic worldviews In this book author Ernest Rubinstein shows The Star of Redemption to be along the spectrum of ideas that extends between Baeck and Schelling and thus illustrates a qualified Credo Imants Tillers, 2022-12-01 Credo brings together essays from different stages in Imants Tillers career from Locality Fails to Metafisica Australe and Journey to Nowhere and closes with an essay written especially for the collection The Sources on the artists and writers he has drawn on in his art These essays express an aesthetic credo which has larger implications for both literature and art created out of the experience of migration His self coined concepts like the idea of incommensurability and reversible destiny his ideas about appropriation and the importance of reproduction in Australian culture the encyclopaedic range of his work and his orientation and re orientation towards Aboriginal art articulate an Australian aesthetic which constantly seeks connectedness between the local and the international and a broader understanding of the complexities of provincialism What he calls the revolt of the margins is evident in the provocative nature of his writing too in its wit and irony and intelligence The New Human Revolution, Vol. 6 Daisaku Ikeda, 2019-08-01 Through this novelized history of the Soka Gakkai one of the most dynamic diverse and empowering movements in the world today readers will discover the organization s goals and achievements even as they find inspiring and practical Buddhist wisdom for living happily and compassionately in today s world The book recounts the stories of ordinary individuals who faced tremendous odds in transforming their lives through the practice of Nichiren Buddhism and in bringing Buddhism's humanistic teachings to the world This inspiring narrative provides readers with the principles with which they can positively transform their own lives for the better and realize enduring happiness for themselves and others

Alexandria 1 David Fideler,1991-09-01 Journal of cosmology philosophy myth and culture The Art of Patience Sylvain Tesson,2021-07-13 A journey in search of one of the most elusive creatures on the planet Adventurer Sylvain Tesson has led a restless life riding across Central Asia on horseback freeclimbing the Eiffel Tower and Notre Dame and traversing the Himalayas by foot But while recovering from an accident that left him in a coma and nursing his wounds from a lost love he found himself domesticated his lust for life draining with each moment spent staring at a screen An expedition to the mountains of Tibet in search of the famously elusive snow leopard presented itself as a cure For the chance to glimpse this near mythical beast Tesson and his companions must wait for hours without making a sound or a movement enduring the thin air and brutal cold Their vigil becomes an act of faith many have pursued the snow leopard for years without seeing it and as they keep their watch Tesson comes to embrace the virtues of patience and silence His faith is rewarded when the

snow leopard the spirit of the mountain reveals itself an embodiment of what we have surrendered in our contemporary lives And the simple act of waiting proves to be an antidote to the frenzy of our times A celebration of the power and grace of the wild and a requiem for the world s vanishing places The Art of Patience is a revelatory account of the communion between nature and the human heart Sylvain Tesson has written a new masterpiece on the relationship between man and beast in prose as sublime as the wilderness that inspired it Performing the Body/Performing the Text Amelia Jones, Andrew Stephenson Nfa, Andrew Stephenson, 2005-08-12 This book explores the new performativity in art theory and practice examining ways of rethinking interpretive processes in visual culture Since the 1960s visual art practices from body art to minimalism have taken contemporary art outside the museum and gallery by embracing theatricality and performance and exploding the boundaries set by traditional art criticism. The contributors argue that interpretation needs to be recognised as much more dynamic and contingent Offering its own performance script and embracing both canonical fine artists such as Manet De Kooning and Jasper Johns and performance artists such as Vito Acconci and Gunter Brus this book offers radical re readings of art works and points confidently towards new models for understanding art Caspar David Friedrich Nina Amstutz, 2020-01-01 A revelatory look at how the mature work of Caspar David Friedrich engaged with concurrent developments in natural science and philosophy Best known for his atmospheric landscapes featuring contemplative figures silhouetted against night skies and morning mists Caspar David Friedrich 1774 1840 came of age alongside a German Romantic philosophical movement that saw nature as an organic and interconnected whole The naturalists in his circle believed that observations about the animal vegetable and mineral kingdoms could lead to conclusions about human life Many of Friedrich's often overlooked later paintings reflect his engagement with these philosophical ideas through a focus on isolated shrubs trees and rocks Others revisit earlier compositions or iconographic motifs but subtly metamorphose the previously distinct human figures into the natural landscape In this revelatory book Nina Amstutz combines fresh visual analysis with broad interdisciplinary research to investigate the intersection of landscape painting self exploration and the life sciences in Friedrich's mature work Drawing connections between the artist's anthropomorphic landscape forms and contemporary discussions of biology anatomy morphology death and decomposition Amstutz brings Friedrich's work into the larger discourse surrounding art nature and life in the 19th century **Routledge Library Editions: Romanticism** Various, 2021-08-05 This set reissues 28 books on Romanticism originally published between 1940 and 2006 Routledge Library Editions Romanticism provides an outstanding collection of scholarship which explores not only Romantic literature but the Romantic Movement as a whole including art philosophy and science The Subject of Philosophy Philippe Lacoue-Labarthe, 1993 The Subject of Philosophy presents a sustained examination of the relation between literature and philosophy with special emphasis on the problem of the subject and of representation Spanning the history of philosophy from Plato and Aristotle to Hegel Nietzsche Freud and Heidegger and addressing such major moments in the history of

literature as Greek tragedy and German romanticism The book repeatedly raises the question whether philosophy s very attempts to distinguish itself from literature are not conditioned and exceeded by a fundamental inextricability of the two In these readings Lacoue Labarthe focuses on such issues as the nature of fiction and of figurative language the fate of the work the status of the author the question of madness and the definition of gender He broaches as well the analysis of mimesis the most important concept of his later work and one that already gives to his persistent aesthetic preoccupations an ethical and political resonance Philippe Lacoue Labarthe is the author of many books including Typography Mimesis Philosophy Politics Heidegger Art and Politics and with Jean Luc Nancy The Literary Absolute This book is intended for those in the fields of literary theory philosophy Romantic Science and the Experience of Self Martin Halliwell,2019-07-23 First published in 1999 this volume follows the work of five influential figures in twentieth century transatlantic intellectual history The work forms the basis for this engaging interdisciplinary study of romantic science In this book Martin Halliwell constructs a tradition of romantic science by indicating points of theoretical intersection in the thought of William James American philosopher Otto Rank Austrian psychoanalyst Erik Erikson Danish German psychologist and Oliver Sacks British neurologist Beginning with the ferment of intellectual activity in late eighteenth century German Romanticism Halliwell argues that only with William James theory of pragmatism early in the twentieth century did romantic science become a viable counter tradition to strictly empirical science Stimulated by recent debates over rival models of consciousness and renewed interest in theories of the self Halliwell reveals that in their challenge to Freud's adoption of ideas from nineteenth century natural science these thinkers have enlarged the possibilities of romantic science for bridging the perceived gulf between the arts Restoring Paradise Arthur Versluis, 2012-02-01 Focusing on how spiritual initiation takes place in Western and sciences esoteric religious literary and artistic traditions from antiquity to the present Restoring Paradise provides an introduction to Western esotericism including early modern esoteric movements like alchemy Christian theosophy and Rosicrucianism The author argues that European and American literature and art often entail a written transmission of spiritual knowledge in which writing itself works to transmute consciousness to generate provoke or convey spiritual awakening He focuses on several important figures whose work has not received the attention it deserves including American writer and Imagist poet H D Hilda Doolittle and British painter Cecil Collins among others While Arthur Versluis presents a new way of understanding Western esotericism in a contemporary light above all he has crafted a book about knowing and about how we come to know and what knowing by way of literature and language actually means Vasily Zhukovsky's Romanticism and the Emotional History of Russia Ilya Vinitsky, 2015-05-31 The first major study in English of Vasily Zhukovsky 1783 1852 poet translator of German romantic verse and mentor of Pushkin this book brings overdue attention to an important figure in Russian literary and cultural history Vinitsky s psychological biography argues that Zhukovsky very consciously set out to create for himself an emotional life reflecting his unique brand of romanticism different from what we associate with

Pushkin or poets such as Byron or Wordsworth For Zhukovsky ideal love was harmonious built on a mystical foundation of spiritual kinship Vinitsky shows how Zhukovksy played a pivotal role in the evolution of ideas central to Russia's literary and cultural identity from the end of the eighteenth century into the decades following the Napoleonic Wars

The Lure of the Sea Alain Corbin,1994-01-01 Corbin argues that with few exceptions people living before the eighteenth century knew nothing of the attractions of the coast the visual delight of the sea the desire to brave the force of the waves or to feel the coolness of sand against the skin The image of the ocean in the popular consciousness was coloured by Biblical and mythical recollections of sea monsters voracious whales and catastrophic floods It was perceived as sinister and unchanging a dark unfathomable force inspiring horror rather than attraction These associations of catastrophe and fear in the minds of Europeans intensified the repulsion they felt towards deserted and dismal shores

Theory as Practice Jochen
Schulte-Sasse, Haynes Horne, 1997 In light of recent dramatic revisions in criticism of European particularly German Romanticism this anthology brings together key texts of the movement especially those written in the last quarter of the eighteenth century by Fichte Schelling Novalis August Wilhelm Schlegel and Friedrich Schlegel among others
