Rhetoric Essays In Invention And Discovery:

Rhetoric Richard Peter McKeon, 1987 The essays of Richard McKeon have long circulated piecemeal among scholars who see him as the leading twentieth century philosopher and historian of rhetoric This volume brings together McKeon's seminal works in rhetoric and philosophy and vividly demonstrates the basis for this extraordinary reputation **Catholic Horror and Rhetorical Dialectics** Gavin F. Hurley, 2024-06-15 Identifying an important subgenre of horror literature this book argues that Catholic horror fiction works distinctively to inspire the philosophical theological and spiritual imaginations of readers from all backgrounds and faith traditions Hurley analyzes four novels that are foundational to the genre of Catholic horror J K Huysmans's *L'Ève* 1891 Robert Hugh Benson's *The Light Invisible* 1903 and *A Mirror of Shalott* 1907 and William Peter Blatty's *The Exorcist* 1971 Putting these texts in conversation with the classical liberal arts the book shows how Catholic horror fiction coheres in a commitment to dialectical thinking that aims both to resolve and to accommodate contrasting world views Given its use of this methodology Catholic horror literature is uniquely positioned to draw readers into a contemplative mindset In presenting ghost stories tales of possession and narratives about evil Catholic horror invites audiences to confront and reflect on profound existential questions questions about the line between life and death the nature of being and the meaning of reality [Sourcebook on Rhetoric](#) , [Sourcebook on Rhetoric](#) James Jasinski, 2001-07-19 This book is designed to introduce readers to the language of contemporary rhetorical studies The book format is an alphabetized glossary with appropriate cross listings of key terms and concepts in contemporary rhetorical studies An introductory chapter outlines the definitional ambiguities of the central concept of rhetoric itself The primary emphasis is on the contemporary tradition of rhetorical studies as it has emerged in the discipline of speech communication Each entry in the glossary ranges in length from a few paragraphs to a short essay of a few pages Where appropriate examples are provided to further illustrate the term or concept Each entry will be accompanied by a list of references and additional readings to direct the reader to other materials of possible interest **Rhetorical Investigations** Walter Jost, 2004 Jost juxtaposes problems and questions in philosophy and literature using rhetoric as the middle term and common ground between them **Rethinking the Rhetorical Tradition** James L. Kastely, 1997-01-01 What is the role of rhetoric in a civil society In this thought provoking book James L Kastely examines works by writers from Plato to Jane Austen and locates a line of thinking that values rhetoric but also raises questions about the viability of rhetorical practice While dealing principally with literary theory rhetoric and philosophy the author's arguments extend to practical concerns and open up the way to deeper thinking about individual responsibility for existing injustices for inadvertently injuring others and for silencing those without power **Building a Social Democracy** Robert Danisch, 2015-11-06 Building a Social Democracy offers an alternative intellectual history of American pragmatism one that tries to reclaim the middle of the twentieth century in order to push neo pragmatism beyond its philosophical limitations Danisch argues that the major entailment of the

invention of American pragmatism at the beginning of the twentieth century is that rhetorical practices are the rightful object of study and means of improving democratic life Pragmatism entails a commitment to rhetoric Rhetorical pragmatism is intended to be more faithful to the project of first generation pragmatism to offer insight into the ways in which rhetoric operates in contemporary democratic cultures to recommend practices methods and modes of action for improving contemporary democratic cultures and to subordinate philosophy to rhetoric by reimagining appropriate ways for pragmatist scholarship and social research to advance *Rhetorical Minds* Todd Oakley, 2020-04-09 Minds are rhetorical From the moment we are born others are shaping our capacity for mental agency As a meditation on the nature of human thought and action this book starts with the proposition that human thinking is inherently and irreducibly social and that the long rhetorical tradition in the West has been a neglected source for thinking about cognition Each chapter reflects on a different dimension of human thought based on the fundamental proposition that our rhetoric thinks and acts with and through others

Brooks, 2017-07-05 Cicero and Modern Law contains the best modern writings on Cicero's major law related works such as the Republic On Law On Oratory along with a comprehensive bibliography of writings on Cicero's legal works These works are organized to reveal the influence of Cicero's writings upon the history of legal thought including St Thomas the Renaissance Montesquieu and the U S Founding Fathers Finally the articles include discussions of Cicero's influence upon central themes in modern legal thought including legal skepticism republicanism mixed government private property natural law conservatism and rhetoric The editor offers an extensive introduction placing these articles in the context of an overall view of Cicero's contribution to modern legal thinking **The Pedagogy of Adaptation** Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 From All Quiet on the Western Front and Gone with the Wind to No Country for Old Men and Slumdog Millionaire many of the most memorable films have been adapted from other sources And while courses on film studies are taught throughout the world The Pedagogy of Adaptation makes a strong case for treating adaptation studies as a separate discipline What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an original This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature It is the first such volume devoted exclusively to teaching adaptations from a practical teacher centered angle Many of the essays show how adaptation as a discipline can be used to prompt reflection on cultural historical and political differences Written by specialists in a variety of fields ranging from film radio theater and even language studies the book adopts a pluralistic view of adaptation showing how its processes vary across different contexts and in different disciplines Defining new horizons for the teaching of adaptation studies these essays draw on such disparate sources as Frankenstein Moby Dick and South Park This volume not only provides a resource book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students skills and improve their literacy *Introduction to Classical Legal Rhetoric* Michael H. Frost, 2017-03-02

Lawyers law students and their teachers all too frequently overlook the most comprehensive adaptable and practical analysis of legal discourse ever devised the classical art of rhetoric Classical analysis of legal reasoning methods and strategy is the foundation and source for most modern theories on the topic Beginning with Aristotle s Rhetoric and culminating with Cicero s De Oratore and Quintilian s Institutio Oratoria Greek and Roman rhetoricians created a clear experience based theoretical framework for analyzing legal discourse This book is the first to systematically examine the connections between classical rhetoric and modern legal discourse It traces the history of legal rhetoric from the classical period to the present day and shows how modern theorists have unknowingly benefited from the classical works It also applies classical rhetorical principles to modern appellate briefs and judicial opinions to demonstrate how a greater familiarity with the classical sources can deepen our understanding of legal reasoning

rhetoric to today's students Advocating Heightened Education Kathleen F. McConnell, 2020-08-20 Colleges and universities face unprecedented pressure to streamline and reduce their infrastructure. A new generation of reformers frustrated by bureaucratic obstacles and rising costs dream of education without schools. Those reforms if realized promise to render education indistinguishable from other social spheres. *Advocating Heightened Education* mobilizes situated theories of learning to advocate the labor and expense that goes into maintaining campuses. Higher education's bulky and incommensurable institutions from the community colleges and Ivy Leagues to the regional public universities and small liberal arts campuses serve a critical modality. They ensure that educational forms remain visible and available for critique. Their diversity of form retains the possibility of divergent and transformative educational futures. This ethnographic and archival study of two alternative campuses, The Evergreen State College and California State University Monterey Bay, illustrates how educators advocate their work by heightening its visibility and by modeling appreciation for situated teaching and inquiry. It provides examples of those advocacy techniques with stories of professional life and close readings of historical documents that include institutional and legislative reports, facilities memoranda, and course descriptions. These materials offer a vibrant counter narrative to reform movements that seek to standardize the college experience. Scholars of higher education pedagogy and communication will find this book particularly interesting. **A Companion to the Philosophy of Literature** Garry L. Hagberg, Walter Jost, 2015-02-16 This monumental collection of new and recent essays from an international team of eminent scholars represents the best contemporary critical thinking relating to both literary and philosophical studies of literature. Helpfully groups essays into the field's main sub categories among them: Relations Between Philosophy and Literature, Emotional Engagement and the Experience of Reading Literature, and the Moral Life and Literary Language. Offers a combination of analytical precision and literary richness. Represents an unparalleled work of reference for students and specialists alike. Ideal for course use. *The Routledge Companion to Visual Organization* Emma Bell, Samantha Warren, Jonathan E. Schroeder, 2014-01-23 The visual constitutes an increasingly significant element of contemporary organization as post industrial societies move towards economies founded on creative and knowledge intensive industries. The visual has thereby entered into almost every aspect of corporate strategy, operations, and communication, reconfiguring basic notions of management practice and introducing new challenges in the study of organizations. This volume provides a comprehensive insight into the ways in which organizations and their members visualize their identities and practices, and how they are viewed by those who are external to organizations, including researchers. With contributions from leading academics across the world, *The Routledge Companion to Visual Organization* is a valuable reference source for students and academics interested in disciplines such as film studies, entrepreneurship, marketing, sociology, and most importantly, organizational behaviour. **Curriculum** Wesley Null, 2023-03-27 The third edition of *Curriculum: From Theory to Practice* provides an introduction to curriculum theory and how it relates to classroom practice. Wesley Null builds upon recent

developments while continuing to provide a unique organization of the curriculum field into five traditions systematic existential radical pragmatic and deliberative Null discusses the philosophical foundations of curriculum as well as historical and contemporary figures who have shaped each curriculum tradition To ensure breadth and scope Null has expanded this edition to include new figures address rapid changes in democratic society and chart a path to inclusion and wise decision making
