the story of two people who change their lives and discover a whole new world Their first step is a move from living and working in the city to rural life and a two hour commute Over the five years recounted in the book they mature from feckless beginners to hardened country folk shedding only the occasional tear when an animal dies Their animal adventures start with a cat before they move on to goats and then chickens Slowly building confidence they haphazardly add cows pigs alpacas geese and ducks to their smallholding before reaching a limit On their journey they discover that cats like to sleep that goats are poor predictors of the weather and that there is a serious possibility that a cow could jump over the moon They pick up new skills such as fencing which they get to practise again and again as various animals helpfully demonstrate where they have gone wrong There is occasionally the semblance of a plan but often events overtake the couple and they have to learn to be resilient in the face of adversity The animals have plenty of character from the nervous goat and the grumpy cow to the randy pig Looking after animals is often not easy but at least for one newly countrified pair it s deeply satisfying Beyond the World of Pooh Christopher Milne,1998 Covering his much publicized childhood his war experiences marriage and proprietorship of a book shop this book presents an intriguing portrait of the real Christopher Robin in his own words
