Morrow's Ants Edward Hyams,1975 **Morrow's Word-finder** Paul Desdemaines Hugon,1927 **Interpreting Nature** Brian Treanor,Martin Drenthen,David Utsler,2013-11-11 Modern environmentalism has come to realize that many of its key concerns wilderness and nature among them are contested territory viewed differently by different people Understanding nature requires science and ecology to be sure but it also requires a sensitivity to history culture and narrative Thus understanding nature is a fundamentally hermeneutic task **Bonelines** Phil Smith,2020-08-01 A dark novel set in the Lovecraft Villages of Devon spanning several thousand years from the time it was occupied by the Dumnonii through the 19th century to its more contemporary occupation by holiday park dwellers marketing professionals doggers and other romantics Morrow's Almanack ,1929 **Future Theory** Patricia Waugh,Marc Botha,2021-04-08 By interrogating the terms and concepts most central to cultural change Future Theory interrogates how theory can play a central role in dynamic transition It demonstrates how entangled the highly politicized spheres of cultural production scientific invention and intellectual discourse are in the contemporary world and how new concepts and forms of thinking are crucial to embarking upon change Future Theory is built around five key concepts change boundaries ruptures assemblages horizons examined by leading international thinkers to build a vision of how theory can be applied to a constantly shifting world

The British Drama ,1872 Environmental Hermeneutics in the Anthropocene David Utsler,Forrest Clingerman,Brian Treanor,2025-10-15 Environmental Hermeneutics in the Anthropocene is a diverse collection of essays that approach contemporary environmental problems with the tools and perspectives provided by the tradition of philosophical hermeneutics advanced by philosophers such as Martin Heidegger Hans Georg Gadamer and Paul Ricoeur Engaging both established and new voices this book presents a significant contribution to the field by expanding the scope of philosophical hermeneutics to environmental issues It addresses a broad scope of environmental topics such as the Anthropocene climate change degrowth environmental justice the limits of language in understanding nature and environmental aesthetics in environmental practice Together the chapters show the crisis of regional and global environmental problems to be in part a crisis of interpretation The ways that human beings understand their relationship to environments shape and determine how to act and live within places Yet the values and ideals that different people have about their lived environments often come into conflict Thus hermeneutics plays an important role in environmental discourse it helps adjudicate these conflicting understandings This collection of essays demonstrates the unique way that environmental hermeneutics can be employed to understand environments in this age of the Anthropocene It will appeal to researchers and upper level students in environmental humanities environmental studies ethics and philosophy **The Land of To-morrow** Henry M.
