The Armor of Light Meredith Parsons Lillich, 2023-12-22 This landmark study is the first to look closely at the stained glass produced between 1250 and 1325 in western France during the late Capetian era Generously illustrated with a wealth of color and black and white images never before published including many from French churches now closed to the public Lillich greatly expands our knowledge of both the art and the society from which it emerged The period Lillich chronicles begins with the region's new vitality following the knights' return from the crusades and ends with the onset of economic uncertainty and unrest that preceded the Hundred Years War She reveals that the stained glass of this 75 year span is forceful and uninhibited dramatic and dazzling characteristic of what we now term expressionism Lillich tracks and identifies painters glazing shops working methods models and sources to argue that the stained glass is a major style with its own developmental evolution and character putting to rest the notion that this art is merely transitional and provincial This landmark study is the first to look closely at the stained glass produced between 1250 and 1325 in western France during the late Capetian era Generously illustrated with a wealth of color and black and white images never before published including

The Risen Adam Virginia Hyde, 2010-11 Showing Lawrence's familiarity with biblical typology from both written and visual sources Virginia Hyde explores its many ironic and paradoxical versions in his works She demonstrates his use of typological precursors of Christ such as Adam and David Moses and Aaron and his development of a coherent cosmology centered on the cross and the Tree of Life These features often take on radically revisionist meanings when informed by Lawrence's interests in theosophy and occult lore Hyde fully recognized Lawrence's intensely dynamic style and examines the ways in which he works creatively with his models Hyde sheds new light on Lawrence's leadership views linking them to patriarchal assumptions inherent in biblical typology She utilizes manuscripts and sketches as well as his traditional works to show that a complex form of biblical symbolism affects both his form and content in

unexpected ways His symbols are often traceable to iconographic models with typological significance The Risen Adam includes pioneering treatments of the first Quetzalcoatl the 1923 version of The Plumed Serpent so different in part from the final novel as to form a separate creative effort Hyde also offers provocative new readings of The Rainbow Women in Love Aaron s Rod The Border Line The Plumed Serpent David The Man Who Died Birds Beasts and Flowers and other works The book is illustrated with artwork by Lawrence and with examples of the medieval and other iconography he knew

Historical Dictionary of Science Fiction Literature Brian Stableford,2004-04-19 This reference tracks the development of speculative fiction influenced by the advancement of science and the idea of progress from the eighteenth century to the present day The major authors and publications of the genre and significant subgenres are covered Additionally there are entries on fields of science and technology which have been particularly prolific in provoking such speculation The list of acronyms and abbreviations the chronology covering the literature from the 1700s through the present the introductory essay and the dictionary entries provide science fiction novices and enthusiasts as well as serious writers and critics with a wonderful foundation for understanding the realm of science fiction literature The extensive bibliography that includes books journals fanzines and websites demonstrates that science fiction literature commands a massive following Takarazuka Jennifer Robertson,1998-07-21 The all female Takarazuka Revue is world famous today for its rococo musical productions including gender bending love stories This text explores how the Revue illuminates discourses of sexual politics nationalism imperialism and popular culture in 20th century Japan **Automatic** Timothy Wientzen,2021-08-31 A fascinating study of how behavioral science shaped twentieth century politics and the modernist literary period The advent of the twentieth century famously brought about new personal and political freedoms including radical changes in voting rights and expressions of gender and sexuality Yet writers and cultural critics shared a sense that modern life reduced citizens to automatons capable of interacting with the world in only the most reflexive ways In Automatic Timothy Wientzen asks why modernists were deeply anxious about the role of reflexive behaviors and the susceptibility of bodies to physical stimuli in the new political structures of the twentieth century Engaging with historical thinking about human behaviors that fundamentally changed the nature of political and literary practice Wientzen demonstrates the ways in which a politics of reflex came to shape the intellectual and cultural life of the modernist era Documenting some of the ways that modernist writers and their contemporaries mapped harnessed and intervened in a political sphere dominated by conditioned reflexes Wientzen reads writers like D H Lawrence Rebecca West Wyndham Lewis and Samuel Beckett in conversation with fields that include public relations physiology sociology and vitalism Ultimately he justifies a reckoning with some of the most enduring preoccupations of modernist studies Automatic further emphasizes the role of politics and science in the aesthetic projects of modernist writers At a moment when political enfranchisement and the mass media promised new modes of freedom agency and choice Wientzen argues that the modernist era was beset by apprehension

about the conscription of liberty through the conditioning force of everyday life Analyzing such thinking through a neglected archive about embodiment and reflex reveals modernists responding to the historically novel conditions of political life in the twentieth century conditions that have become entrenched in the politics of our own century **Disco Witches of Fire**

Chalk,2024-08-27 This book identifies and explores the consistent link between negative depictions of education in novels and claims for the educative effects of reading them The novel and education are both phenomena that rely fundamentally on development over time the former in plot and character and the latter in individual potential Despite this basic parallel these forms of development are at odds in many works of fiction that treat education as constrictive and even traumatic to the individual rather than healthy and formative Novel Schooling identifies a pervasive pattern in novels from the 19th to 21st centuries writers ranging from Charles Dickens and D H Lawrence to Zadie Smith reject conventional modes of education and propose their own models for shaping the sensibilities of their characters and readers These works critique institutional education as a point of departure to position reading fiction as a superior form of individual development Using the new ethics and reader response theory this work traces the treatment of education in and through the novel concluding with fresh assertions of the value of literature in a digital market driven world **THE TRUTH ABOUT FREEMASONS, ILLUMINATI, AND NEW WORLD ORDER** S.D.S C.M.W,2012-03 Two Books In One The New World Order s Letter to Every Citizen of the World warning Resistance is Futile According to this letter addressed to everybody in America it s useless to resist a one world takeover as the program is in its final stages The Very word secrecy is repugnant in a free and open society and we are as people inherently and historically opposed to secret societies to secret oaths and to secret proceedings We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify If you have the privilege to know you have the duty to act **Composer** ,1975 **The Forrest J Ackerman Oeuvre** Christopher M.
