Mable,2024-12-20 This story will make you laugh and have a fun reading experience with your child and for your child all while teaching the underlying themes of the importance of love and acceptance and openness to learning new things and ways of thinking about the world It is a whimsical funny story for children exploring the outcomes of open minds leading to love and happiness Closed minds leading to discrimination and sadness Mr Pooh Pooh is lonely so he decides to get a puppy Ms Phooey is also lonely and she has the very same plan Convinced they ll only be able to fall in love with a perfect puppy

they head to Poodle Town to pick out the very best dog One is convinced a tiny dog is the very best while the other is sure a big dog is the only way to go They each make their choice while quietly judging the other The two sad judgemental people head home with no idea that their delightful dogs have been accidentally swapped As they begin to bond with their new puppies Mr Pooh Pooh and Ms Phooey learn just what perfect really means This hilarious and heart warming story reminds readers of the importance of love and empathy It teaches children that accepting and loving leads to a positive life and that nothing is more important than kindness

Semigroups and Automata Uno Kaljulaid, 2006-02-16 This volume provides a selection of previously published papers and manuscripts of Uno Kaljulaid an eminent Estonian algebraist of the last century The central part of the book is the English translation of Kaljulaid's 1979 Candidate thesis which originally was typewritten in Russian and manufactured in not so many copies The thesis is devoted to representation theory in the spirit of his thesis advisor B I Plotkin representations of semigroups and algebras especially extension to this situation and application of the notion of triangular product of representations for groups introduced by Plotkin Through representation theory Kaljulaid became also interested in automata theory which at a later phase became his main area of interest Another field of research concerns combinatorics Besides being an outstanding and most dedicated mathematician Uno Kaljulaid was also very much interested in the history of mathematics In particular he took a vivid interest in the life and work of the great 19th century Dorpat Tartu algebraist Th Molien Kaljulaid was also very interested in teaching and exposition or popularization of mathematics Some of his more popular scientific papers were published in an Estonian language journal *Matemaatika ja Kaasaeg* Mathematics and Our Age Among them there is a whole series of papers about algebraic matters culminating in a brilliant elementary although partly rather philosophical essay devoted to Galois theory Another such series is his excellent essay of Diophantine Geometry in various installments followed by his loge to another of his teachers Yu I Manin It is believed that the inclusion of these papers here will make it more interesting for beginners and perhaps even contribute to attracting young people to mathematics

The Crystal Hunters George Manville Fenn, 1897 *Teaching that Matters* Frank Thoms, 2014-11-07 *Teaching that Matters* invites principals and teachers to make changes that will allow all students to succeed Thoms urges administrators and teachers to reconsider traditional practices in light of today's media driven culture and digitally wired students While sensitive to the challenges schools face Thoms is relentless in offering strategies to meet these challenges Rather than focus on improving test scores *Teaching that Matters* advocates that teachers teach to a child's whole symphony not only to one note If students only learn to succeed on bubble tests they will not have opportunities to discover their true potential Thoms sees the teaching process as a joint venture between teacher and student where the teacher brings learning to the student and at the same time brings the student to the learning This process demands at least as much listening as talking a new habit that teachers and principals need to learn By meeting innovative principals and teachers who engage students this book will help you to learn to change traditional classroom practices into exciting
