Prairie Time The Leopold Reserve Revisited:

Prairie Time John Ross, Beth Ross, 1998-08-15 In the rush of modern life we measure our lives by the clock the calendar the timetable But there are older rhythms in nature the call of chickadees before the first hint of spring the golden face of a compass plant in July the first snowfall These signs mark the passage of time in a world that Aldo Leopold knew well and eloquently described With notebook and camera in hand John and Beth Ross revisit the Aldo Leopold Memorial Reserve in south central Wisconsin fifty years after Leopold's death Thanks to the efforts of Leopold his family and the Leopold Foundation this once ruined farmland is now largely restored to a natural state The Rosses explore the terrain of this sandy land encounter its natural citizens and relate life here to its physical underpinnings Following Leopold's own practice of phenology they note the seasonal changes arrivals and departures of wild geese the blossoming of the pasque flower at the edge of melting snow the appearance of monarch butterflies on the milkweed And further they seek to find in this landscape an underlying morality a communion of understanding a sense of place in the cosmos Beautifully illustrated with color photographs the book also includes notes on the behavior habitat and human interactions with ninety four species of plants birds and other animals found in the reserve An extensive glossary explains terms from geology ecology meteorology and related life and earth sciences

Walking Home Ground Robert Root, 2017-10-24 When longtime author Robert Root moves to a small town in southeast Wisconsin he gets to know his new home by walking the same terrain traveled by three Wisconsin luminaries who were deeply rooted in place John Muir Aldo Leopold and August Derleth Root walks with Muir at John Muir State Natural Area with Leopold at the Shack and with Derleth in Sac Prairie closer to home he traverses the Ice Age Trail often guided by such figures as pioneering scientist Increase Lapham Along the way Root investigates the changes to the natural landscape over nearly two centuries and he chronicles his own transition from someone on unfamiliar terrain to someone secure on his home ground In prose that is at turns introspective and haunting Walking Home Ground inspires us to see history's echo all around us the parking lot that once was forest the city that once was glacier Perhaps this book is an invitation to walk home ground Root tells us Perhaps too it's a time capsule a message in a bottle from someone given to looking over his shoulder even as he tries to examine the ground beneath his feet

Island of Grass Ellen E. Wohl, 2011-05-18 Island of Grass tells the story of the Cathy Fromme Prairie Natural Area a 240 acre preserve surrounded by housing developments in Fort Collins Colorado This small grassland is a remnant of the once vast prairies of the West that early European explorers and settlers described as seas of grass Agricultural land use and urban expansion during the past two centuries have fragmented and altered these prairies All that remains today are small islands These remnants cannot support some of the larger animals that once roamed the prairie but they continue to support a diverse array of plants and animals and can still teach us much about grassland ecology Through her examinations of daily changes during walks across the Fromme Prairie over the course of a year Ellen Wohl explores one of the more neglected ecosystems in North America

describing the geology soils climate ecology and natural history of the area as well as providing glimpses into the lives of the plants animals and microbes inhabiting this landscape Although small in size pieces of preserved shortgrass prairie like the Cathy Fromme Prairie Natural Area are rich diverse and accessible natural environments deserving of awareness appreciation and protection Anyone concerned with the ecology and conservation of grasslands in general the ecology and conservation of open space in urban areas or the natural history of Colorado will be interested in this book *Living a Land Ethic* Stephen A.
