Pompei Sostenibile:

Pompei sostenibile Giovanni Longobardi, 2002 At head of title Ministero per i beni e le attività culturali Soprintendenza archeologica di Pompei **Città e guerra : difese, distruzioni, permanenze delle memorie e dell'immagine urbana.**

Tomo II : tracce e patrimoni Maria Ines Pascariello, Alessandra Veropalumbo, Raffaele Amore, 2023-12-31 Italiano In un momento così significativo per la storia europea e mondiale questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche le azioni militari e la fisionomia delle città e del paesaggio urbano sull'evoluzione delle strutture e delle tecniche di difesa sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana sul recupero delle tracce della memoria cittadina Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima durante e dopo la guerra dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline in particolare nell'ambito del disegno viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici passando in rassegna casi studio soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra con un'attenzione particolare all'identità e alla memoria collettiva English At such a significant moment in European and world history this volume aims to be a collection of scientific reflections about the relationships between political choices military actions and the physiognomy of cities and the urban landscape about the evolution of defence structures and techniques about the representation of war and its effects on the urban image and about the recovery of the traces of city memory On the one hand the field of Digital Humanities opens up new perspectives to study the image of the city before during and after the war on the other hand digital technologies engage academics and researchers from various disciplines In particular in the area of drawing the role of representation in the formulation of urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored while in the area of conservation the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored reviewing case studies solutions and debates relating to the conservation of urban heritage involved in wartime actions with a focus on identity and collective memory **The Fortifications of Pompeii and Ancient Italy** Ivo Van der Graaff, 2018-09-03 The fortifications of Pompeii stand as the ancient city's largest oldest and best preserved public monument Over its 700 year history Pompeii invested significant amounts of money resources and labor into rebuilding maintaining and upgrading the walls Each intervention on the fortifications marked a pivotal event of social and political change signaling dramatic shifts in Pompeii's urban social and architectural framework Although the defenses had a clear military role their design construction materials and aesthetics reflect the political social and urban development of the city Their fate was intertwined with that of Pompeii This study redefines Pompeii's fortifications as a central monument that physically and symbolically shaped the city It

considers the internal and external forces that morphed their appearance and traces how the fortifications served to foster a sense of community The city wall emerges as a dynamic ideologically freighted monument that was fundamental to the image and identity of Pompeii The book is a unique narrative of the social and urban development of the city from foundation to the eruption of Vesuvius through the lens of the public building most critical to its independence and survival **From Pompeii**

Ingrid D. Rowland,2014-03-24 The calamity that proved lethal for Pompeii inhabitants preserved the city for centuries leaving behind a snapshot of Roman daily life that has captured the imagination of generations including Renoir Freud Hirohito Mozart Dickens Twain Rossellini and Ingrid Bergman Interwoven is the thread of Rowland s own impressions of Pompeii Pompei, Ercolano, Stabiae, Oplontis Pier Giovanni Guzzo,2003 The book comprises mainly of quality photos of artefacts excavated from the towns buried by Vesuvius in 79 AD *Conservation and Restoration of Built Heritage* Salvatore D'Agostino,2021-08-16 The word conservation when used in the context of the preservation of built heritage implies an intrinsically complex concept that evolved over time since it has been influenced by the perception of history throughout time This volume emphasises why an understanding of the cultural evolution of the conservation approach must be considered a prerequisite for architects and engineers if they are to cooperate in full harmony with historic artistic culture for the preservation of global built heritage In particular the volume highlights how during the second half of the last century the preservation process also involved engineering the science of making practical applications of knowledge which for a long time made an uncritical use of techniques and materials and devised interventions on historical heritage that were heavily invasive The volume also devotes special attention to the problems related to seismic risk to which Italy Greece and Portugal are particularly prone Problems that emerge during the crisis and reconstruction phases are dealt with in detail as is scheduled maintenance as this latter approach always constitutes an improvement in the performance of the monument and is the most appropriate tool for the conservation of the built heritage Finally the volume collects examples of building restoration with case studies of many outstanding monuments The work will appeal to professionals and academics in the broader fields of civil engineering both geotechnical and structural engineering architecture art history the history of architecture restoration and cultural heritage management This book will Provide a critical reading of the history of conservation Discuss materials and techniques of ancient architecture Cover seismic vulnerability and preservation of the historic integrity of the monument Advocate an approach based on programmed maintenance Feature numerous case histories including St Mark s Basilica in Venice and the complex restoration of the cathedral of Notre Dame in Paris

variety of such works ranging from travelogues between ca 1740 and 2010 to 250 years of fiction including stage works music and films The first two chapters provide an in depth analysis of the excavation history and an overview of the reflections of travelers The six remaining chapters discuss several clearly defined genres historical novels with pagan tendencies and those with Christians and Jews as protagonists contemporary adventures time traveling mock manuscripts and works dedicated to Vesuvius Pompeii s Ashes demonstrates how the eternal fascination with the oldest still running archaeological projects in the world began developed and continue until now

volume si dibatte delle sfide della contemporaneità con nuovi approcci urbanistici per territori autorigenerativi con un nuovo paradigma che veda nelle città storiche il motore per la crescita anche culturale del territorio. Al centro delle riflessioni vi sono il progetto di architettura, la mobilità quale fattore essenziale per la vivibilità e la qualità della vita, il piano di gestione del centro storico di Napoli, l'efficientamento energetico e la protezione sismica del costruito storico, nonché nuove forme di sperimentazione di amministrazione condivisa del patrimonio. La Campania presenta un territorio appenninico molto vulnerabile con gravi fenomeni di abbandono dei centri storici interni; per contrastarli occorrono soluzioni urgenti e innovative ispirate a concetti di riequilibrio con creazione di reti e circuiti sovracomunali di fruizione. Il tema della filiera delle costruzioni viene affrontato evidenziando da un lato i riflessi negativi di una inadeguata politica nazionale sui Bonus edilizi, dall'altro le potenzialità di un settore che rappresenta un importante motore di sviluppo socioeconomico proiettato verso la digitalizzazione e l'innovazione. Per quanto concerne il patrimonio Unesco vengono delineate le prospettive di valorizzazione con riferimento al sito archeologico di Pompei e al centro storico di Napoli. Particolare attenzione posta alla salvaguardia dell'ambiente: ci si riferisce agli effetti dei cambiamenti climatici, alla difesa del paesaggio costiero, alla risorsa mare, ai problemi scottanti del recupero di Bagnoli, nonché al paesaggio agrario e al verde urbano. Un volume dunque che si presenta particolarmente significativo e di notevole interesse per la straordinaria ricchezza di contenuti multidisciplinari per la rilevanza scientifica e divulgativa.

Pompeya Joanne Berry, 2009-03-02. Pompeya es el yacimiento arqueológico más conocido del mundo. El drama de su destrucción nos fue relatado por los autores romanos: sus frescos y mosaicos han dejado boquiabiertos a los visitantes desde su descubrimiento en el siglo XVIII; sus casas y sus edificios públicos nos presentan el más vivo cuadro de la vida, el desastre y la muerte en una ciudad romana. No obstante, hasta la fecha no existía una obra destinada al público en general que hiciera una exposición completa, rigurosa y autorizada de su auge, esplendor y caída. Pompeya viene a llenar este hueco. Desastre a la sombra del Vesubio narra el dramático relato de la destrucción y desaparición de Pompeya. Descubriendo el pasado oculto de Pompeya examina las transformaciones experimentadas por los métodos de excavación e investigación desde el descubrimiento de Pompeya en 1748. Nacimiento y desarrollo de una ciudad romana se ocupa de los orígenes y crecimiento de Pompeya basándose en los últimos hallazgos arqueológicos. Los habitantes de Pompeya reconstruye la vida cotidiana y la muerte de los habitantes de la ciudad. La vida en el ojo público se sumerge en la vida política de Pompeya y en la de aquellos que aspiraban a ostentar cargos públicos, la élite de la sociedad pompeyana. Casas y sociedad hace una introducción al documento arqueológico que suponen las casas de Pompeya: la arquitectura, la decoración y los objetos de la vida cotidiana. Dioses, templos y culto expone el papel central desempeñado por la religión en la vida de los pompeyanos desde el culto a los dioses romanos hasta el exótico de Isis. La economía de una ciudad romana detalla la complejidad de la economía pompeyana desde la producción de vino y lana al comercio de larga distancia pasando por la hostelería. Los últimos años de Pompeya se ocupa de los cambios acaecidos en Pompeya entre el devastador terremoto del 63 d.

C y la erupción del Vesubio del 79 d C Gracias a sus espléndidas ilustraciones en las que se representan la arquitectura monumental las inscripciones las casas las tiendas los graffiti los frescos y los mosaicos sus abundantes cuadros en los que se explican aspectos que van desde los espectáculos teatrales hasta el suministro de agua y sus completas tablas este libro supone la referencia definitiva sobre Pompeya **L'abitato protostorico di Poggiomarino** Caterina Cicirelli, Claude Albore Livadie, 2012
