Robert L. O'Connell

Mhq Winter 1993 Volume 5 No :

Soul of the Sword Robert L. O'Connell, 2002 In an elegantly illustrated volume a noted historian reveals culture society and history through the saga of war and its implements from the claws and horns of our evolutionary antecedents to today's nuclear MIRV missiles 150 illustrations throughout *Casualties of the New World Order* M. Wesley, 1997-07-14 Casualties of the New World Order contends that the high rate of failure among post Cold War UN missions are attributable to common weaknesses which are vulnerable to civil war dynamics These mission weaknesses derive from the high level of control over the missions mandates and operations wielded by combinations of self interested and distracted UN member states The effects of these weaknesses are examined in the failed missions in Bosnia Somalia and Angola while their absence is observed in the successful missions to El Salvador Mozambique and Cambodia Eyewitness Korea James Goulty, 2018-11-30 Today the Korean War of 1950 1953 is overshadowed by later twentieth century conflicts in Vietnam and the Middle East yet at the time it was the focus of international attention It threatened to lead to a third world war and although fought on a limited scale it still involved over a million men under UN command and even more on the Communist side It left the American and British troops who took part with a range of intense recollections that often marked them for the rest of their lives and it is these experiences that James Goulty draws on in this eyewitness history of the conflict He uses official documents letters diaries regimental histories memoirs oral histories and correspondence to show what the war was like for those who took part Their accounts vividly contrast the American and British experience as seen through the eyes of individual servicemen and they throw fresh light on the relations between the UN forces on their different attitudes tactics training and equipment and on the tensions that developed between them Hiding in Plain Sight Christian P. Potholm, 2021-10-22 Hiding in Plain Sight Women Warriors throughout Time and Space takes the many long standing dimensions of military history including the various modalities of warfare across cultures and periods and integrates them with the more recent and very substantial contributions of social history women's history black history feminist theory LGBTQ community and other perspectives By providing an extensive annotated bibliography of the new findings the work provides the reader with an exciting compilation of new knowledge placed within a longstanding military historical framework one which provides a broader study and understanding of warfare into which to put the very recent disparate findings culled from many disciplines The book reaffirms that women have long been deeply embedded in the practice of warfare not simply as victims or minor curiosities but as important actors tactically strategically in combat and directing warfare from afar just as their male counterparts The concomitant amalgam also shows that certain types and patterns of warfare such as the defense of castles and fortresses commanding a ship or a fleet revolutionary warfare and today's drone and cyber forms of warfare have been more conducive to female activity than other forms of warfare even as women are also present in a wider variety of other broader temporal and geographical dimensions of the history of warfare Hiding in Plain Sight is the only extensive annotated bibliography

currently available which provides such a holistic overview of recent scholarship by grounding that scholarship in the existing military canon and history **Shaw and Other Matters** Stanley Weintraub,1998 Demonstrating the influence of scholar teacher Stanley Weintraub on his students Shaw and Other Matters reflects the scope of that influence in its concern with a variety of literary figures from Shaw to Joe Orton and of topics such as war memoirs and golem robots The variety is there as well in the approaches to the subjects Rodelle Weintraub s dream analysis of Arms and the Man Julie Sparks s comparison of Shaw with Bellamy Morris and Bulwer Lytton as world betterers Michael Pharand s evaluation of Shaw s changing views of Napoleon Kinley Roby s tracing of Shaw s exchanges of views on playwriting with Arnold Bennett and Kay Li s archetypal exploration of characters in Heartbreak House **On the Napoleonic Wars** David G. Chandler,1994 The diverse array of subjects covered include the British campaign in Egypt in 1801 the battle of Maida Napoleon s decisive victories at Marengo and Austerlitz the Peninsular War the Russian Army at war in 1807 and 1812 and the retreat from Moscow The collection spans the entire career of Dr Chandler and demonstrates the depth of his research Publisher

Peacekeeping James H. Allan,1996-03-20 This study is based on the author s experience with five United Nations peacekeeping missions He argues that peacekeepers in the Cold War era played a limited but useful role in international conflict control but new approaches to peacekeeping in the pos **The Seaforth Bibliography** Eugene Rasor,2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side

Encyclopedia of the Spanish-American and Philippine-American Wars Jerry Keenan,2001-12-05 An A Z encyclopedia covering the principal battles and campaigns key military and political figures and the political maneuvering during the Spanish American and Philippine American Wars America s adventure into colonialism began with the destruction of the U S battleship Maine in 1898 presumably by a Spanish mine The four month war against Spain that followed the shortest declared war in U S history resulted in the U S acquisition of the Philippines Puerto Rico and Guam The young giant of the Western Hemisphere was transformed into a colonial power and the balance of power in the world was changed

forever In this chronicle of an era that has escaped the attention it deserves military historian Jerry Keenan explores America's war with Spain and the violence that followed He shows how the United States muddled the administration of the sprawling Philippine archipelago guided by a policy that President McKinley called benevolent assimilation Within a year the United States was fighting a war against Philippine nationalists a three year conflict that would give American soldiers their first bitter taste of counterinsurgency warfare in an Asian jungle *The Pacific Campaign in World War II* William Bruce Johnson, 2006-05-02 This is a fascinating new account of how diplomacy and politics gave way to military strategy and warfare in the Pacific Presenting previously unpublished documents this book freshly examines the key events in the fight for the Pacific [Circle the Wagons!](#) Gregory F. Michno, Susan J. Michno, 2008-10-17 It's a cinematic image as familiar as John Wayne's face a wagon train circling as a defensive maneuver against Indian attacks This book examines actual and fictional wagon train battles and compares them for realism It also describes how fledgling Hollywood portrayed the concept of westward migration but as the evolving industry became more accurate in historical detail how filmmakers then lost sight of the big picture *Fire and Fortitude* John C. McManus, 2020-08-04 WINNER OF THE GILDER LEHRMAN PRIZE FOR MILITARY HISTORY An engrossing epic history of the US Army in the Pacific War from the acclaimed author of *The Dead* and *Those About to Die* This eloquent and powerful narrative is military history written the way it should be James M McPherson Pulitzer Prize winning historian Out here mention is seldom seen of the achievements of the Army ground troops wrote one officer in the fall of 1943 whereas the Marines are blown up to the skies Even today the Marines are celebrated as the victors of the Pacific a reflection of a well deserved reputation for valor Yet the majority of fighting and dying in the war against Japan was done not by Marines but by unsung Army soldiers John C McManus one of our most highly acclaimed historians of World War II takes readers from Pearl Harbor a rude awakening for a military woefully unprepared for war to Makin a sliver of coral reef where the Army was tested against the increasingly desperate Japanese In between were nearly two years of punishing combat as the Army transformed at times unsteadily from an undertrained garrison force into an unstoppable juggernaut and America evolved from an inward looking nation into a global superpower At the pinnacle of this richly told story are the generals Douglas MacArthur a military autocrat driven by his dysfunctional lust for fame and power Robert Eichelberger perhaps the greatest commander in the theater yet consigned to obscurity by MacArthur's jealousy Vinegar Joe Stillwell a prickly soldier miscast in a diplomat's role and Walter Krueger a German born officer who came to lead the largest American ground force in the Pacific Enriching the narrative are the voices of men otherwise lost to history the uncelebrated Army grunts who endured stifling temperatures apocalyptic tropical storms rampant malaria and other diseases as well as a fanatical enemy bent on total destruction This is an essential ambitious book the first of three volumes a compellingly written and boldly revisionist account of a war that reshaped the American military and the globe and continues to resonate today INCLUDES MAPS AND PHOTOS [The Mexican-American War Experiences of Twelve Civil War Generals](#)

Timothy D. Johnson, 2024-10-23 Long overshadowed by the American Civil War the Mexican American War 1846-1848 has received significantly less attention from historians partly because of its questionable origin and controversial outcome. Rather than treat the conflict with a form of historical amnesia, the contributors to this volume argue that the Mexican American War was a formative experience for the more than three hundred future Civil War generals who served in it as lower grade officers. The Mexican War was the first combat experience for many of them, a laboratory that equipped a generation of young officers with practical lessons in strategy, tactics, logistics, and interpersonal relationships that they would use later to command forces during the Civil War. **The Southwest Pacific Campaign, 1941-1945** Eugene L.

Rasor, 1996-09-24 Providing comprehensive coverage of the literature on the Southwest Pacific Campaign of World War II, this book includes both a historiographical narrative and an annotated bibliography of over 1500 entries. Part I, the historiographical narrative, includes a general survey and review of the works listed in Part II, the annotated bibliography. The historiographical survey features critical analysis and an evaluation of the literature, making an effort to place each work in context and also pointing to gaps in the literature. The bibliography section includes descriptive and evaluative annotations. Works cited in Part I are cross-referenced to Part II. The book reviews, evaluates, and integrates a comprehensive collection of popular and scholarly literature on the Southwest Pacific Campaign. Coverage includes operations in all dimensions: land, sea, air, underwater, and combinations of these. The work covers personnel and their experiences and includes memoirs, diaries, autobiographies, biographies, and oral histories. It also covers intelligence, matters of diplomacy, logistics, and supply, and cultural aspects such as journalism, fiction, film, and art. Available archival research and library facilities and materials are also described. There is an introductory historical essay, a chronology, and comprehensive indexes. *Tank Warfare* Jeremy

Black, 2020-10-27 An insightful and informative overview of the role of tanks in combat from the First World War to the present day. Dennis Showalter, author of *Armor and Blood: The Story of the Battlefield in the Twentieth Century*, was dominated by a handful of developments. Foremost of these was the introduction and refinement of tanks. In *Tank Warfare*, Jeremy Black, a recipient of the Samuel Eliot Morison Prize from the Society for Military History, offers a comprehensive global account of the history of tanks and armored warfare in the twentieth and twenty-first centuries. First introduced onto the battlefield during World War I, tanks represented the reconciliation of firepower and mobility and immediately seized the imagination of commanders and commentators concerned about the constraints of ordinary infantry. The developments of technology and tactics in the interwar years were realized in the German blitzkrieg in World War II and beyond. Yet the account of armor on the battlefield is a tale of limitations and defeats as well as of potential and achievements. *Tank Warfare* examines the traditional narrative of armored warfare while at the same time challenging it, and Black suggests that tanks were no silver bullet on the battlefield. Instead, their success was based on their inclusion in the general mix of weaponry available to commanders and the context in which they were used. An excellent overview of the subject. Alaric Searle, author of *Armoured*

Warfare A Military Political and Global History **Tinclads in the Civil War** Myron J. Smith, Jr.,2010-01-13 Once the Union Army gained control of the upper rivers of the Mississippi Valley during the first half of 1862 slow and heavy ironclads proved ineffective in patrolling the waters Hastily outfitted steamboats were covered with thin armor and pressed into duty These tinclads fought Confederate forces attacking from the riverbanks provided convoy for merchant steamers enforced revenue measures and offered tow dispatch and other fleet support services This history documents the service records and duties of these little known vessels of the Union fleet *List of Serials Indexed for Online Users* ,1997 Each entry gives abbreviated title full title publication city NLM call number NLM title control number ISSN number special list indicator journal title code and sometimes a brief note 1983 ed 6037 titles *Russian & Soviet Battleships* Stephen McLaughlin,2003 Covering the period 1869 1960 this volume provides an overview of Russian and Soviet battleships It describes the design histories technical innovations characteristics and service histories of 40 naval vessels Approximately 100 drawings and design studies illustrate the details of the ships **Historical Abstracts** ,1995 *Prompt and Utter Destruction* J. Samuel Walker,2006-03-13 In this concise account of why America used atomic bombs against Japan in 1945 J Samuel Walker analyzes the reasons behind President Truman s most controversial decision Delineating what was known and not known by American leaders at the time Walker evaluates the roles of U S Soviet relations and of American domestic politics In this new edition Walker takes into account recent scholarship on the topic including new information on the Japanese decision to surrender He has also revised the book to place more emphasis on the effect of the Soviet invasion of Manchuria in convincing the emperor and his advisers to quit the war Rising above an often polemical debate Walker presents an accessible synthesis of previous work and an important original contribution to our understanding of the events that ushered in the atomic age
