

Three bright green apples are arranged on a white surface. One apple is in the foreground, slightly to the right, showing its stem. Two other apples are behind it, one to the left and one to the right. The apples are glossy and have a few small dark spots. The text 'Year 11' is overlaid on the left apple.

Multi-strand Science 1 Nicholas Chandler,1998 Text for the revised Multistrand Science course for secondary school students in Queensland Focuses on mandatory core topics and popular electives and takes a contextual approach with theory appendices Provides unit tests and reasoning exercises with answers Includes an index STEM Education in the Junior Secondary Robyn Jorgensen, Kevin Larkin, 2017-08-09 This book brings together a collection of internationally renowned authors in the STEM field to share innovations in the teaching of STEM It focuses on the junior secondary years of education students aged 11-15 since this is the age range in which students choose whether or not to formally opt out of STEM education It is here that the book makes a significant contribution to the field by integrating the STEM area and focusing on the junior years of schooling While developing this book the editors drew on two main premises Firstly STEM is seen as the integrated study of science technology engineering and mathematics in a coherent learning paradigm that is based on real world applications Secondly it is important to integrate digital technologies into STEM education beyond the superficial use of ICTs seen in many schools The book also addresses the challenges within STEM education many of which are long standing To this end it includes chapters on marginalised and diverse communities ensuring that a broad range of perspectives on STEM education is included Science and Mathematics Curricular Developments Internationally, 1956-1974 International Clearinghouse on Science and Mathematics Curricular Developments, 1975 *Multistrand Senior Science for High School Students* University of Sydney. Science Foundation for Physics. Multistrand Senior Science Textbook Group, Harry Messel, 1975 Report of the International Clearinghouse on Science and Mathematics Curricular Developments International Clearinghouse on Science and Mathematics Curricular Developments, 1956 Issues in Contemporary Teaching: Literacy, 2011 Examines issues that inform the changing nature of teacher work including teacher capabilities for the information age the changing nature of school curricula the global education environment the neurosciences and the diverse range of student needs in today's classrooms Back cover of v 1 Examining the Phenomenon of "Teaching Out-of-field" Linda Hobbs, Günter Törner, 2019-01-01 This book identifies and surveys the major themes around out of field teaching that is teaching subjects or year levels without a specialization This has been an issue in many countries for some time yet until recently there has been little formal research and poor policy responses to related problems This book arises out of collaborations between members of an international group of researchers and practitioners from Australia Germany Ireland England South Africa Indonesia and the United States Cross national comparisons of ideas through case studies descriptions of practice and research data interrogates the experiences practices and contexts relating to out of field teaching In particular the book considers the phenomenon of out of field teaching in relation to national policy contexts local school leadership practices professional development The book represents an essential contribution on a highly topical issue that has implications for quality and equitable education around the globe **Teachers and Schooling**

Making A Difference Pam Christie,Bob Lingard,2020-08-04 Teachers Schooling Making a Difference takes seriously the question that teachers ask What do I do on Monday and does provide answers From the foreword by Professor Michael Apple University of Wisconsin Education debates are currently dominated by free market ideologists who push privatisation and competition as the answer to every problem regardless of damage to schools and pupils Teachers Schooling Making a Difference shows that we can think about education in a far more productive way Professor R W Connell University of Sydney This book is a lesson in making hope practical It makes a compelling argument for recognising supporting and enabling teachers as central to progressive school reform Professor Jenny Ozga University of Edinburgh What teachers do in the classroom really matters even though schools cannot compensate fully for difficulties children may face at home and in society Good teachers and good schools have been making a difference in children s lives for generations but what exactly is it that works Based on extensive research in 1000 primary and secondary classrooms this book examines the tough questions about teaching methods curriculum assessment and teachers professionalism The authors isolate the key elements that make the difference in the classroom and offer teachers practical approaches to working with all their students Teachers and Schools Making a Difference is essential reading for teachers and school administrators who want to improve their professional skills and offer a genuinely democratic education *Multistrand Senior Science for High School Students* University of Sydney.
