Mother Hippopotamus Foundations:

Mammisis of Egypt Ali Abdelhalim Ali, Dagmar Budde, 2023-12-04 Birth Houses Mammisis are important components of late Egyptian temple complexes but have not been investigated in detail since the fundamental study of Francois Daumas published in 1958 In the meantime new archaeological findings as well as re evaluations of theology and piety in Greco Roman Egypt have considerably expanded our traditional understanding of these extraordinary buildings Therefore reassessment of phenomena and expanded research approaches need to be undertaken This book presents the printed versions of the lectures given by international Egyptologists at the IFAO in Cairo on March 27 28 2019 as part of the 1st Colloquium on Mammisis of Egypt In the publication criteria and reconsiderations are put up for discussion that can be decisive for the identification and definition of Mammisis The spectrum of topics ranges from theological basics including the significant birth cycle and typical features through historical development and cultic events to the architecture of these temple buildings Special motifs theoretical and iconographic concepts and finally the persistence of certain rites in modern Egypt are also covered One chapter introduces current scientific projects and their methods that are dedicated to selected mammisis or chapels Coptos Deir el Medina Edfu Kom Ombo Philae Bahariya Kellis Jebel Barkal Numerous illustrations complement the contributions They contain new material from excavations that is being published for the first time

Chatterbox ,1904 St. Augustine of Hippo R.W. Dyson,2006-09-21 St Augustine of Hippo was the earliest thinker to develop a distinctively Christian political and social philosophy He does so mainly from the perspective of Platonism and Stoicism but by introducing the biblical and Pauline conceptions of sin grace and predestination he radically transforms the classical understanding of the political Humanity is not perfectible through participation in the life of a moral community indeed there are no moral communities on earth Humankind is fallen we are slaves of self love and the destructive impulses generated by it The State is no longer the matrix within which human beings can achieve ethical goods through co operation with other rational and moral beings Augustine s response to classical political assumptions and claims therefore transcends normal radicalism His project is not that of drawing attention to weaknesses and inadequacies in our political arrangements with a view to recommending their abolition or improvement Nor does he adopt the classical practice of delineating an ideal

State To his mind all States are imperfect they are the mechanisms whereby an imperfect world is regulated They can provide justice and peace of a kind but even the best earthly versions of justice and peace are not true justice and peace It is precisely the impossibility of true justice on earth that makes the State necessary Robert Dyson s new book describes and analyses this transformation in detail and shows Augustine s enormous influence upon the development of political thought down to the thirteenth century **Ancient Egypt Light Of The World 2 Vol set** Gerald Massey,2013-10-15 First published in 2005 This expansive and fascinating treatment of ancient Egyptian mythology and its influence on the traditions that followed from it includes explorations of sign language in mythological representation totemism fetishism spirits and Gods the Egyptian Book of the Dead and Egyptian wisdom in the Hebrew Genesis Readers will enjoy the wealth of information offered by Massey as well as his clear and readable style "The" Foundations of England Or Twelve Centuries of British History Sir James Henry Ramsay,1898
