Ghost Criminology Michael Fiddler, Theo Kindynis, Travis Linnemann, 2022-01-18 Bringing together prominent early contributions from this emergent perspective the volume traces the origins theory and methodology of a nascent ghost criminology From the powers of exorcism and erasure marshaled by state agents street level struggles over memorialization and memory to the lingering violence of crime scenes and the ghostly traces of outlaw artists Ghost Criminology is a book attuned to that which is well theorized in other disciplines the spectral hauntological apparitional Each of the writers assembled here shares as Mark Fisher 2017 put it a fascination for the outside that which lies beyond standard perception cognition and experience As such this collection uses cutting edge social and cultural theory to tangle with some of criminology's most stubborn revenants the politics of criminalization the commodification of crime and violence the haunting power of the image as well as the unheard and

disregarded cries of the dead **Ranciere and Law** Monica Lopez Lerma,Julen Etxabe,2017-11-06 This book is the first to approach Jacques Rancière's work from a legal perspective A former student of Louis Althusser Rancière is one of the most important contemporary French philosophers of recent decades offering an original and path breaking way to think politics democracy and aesthetics Rancière's work has received wide and increasing critical attention but no study exists so far that reflects on the wider implications of Rancière for law and for socio legal studies Although Rancière does not pay much specific attention to law and there is a strong temptation to identify law with what he terms the police order much of Rancière's historical work highlights the creative potential of law and legal language with important legal implications and ramifications So rather than excavate the Rancièrian corpus for isolated statements about the law this volume reverses such a method and asks what would a Rancière inspired legal theory look like Bringing together specialists and scholars in different areas of law critical theory and philosophy this rethinking of law and socio legal studies through Rancière provides an original and important engagement with a range of contemporary legal topics including constituent power and democracy legal subjectivity human rights practices of adjudication refugees the nomos of modernity and the sensory configurations of law It will then be of considerable interest to those working in these areas *Fair Balance* Jonas Christoffersen,2009 In one of the most important publications on the European Convention and Court of Human Rights in recent years a wide range of fundamental practical and theoretical problems of crucial importance are addressed in an original and critical way bringing a fresh coherent and innovative order into well known battle zones The analysis revolves around the Court's fair balance test and comprises in depth analyses of e.g methods of interpretation proportionality the least onerous means test the notion of absolute rights subsidiarity formal and substantive principles evidentiary standards proceduralisation of substantive rights etc The author coins the term of a *preprimarity* in order to clarify the obligation of the Contracting Parties to implement the Convention in domestic law Mixed Legal Systems, East and West Vernon Valentine Palmer,Mohamed Y. Mattar,2016-07-22 Advancing legal scholarship in the area of mixed legal systems as well as comparative law more generally this book expands the comparative study of the world's legal families to those of jurisdictions containing not only mixtures of common and civil law but also to those mixing Islamic and or traditional legal systems with those derived from common and or civil law traditions With contributions from leading experts in their fields the book takes us far beyond the usual focus of comparative law with analysis of a broad range of countries including relatively neglected and under researched areas The discussion is situated within the broader context of the ongoing development and evolution of mixed legal systems against the continuing tides of globalization on the one hand and on the other hand the emergence of Islamic governments in some parts of the Middle East the calls for a legal status for Islamic law in some European countries and the increasing focus on traditional and customary norms of governance in post colonial contexts This book will be an invaluable source for students and researchers working in the areas of comparative law legal pluralism the evolution of mixed legal systems and the impact

Intercultural Spaces of Law Mario Ricca, 2023-04-03 This book proposes an interdisciplinary methodology for developing an intercultural use of law so as to include cultural differences and their protection within legal discourse this is based on an analysis of the sensory grammar tacitly included in categorizations This is achieved by combining the theoretical insights provided by legal theory anthropology and semiotics with a reading of human rights as translational interfaces among the different cultural spaces in which people live To support this use of human rights semantic and normative potential a specific cultural geographic view dubbed legal chorology is employed Its primary purpose is to show the extant continuity between categories and spaces of experience and more specifically between legal meanings and the spatial dimensions of people's lives Through the lens of legal chorology and the intercultural translational use of human rights the book provides a methodology that shows how to make space and law reciprocally transformative so as to create an inclusive legal grammar that is equidistant from social cultural differences The analysis includes a critical view on opportunities for intercultural secularization the possibility of construing a legal grammar of quotidian life that leads to an inclusive equidistance from differences rather than an unachievable neutrality or an all encompassing universal legal ontology an interdisciplinary methodology for legal intercultural translation a chorological reading of the relationships between human rights protection and lived spaces and an intercultural and geo semiotic examination of a series of legal cases and current issues such as indigenous peoples rights and the international protection of sacred places

Thinking without Desire Panu Minkkinen, 1999-09-01 The book is an attempt to evaluate the reception of Continental philosophy phenomenology hermeneutics deconstruction etc within mainstream jurisprudence The book claims that the reduction of philosophy to social theory can only be accomplished by impoverishing the impetus of philosophical thinking and consequently by transforming critique into criticism and the philosophy of law into legal theory The response developed in this book is the creation of a metaphysical understanding of law or in other words what Aristotle called a first philosophy In addition to philosophy proper the classics of Antiquity the great German philosophers contemporary French thinking the book covers a wide range of jurisprudential literature These include the neo Kantian philosophers of law whose thinking is allegedly at the root of legal positivism but special emphasis is also given to existential philosophers of law deeply inspired by the hermeneutical phenomenology of Martin Heidegger Lastly the book encourages specifically philosophical

approaches in law to the thinking of French contemporaries whose work has inspired critical legal scholarship during the past ten years **Law's Cosmos** Victoria Wohl, 2010-01-07 Explores the inextricable ties between literary form and legal matter in Athens juridical discourse *Passage of Change* Anita Jowitt, Tess Newton Cain, 2010-11-01 Numerous issues face Pacific states trying to find their way in the early 21st century Countries are striving to secure the benefits of modernisation Governance law and order are needed to reach such a goal but development cannot be at the price of culture or the environment The question of how to develop and maintain sound legal systems and legal rules whilst maintaining the unique cultural heritages within the Pacific is a challenge with no easy answer This interdisciplinary collection locates issues of law and governance within the particular socio political context of the Pacific island region presenting sociological anthropological and political insights alongside jurisprudential analysis Key issues including corruption the role of customary law in modern legal systems the place of human rights in the Pacific environmental issues and the structure of the state are explored from a variety of perspectives Lex Populi William P. MacNeil, 2007 This is a book about jurisprudence or legal philosophy The legal philosophical texts under consideration are to say the least unorthodox Tolkien Buffy the Vampire Slayer Harry Potter Million Dollar Baby and other cultural products are all referenced as exemplary instances of what the author calls lex populi people s or pop law There more than anywhere else will one find the leading issues of legal philosophy These issues however are heavily coded for few of these pop cultural texts announce themselves as expressly legal Nonetheless Lex Populi reads these texts jurisprudentially that is with an eye to their hidden legal philosophical meanings enabling connections such as Tolkien s Ring as Kelsen s grundnorm vampire slaying as legal language s semiosis Hogwarts as substantively unjust and a seriously injured young woman as termination s rights bearer In so doing Lex Populi attempts not only a jurisprudential reading of popular culture but a popular rereading of jurisprudence removing it from the legal experts in order to restore it to the public at large a lex populi by and for the people
