American Apocalypse Rena Steinzor, 2024-07-09 A thorough analysis of the right wing interests contributing to the downfall of American democracy The war on American democracy is at a fever pitch Such a corrosive state of affairs did not arise spontaneously up from the people but instead was pushed top down by six private sector special interest groups big business the House Freedom Caucus the Federalist Society Fox News white evangelicals and armed militias In *American Apocalypse* Rena Steinzor argues that these groups are nothing more than well financed armies fighting a battle of attrition against the national government with power money and fame as their central motivations The book begins at the end of Lyndon Johnson s presidency when the modern regulatory state was born Agencies like the Environmental Protection Agency and the Food and Drug Administration ensured that everything from our air to our medicine was safe But efforts to thwart this big government agenda began swiftly albeit in the shadows Business leaders built a multi billion dollar presence in the Capitol and the rest of the six interest groups soon followed While the groups do not coordinate their attacks and sometimes their short term goals even conflict their priorities fall within a surprisingly tight bullseye the size and power of the administrative state In the near term their campaigns will bring the crucial functions of government to a halt which will lead to immediate suffering by the working classes and a rapid deterioration of race relations Over the long term as the prevalence of global pandemics and climate crises increase an incapacitated national government will usher in unimaginable harm This book is the first to conceptualize these groups together as one deconstructive and awe inspiring force Steinzor delves into each of their histories mapping the strategies tactics and characteristics that make them so powerful She offers the most comprehensive story available about the downfall of American democracy reminding us that only by recognizing what we are up against can we hope to bring about change
