Pragmatic Literacy East And West 1200 1330:

Pragmatic Literacy, East and West, 1200-1330 R. H. Britnell, 1997 Studies of the uses of literacy for the exercise of political and economic power in Latin Christendom and the wider world This pioneering collection of studies is concerned with the way in which increasing literacy interacted with the desire of thirteenth century rulers to keep fuller records of their government s activities and the manner in which this literacy could be used to safeguard or increase authority In Europe the keeping of archives became an increasingly normal part of everyday administrative routines and much has survived owing to the prolonged preference for parchment rather than paper in the Eastern civilisations material is more scarce Papers discuss pragmatic literacy and record keeping in both West and East through the medium of both literary and official texts The late Professor RICHARD BRITNELL taught in the Department of History at the University of Durham Contributors RICHARD BRITNELL THOMAS BEHRMANN MANUEL RIU OLIVER GUYOTJEANNIN G RARD SIV RY MANFRED GROTEN MICHAELNORTH MICHAEL PRESTWICH PAUL HARVEY GEOFFREY MARTIN GEOFFREY BARROW ROBERT SWANSON NICHOLAS OIKONOMIDES ELIZABETH ZACHARIADOU I H SIDDIQUI TIMOTHY BROOK YOSHIYASU KAWANE **A**

Companion to the Medieval World Carol Lansing, Edward D. English, 2012-10-11 Drawing on the expertise of 26 distinguished scholars this important volume covers the major issues in the study of medieval Europe highlighting the significant impact the time period had on cultural forms and institutions central to European identity Examines changing approaches to the study of medieval Europe its periodization and central themes Includes coverage of important questions such as identity and the self sexuality and gender emotionality and ethnicity as well as more traditional topics such as economic and demographic expansion kingship and the rise of the West Explores Europe s understanding of the wider world to place the study of the medieval society in a global context **Medieval East Central Europe in a Comparative**

Perspective Gerhard Jaritz, Katalin Szende, 2016-05-12 Medieval East Central Europe in a Comparative Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts The chapters compare conditions within East Central Europe as well as between East Central Europe the rest of the continent and beyond Including 15 original chapters from an interdisciplinary team of contributors this collection begins by posing the question What is East Central Europe with three specialists offering different interpretations and presenting new conclusions The book is then grouped into five parts which examine political practice religion urban experience and art and literature The contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies enemies or subjects in particular ways They point out themes and structures from town planning to religious orders that did not function according to political boundaries and for which the inclusion of East Central European territories was systemic The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes It will be

essential reading for students and scholars of medieval East Central Europe *Land Law and People in Medieval Scotland* Neville Cynthia J. Neville, 2012-10-16 This ambitious book newly available in paperback examines the encounter between Gaels and Europeans in Scotland in the central Middle Ages offering new insights into an important period in the formation of the Scots national identity It is based on a close reading of the texts of several thousand charters indentures briefs and other written sources that record the business conducted in royal and baronial courts across the length and breadth of the medieval kingdom between 1150 and 1400 Under the broad themes of land law and people this book explores how the customs laws and traditions of the native inhabitants and those of incoming settlers interacted and influenced each other Drawing on a range of theoretical and methodological approaches the author places her subject matter firmly within the recent historiography of the British Isles and demonstrates how the experience of Scotland was both similar to and a distinct manifestation of a wider process of Europeanisation *Learning to Talk Shop* Susan E. Phillips, 2025-08-12 A new account of premodern education that offered non elite readers lessons in navigating the premodern marketplace *Learning to Talk Shop* explores the phrasebooks and guides to conversations that flooded the marketplace in the fifteenth and sixteenth centuries making a virtual classroom available to an audience who could not afford or did not have access to formal education Privileging market share and mercantile savvy over moral instruction and linguistic mastery these mischievous little books offered readers lessons in the pragmatic and murky ethics of the premodern marketplace teaching them bargaining tactics insults pick up lines and strategies for welching on debts Revealing what happens when language learning itself undergoes a translation out of the classroom into the marketplace and further down the social ladder Susan E Phillips offers a new account of premodern education not through erudite tomes and schoolmaster sovereigns but through these practical books that enabled non elite readers to thrive in an environment not particularly conducive to their success Phillips asks what we learn and whom we can see when we look at premodern education from this humbler more mischievous perspective telling the tales of resourceful chambermaids savvy black stableboys and arithmetically adept barmaids as well as the story of a schoolgirl who compiled a textbook of her own and the narrative of a black schoolmaster teaching in Shakespeare's London In these stories Phillips finds the liberatory potential in a discourse that has previously been read as upholding traditional social hierarchies in the premodern period If we expand our archive beyond the Latin textbooks of the grammar school classroom to include these bestselling bi and multilingual vernacular textbooks Phillips contends we can see a radically different set of possibilities a premodern pedagogy that is more expansive more flexible and more inclusive **The Medieval Military Engineer** Peter Fraser Purton, 2018 Sheds light on the skills and techniques of the medieval military engineer over a thousand year sweep The results of medieval engineering still surround us cathedrals castles stone bridges irrigation systems However the siege artillery siege towers temporary bridges earthwork emplacements and underground mines used for war have left little trace behind them and there is even less of the engineers themselves the people behind the

military engineering achievements The evidence for this neglected group is studied here The author begins by considering the evolution of military technology across centuries and the impact of new technologies in the context of the economic and social developments which made them possible He looks at how military engineers obtained their skills and the possible link with scholastic scientific awareness With the increased survival of government records from the middle ages engineers acquire names and individuals can be identified And the fifteenth century the age of polymaths such as Leonardo da Vinci saw a new type of literate military engineer part of a recognized profession but with its roots in a thousand years of historical development PETER PURTON D Phil Oxon FSA has written extensively on medieval fortifications and siege warfare his publications include the comprehensive two volume history of the medieval siege Boydell 2010

Political Communication in Chinese and European History, 800-1600 Hilde Weerdt, Franz-Julius Morche, 2025-10-01 Based on a collaboration between historians of Chinese and European politics *Political Communication in Chinese and European History 800 1600* offers a first comprehensive overview of current research on political communication in middle period European and Chinese history The chapters present new work on the sources and processes of political communication in European and Chinese history partly through juxtaposing and combining formerly separate historiographies and partly through direct comparison Contrary to earlier comparative work on empires and state formation which aimed to explain similarities and differences with encompassing models and new theories of divergence the goal is to further conversations between historians by engaging regional historiographies from the bottom up

Manuscripts and Archives Alessandro Bausi, Christian Brockmann, Michael Friedrich, Sabine Kienitz, 2018-02-19 Archives are considered to be collections of administrative legal commercial and other records or the actual place where they are located They have become ubiquitous in the modern world but emerged not much later than the invention of writing Following Foucault who first used the word archive in a metaphorical sense as the general system of the formation and transformation of statements in his *Archaeology of Knowledge* 1969 postmodern theorists have tried to exploit the potential of this concept and initiated the archival turn In recent years however archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and grounding them again in real institutions The papers in this volume explore the complex topic of the archive in a historical systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how by whom and for which purpose were archival records produced and if they differ from literary manuscripts regarding materials formats and producers scribes

The Later Middle Ages Isabella Lazzarini, 2021-04-29 Of all the sub periods in which European medieval history has been divided over time the later middle ages is possibly the one on which the burden of past and current grand narratives weighs the most Its chronological and geopolitical boundaries are shaped by a heavy narrative of decline or transition and consequently this period is often interpreted through the lenses of previous or following developments becoming in turn the tail end of the feudal communal imperial versus papal era or the

announcement of modernity The Later Middle Ages addresses the urgent need to revise and rewrite the story of this period forging new critical and technical vocabularies not derived from the study of other periods By adopting a conscious approach towards temporal and spatial variety and by breaking the traditional and unitary narrative of decline and transition into one of many changes and continuities it charts the principal developments of late medieval Europe while opening up to different political cultures and societies throwing new light on older concepts and revealing analogies and differences with other geopolitical contexts Including maps illustrations a detailed chronology and a rich range of reading suggestions The Later Middle Ages aims at providing a first introduction to a very complex dynamic and fascinating period for Europe and beyond

The Beguines of Medieval Świdnica Tomasz Gałuszka, Paweł Kras, 2023 Documents recording the interrogation of sixteen women and the nature of their unusual spiritual practices now available in a full edition and for the first time a full English translation In September 1332 in the town of widnica an important economic and communication centre of what was then Silesia a group of sixteen women stood before the Dominican inquisitor John of Schwenkenfeld to testify about the local community of beguines who called themselves the Hooded Sisters or the Daughters of Odelindis We are fortunate that the original records of this heresy interrogation have survived preserved as a notarial instrument drawn up shortly afterwards eventually transferred to the Papal Curia and now kept in the Vatican Library The documents provide unique insights into the everyday life and spirituality of this group of lay women as they attempted to adopt the ideals of *vita apostolica* They lived in the strict poverty they thought necessary for spiritual perfection and took part in austere ascetic practices including regular flagellation and a strict diet regime aiming to mortify sinful flesh and help them achieve mystical union with God Using this evidence the authors of this book piece together a sense of who these interrogated beguines were and the nature of their spiritual practices Were they pious illiterates or self trained theologians keenly interested in debates around the doctrine of such intellectuals as Master Eckhart John Duns Scotus and Thomas Aquinas The book also addresses the nature of their interrogation and the conduct of Friar John of Schwenkenfeld And it contains a full edition and for the first time a full English translation of the documents themselves
