*Pongo and Jeeves* R.N. Varhaug, 2000-05-11 The DNA of chimpanzees and humans are 98.5% identical. A mutation in only a few genes can give a chimpanzee a human sized brain. Such a mutation would have little effect in the wild but if chance puts two such chimpanzees in a primate research center where they learn sign language and see educational TV. What would you do if you were a chimpanzee with a human brain? A really smart human brain. Pongo and Jeeves accepted that chance had played a joke on them and they laughed right along with it. Not everybody joined in. The pompous and similar degraded specimens found that their encounters with the chimpanzees usually proved more entertaining to bystanders than to themselves. Making the best of things Pongo and Jeeves led full lives that included visiting Roswell as aliens, producing syndicated columns and even writing speeches for a presidential candidate. Along the way they were able to thwart bad guys and generally do good. All told, lives well spent and justly rewarded. Join Pongo and Jeeves. You'll enjoy their company. **The**

**Murders in Great Diddling** Katarina Bivald, 2024-08-13 2024 Lillian Jackson Braun Edgar Award Nominee The best stories are the ones we didn't know needed to be told. The small rundown village of Great Diddling is full of stories. Author Berit Gardner can feel it. The way the villagers avoid outsiders, the furtive stares and whispers in the presence of newcomers. Berit can sense the edge of a story waiting to be unraveled and she's just the person to do it. In fact, with a book deadline looming over her and no manuscript, not even the idea for a manuscript, truth be told, Berit doesn't just want this story. She needs it. Then, while attending a village tea party, Berit becomes part of the action herself. An explosion in the library of the village's grand manor kills a local man and the resulting investigation and influx of outsiders sends the quiet rundown community into chaos. The residents of Great Diddling, each one more eccentric and interesting than any character Berit could have invented, rewrite their own narrative and transform the death of one of their own from a tragedy into a new beginning. Taking advantage of Great Diddling's new notoriety, the villagers band together to start a book and murder festival designed to bring desperately needed tourists to their town. What they couldn't have predicted is how the new story they've begun to tell will change all their lives forever. Uplifting, charming, and laugh out loud funny. *The Murders in Great Diddling* by New York Times bestselling author Katarina Bivald is a celebration of the life-changing magic of books and the people who love them.

LeBon,2001-01-30 Independent on Sunday October 2nd One of the country s leading philosophical counsellors and chairman of the Society for Philosophy in Practice SPP Tim LeBon said it typically took around six 50 minute sessions for a client to move from confusion to resolution Mr LeBon who has published a book on the subject Wise Therapy said philosophy was perfectly suited to this type of therapy dealing as it does with timeless human issues such as love purpose happiness and emotional challenges Wise Therapy is part of a series aimed at promoting an integrative attitude as its ethos Among all the many perspectives of psychotherapists and counselors philosophy needs to take its place and needs to find its voice Tim

LeBon has provided an effective means by which counselors can bring philosophy into their work with clients APPA journal

Tim Le Bon's *Wise Therapy* is a comprehensible and well argued book dealing with the practical therapeutic applications of philosophical research that may well be of interest to philosophers but as the author himself intends will be of most obvious benefit to therapists and counselors both by informing their dialogue with clients in new ways and by helping them become more informed about ways to resolve the ethical dilemmas arising within the context of their own work *Metapsychology* A fascinating workshop for therapists and clients backed up a thorough degree of philosophical acuity *Journal of the Society for Existential Analysis* I strongly recommend the book for philosophers as well as practitioners teachers students and supervisors in counselling and psychotherapy *Self and Society* Provides some additional and valuable arrows for the therapist's quiver Irvin Yalom author of *Love's Executioner* Like Aristotle Tim LeBon examines what is said and extracts what is best from it There are many fascinating exercises designed to bring out and enlighten the client's values conception of the good life well being happiness pleasure and the proper place of reason in life *Wise Therapy* is well written and engaging The case histories are illuminating examples of therapeutic techniques at work the thought experiments are well designed and the philosophical position adapted from the internal debates of the philosophers is level headed I recommend it highly to philosophers with an interest in counselling and psychological counsellors with an interest in philosophy Jeff Mason *The Philosophers Magazine* Tim LeBon has authored a text which should become a staple on the philosophical counsellor's bookshelf *Wise Therapy* is a concise well written book His ability to relate philosophical concepts to counselling concerns is admirable and attests to the skill and knowledge he possesses as a working counsellor But by far the most important part of Tim LeBon's book to PC is the last chapter *The Counsellor's Philosophical Toolbox* Craig Munns in *The Examined Life* Tim LeBon has done a good job of offering practical approaches to some of the most important and vexing issues that arise in counselling Tim LeBon's book contains helpful suggestions practical information and useful examples and would make a good addition to the library of any counsellors willing to allow philosophy to turn mere client sessions into wise therapy Peter Raabe *Practical Philosophy* *Wise Therapy* is an original and practical guide to how philosophy can benefit counselling and psychotherapy Tim LeBon argues that therapy informed by philosophy can help clients make better decision and achieve emotional wisdom He uses philosophical approaches to explore issues of right and wrong the emotions and reasons well being and the meaning of life and develops a counsellor's toolbox of techniques that can help practitioners apply the wisdom of philosophy to good therapeutic practice For counsellors who may find philosophical approaches to therapy useful this work addresses key philosophical topics the emotions free will the meaning of life and ethics It is jargon free where possible and assumes no previous philosophical training From *The Independent* 16th November 2004 Plato is my agony aunt It was the end of a love affair that broke her heart Could the wisdom of the great philosophers show her how to be happy again Claire Smith tries a novel form of therapy *The unexamined life is not worth living* Socrates said Nor is the life you're left with after

your boyfriend has left you for another woman at least that's how it felt in October last year when mine broke rank and went off with an art student from Cleveland Ohio We were over there for the opening of his new art exhibition He'd flown over four days before me and had met her at a party Supposedly they connected The five months that followed were a roller coaster of confusion vitriol and despair I knew there'd been problems in our relationship We saw the world very differently he delighted in the charm of the ordinary I wanted maximum divinity He walked I galloped He drank tea I loathed the stuff But along the banks of the Thames we'd made a promise to always stick together Our love was something unique transcendental I called it And besides we recycled Surely a commitment to save the world would save our relationship Alas no So there I was a woman scorned Hell truly hath no greater fury And what made it worse was that I still believed in our transcendental love If I wanted to change the way I was feeling I needed to alter the way I was thinking But how A few bottles of wine and a sharp blow to the head might have done the trick Fortunately there's an older more trusted way of turning your head on its head that counsellors are starting to use philosophy The idea of employing Plato as an agony aunt was begun in 1981 by the German philosopher Gerd Achenbach Although philosophy spends a lot of its time asking real life questions that affect real life people What is happiness And is it always wrong to lie most of the debate goes on in ivory towers What Achenbach and subsequent philosophers including Tim LeBon the chairman of the UK's Society for Philosophy in Practice wanted to do was give practical application to this gigantic library of great thoughts So how does it work Like most types of therapy you sign up for a set of sessions Two would give you a new perspective on one issue six would help you to make a major life decision like a career change with 12 you can start to rethink your entire life philosophy explains LeBon Each session lasts 50 minutes and costs 50 and no you don't have to have any previous knowledge of philosophy If you think of Friends it would suit Ross and Chandler more than Joey LeBon says It's for anyone who wants to make their emotions more intelligent Or for those who have tried other kinds of therapy and want something more cerebral The first session begins with the patient venting off about whatever's troubling them The rant over the counsellor then picks out some key concepts that are crucial to the problem in the case of heartbreak it is love and happiness that come hurtling to the fore and then gets the patient to define what they mean So what is love What is happiness To kick start the patient's thinking LeBon describes what a great philosopher had to say about it In my case he tells me what Plato wrote about love in his Symposium that to stop man fighting the gods Zeus decided to cut each human in two so they would lose their strength This then is the source of our desire to love each other Plato said Each of us is a matching half of a human whole because each was sliced like a flatfish two out of one and each of us is always seeking the half that matches him This method of probing what we might think are obvious ideas such as love and happiness was devised by Socrates in the squares of Athens The only I thing I know is that I know nothing at all he boasted What Socrates showed was that although many of the thinkers of his time thought they knew what justice happiness and goodness meant their understanding was tied in to their personal agenda and world view and

what's more when pushed their ideas often contradicted themselves A bit like me on love Whereas part of my understanding of love was something that gave life meaning made it worth living and bound us together I also believed that true love was transcendental that it was out of this world and it didn't matter if the two people who loved each other couldn't get along in the day to day Love was bigger than the mundane But when it came to the next stage of the therapy critical thinking to check out whether your assumptions stand up to examination I walked head first into a contradiction If I think love's purpose is to make life worth living but then say it's irrelevant to daily life surely my two ideas of love are not compatible As the cogs in my brain start to creak into motion I feel myself taking a step back from my predicament thinking about how I've been thinking This idea I had of transcendental love might have started off as a romantic dream But when the relationship stopped working and I found myself feeling trapped and frustrated I used it to justify the mechanics of a relationship that just didn't work in the daily grind I used it to lie to myself In the final stage LeBon gets me to start thinking about how to go forward You can't change what has happened he says You can't change that he's left you or how you behaved in the relationship So as the Stoics did let's work on controlling the controllables the things that you can change To work out what can be changed he gets me to try out a thought experiment a method often used in philosophy to imagine other worlds where people can have different codes of behaviour Thought experiments shatter your preconceived ideas of how the world should be and let your imagination run wild to how the world could be I find Viktor Frankl very useful here the Austrian psychiatrist and concentration camp survivor who actually believed that everything in life happens for a purpose LeBon says Suppose this break up did happen for a reason that will work to your benefit he suggests What might that be The answer might be that you can now focus on something important that was denied in the relationship Or the Hollywood version so you'll meet someone who is really right for you Temporarily freed of any sense of responsibility for the relationship that was and its sorry demise the list came fast I could now travel more he didn't like me travelling on my own but too often he didn't want to go anywhere preferring to stay in his studio and make art I'd love to meet someone with a similar sense of adventure to mine For the first time in two years I was being honest with myself about what I really wanted listening to those voices that we all have inside our heads and too often try to muzzle So did philosophy save me Well I'm now dating a travel writer I have to run to keep up with I still haven't got over the fact that my replacement came from Cleveland Ohio But I guess I never will Tim LeBon can be reached by e mail at [timlebon@aol.com](mailto:timlebon@aol.com) A FEW WORDS FROM THE WISE Compiled by Ed Caesar At the touch of love everyone becomes a poet Plato There is always some madness in love But there is also always some reason in madness Friedrich Nietzsche That man shall live as his own master and in happiness who can say each day I have lived Horace The good of man is the active exercise of his soul's faculties in conformity with excellence or virtue Moreover this activity must occupy a complete lifetime for one swallow does not make spring nor does one fine day and similarly one day or a brief period of happiness does not make a man supremely blessed and happy Aristotle There is nothing on this earth more to be

prized than friendship Thomas Aquinas Whatever you do love those who love you Voltaire Happiness is not an ideal of reason but of imagination Immanuel Kant Happiness is a state of which you are unconscious The moment you are aware that you are happy you cease to be happy Jiddu Krishnamurti Love is an ideal thing Marriage is a real thing Johann Wolfgang von Goethe I shrink therefore I am Therapy has many answers but some questions require the help of a philosopher says Clint Witchalls Sunday November 21 2004 The Observer Danny had worked in the City of London for 10 years As a research analyst stockbroker and fund manager he'd made a lot of valuable contacts earned a lot of cash and learnt some important business skills However as he approached his mid thirties he no longer felt good about himself or what he did for a living and he found his colleagues cold and unfriendly A chronic illness made him realise his mortality and he began to reassess his priorities Danny had been struggling with his career conundrum for nearly five years when he met David Arnaud a philosophical counsellor After a few soul searching sessions Danny arrived at a decision Today he teaches economics to sixth formers and he loves it It's a much better lifestyle he says Many people are turning to philosophical counsellors to get answers to questions such as How do I make sense of myself What is important to me Where am I going These are perhaps not the sort of questions that require psychiatric intervention but Arnaud who recently completed the first empirical study of philosophical counselling in the UK has found that within just five sessions the majority of clients with important decisions to make tend to move from a state of concern and confusion to a resolution Modern philosophical counselling can be traced back to 1981 when the philosopher Gerd Achenbach opened the first practice near Cologne Achenbach referred to the new discipline as therapy for the sane Today there are hundreds of philosophical counsellors around the world with the movement particularly strong in the US Britain and the Netherlands The dilemmas people face aren't always primarily psychological says Alex Howard a philosophical counsellor from Newcastle If people face problems that are social or economic it doesn't make sense to define their problems in purely psychological terms Tim LeBon a founder member of the Society for Philosophy in Practice SPP and author of Wise Therapy adds We are faced with far more life choices than our grandparents yet have far fewer resources to deal with them Our grandparents may have gone to a priest or to other family members for advice most people don't trust these solutions any more and so want to make their own well informed well thought out choices Philosophical counselling can help these people people in mid life crises who are wondering how to make the most of the rest of their life People who want to take stock of their values Where stressed executives might once have been prescribed a course of tranquillisers or antidepressants they can now get a dose of Bertrand Russell instead Success is too dearly purchased if all the other ingredients have been sacrificed to obtain it While some philosophical counsellors do recommend books for their clients to read most sessions are about helping the client identify faulty thoughts For example a briefing in Aristotelian logic might show a client why their beliefs are erroneous The person might infer that they're a screw up because they've screwed up The counsellor could point out that they're making an error called fallacy of composition that

is what's true of the part isn't necessarily true of the whole. In philosophical counselling problems aren't pathologised as they are by the psychiatric profession and the dialogue between client and counsellor is more like a meeting of equals compared to many therapies where the client is treated like a patient and seen as someone who is in some way inadequate. Anybody can benefit from philosophical counselling, says Howard. But it does require someone who is willing to take stock. Lou Marinoff, author of international bestseller *Plato Not Prozac*, has done much to promote philosophical counselling. Some people who have stabilised their neurochemistry and validated their emotions now wish to examine or re-examine the criteria of their beliefs, the principles of their conduct or the meaning of their lives, he says. With whom shall they do this? Psychologists and psychiatrists can shed light on such issues as can rabbis, priests, imams and gurus. Philosophers are now rejoining the ranks of helpers. LeBon believes certain therapies such as cognitive behavioural therapy don't go far enough in helping their clients. For instance, if you are anxious about your relationship, a cognitive therapist would try to dispute your catastrophising and jump to conclusions to make you feel less anxious, says LeBon. A philosophical counsellor would do this but would also look for existential meaning in your anxiety; perhaps you really don't want to be in the relationship and that is what your anxiety is telling you. LeBon also gives short shrift to psychoanalysts. There's very little evidence for the Freudian unconscious and it's time to move on to more intellectually satisfying and helpful therapies, he says. However, Alain de Botton, the man who popularised philosophy as self-help, isn't ready to bury psychologists and their ilk just yet. The truth is that psychoanalysis grew out of philosophy; it's not some completely new idea and, in fact, done properly, psychoanalysis is philosophical anyway. It may even be dangerous to the mental health of some people to suggest a philosopher rather than a properly trained analyst. The knowledge of analysts when it comes to many emotional problems is now much greater than that of most philosophers. Guardian Unlimited, Guardian Newspapers Limited, 2004.

**P.G. Wodehouse and Hollywood** Brian Taves, 2015-01-24  
Beloved British humorist P. G. Wodehouse produced a wealth of literature in his lengthy career, contributing novels, short stories, plays, lyrics and essays to the canon of comic writing. His work in film and television included two stints as a screenwriter in Hollywood in the 1930s and his stories have been the basis for more than 150 film and television productions. He also wrote 20 stories and essays about Hollywood, satirizing the city and its entertainment magnates. This book studies P. G. Wodehouse's extensive but often overlooked relationship with Tinseltown. The book is arranged chronologically, covering Wodehouse's Hollywood career from his early efforts in silent film to his later contributions in television to his work adapted posthumously for the screen. Radio is covered as well, including a discussion of his internment in occupied France and his brief appearances on German radio. Reflecting Wodehouse's international appeal, the book covers Wodehouse's films and television in England, Germany, Sweden and India. Also included are a comprehensive, detailed list of Wodehouse's stories and articles about Hollywood and a complete filmography of motion picture and television works to which he contributed or which were based on his stories.
