

Redefining Politics: People, Resources and Power

COVER COMING SOON

Redefining Politics People Resources And Power

Paul Nesbitt-Larking

Redefining Politics People Resources And Power:

Redefining Politics Adrian Leftwich, 2009-10 The book provides a clear framework for analyzing politics in all human groups from families to multinational companies and from villages to modern nation states Throughout it is concerned to extend the range of politics beyond its usual institutional focus to stress its interdisciplinary requirements and to expand the conception of politics in societies

Redefining Politics Adrian Leftwich, 2013-04-15 This book challenges conventional conceptions of politics which focus largely on the institutions of government and the associated struggles for power around them It argues that politics is involved in all the activities of cooperation and conflict whereby people organize the use production and distribution of human natural and material resources Found in all human groups institutions and societies politics everywhere influences and reflects the structures of power social organization culture and ideology These central themes are illustrated by drawing on a wide range of societies including the Kung hunter gatherers the pre Columbian Aztecs and the Pastoral Maasai as well as modern Britain and Third World societies from Chile to China Other examples of village communities a typical university department and the World Bank show how institutions may also be analyzed in terms of the definition of politics used here It is equally central to the argument that many of the most critical problems occurring in societies can be attributed to their politics and this theme is explored looking at such problems as poverty famines epidemics violence and unemployment in Britain and throughout the world

Rethinking Resource Management Richard Howitt, 2002-01-31 Rethinking Resource Management offers students and practitioners in resource management a sophisticated and convincing framework for rethinking the dominant approaches to resource management in a complex world

The Politics of Social Conflict Andy Wood, 1999-09-16 This book provides an alternative approach to the history of social conflict popular politics and plebeian culture in the early modern period Based on a close study of the Peak Country of Derbyshire c 1520 1770 it has implications for understandings of class identity popular culture riot custom and social relations A detailed reconstruction of economic and social change within the region is followed by an in depth examination of the changing cultural meanings of custom gender locality skill literacy orality and magic The local history of social conflict sheds light upon the nature of political engagement and the origins of early capitalism Important insights are offered into early modern social and gender identities civil war allegiances the appeal of radical ideas and the making of the English working class Above all the book challenges the claim that early modern England was a hierarchical pre class society

Encyclopedia of Geography Barney Warf, 2010-09-21 Simply stated geography studies the locations of things and the explanations that underlie spatial distributions Profound forces at work throughout the world have made geographical knowledge increasingly important for understanding numerous human dilemmas and our capacities to address them With more than 1 200 entries the Encyclopedia of Geography reflects how the growth of geography has propelled a demand for intermediaries between the abstract language of academia and the ordinary language of everyday life The six volumes of this

encyclopedia encapsulate a diverse array of topics to offer a comprehensive and useful summary of the state of the discipline in the early 21st century Key Features Gives a concise historical sketch of geography s long rich and fascinating history including human geography physical geography and GIS Provides succinct summaries of trends such as globalization environmental destruction new geospatial technologies and cyberspace Decomposes geography into the six broad subject areas physical geography human geography nature and society methods models and GIS history of geography and geographer biographies geographic organizations and important social movements Provides hundreds of color illustrations and images that lend depth and realism to the text Includes a special map section Key Themes Physical Geography Human Geography Nature and Society Methods Models and GIS People Organizations and Movements History of Geography This encyclopedia strategically reflects the enormous diversity of the discipline the multiple meanings of space itself and the diverse views of geographers It brings together the diversity of geographical knowledge making it an invaluable resource for any academic library

Innovations for Land Management, Governance, and Land Rights for Sustainable Urban Transitions Ahmed M. Soliman,Ramin Keivani,2024-07-27 The transformation of the built environment during the last few decades has placed enormous demands for land About 7 7 billion people live on the planet which is expected to increase by 2 5 3 0 billion in just 30 years with the highest growth projected to be in less developed regions The spreading of urban informality in cities of the Global South leads to chaotic informal economies and an inability to capitalize on urban rural economies of scale and exchange The combination of socioeconomic and climate change vulnerability in urban centres is having a double impact on already poverty stricken and marginalized groups especially women racialized and ethnic minority groups leading to what has come to be known as climate injustice Land constitutes a main component of urban development and is the main asset for informal urban communities in the Middle East region The State and urban planners can aim to regulate the growth of informal land markets or represent the interests of the citizens However in reality the increasing retreat or absence of the public authorities the crisis of confidence between the governed and governing and the deficit of urban policies to address the multitude of generated challenges cannot be concealed This volume examines three main themes land management and governance in the era of sustainability Legal informal and illegal land tenures and the broader socioeconomic changes impacting land and housing delivery It investigates the correlations transitions and interactions between the various forces and multi stakeholders that control and adjust the land delivery system for low income groups and the urban poor This includes exploring mechanisms for correcting urban inequalities between central and peripheral quarters and the modes of shared governance Finally the volume also discusses developing national land policies based on legal instruments that connect the implementation of the SDGs land and tenure security as critical drivers for more sustainable land delivery realization

The Politics of the Excluded, c. 1500-1850 Tim Harris,2017-03-14 This collection of essays seeks to shed light on the politics of those people who are normally thought of as being excluded from the political

nation in early modern England If by political nation we mean those who sat in parliament the governors of counties and towns and the enfranchised classes in the constituencies then the excluded would be those who were neither actively involved in the process of governing nor had any say in choosing those who would rule over them the bulk of the population at this time Yet this volume shows that these people were not in fact excluded from politics Not only did the masses possess political opinions which they were capable of articulating in a public forum but they were also often active participants in the political process themselves and taken seriously in that capacity by the governmental elite The various essays deal with topics as wide ranging as riots rumours libels seditious words public opinion the structures of local government and the gendered dimensions of popular political participation and cover the period from the eve of the Reformation to the Industrial Revolution They challenge many existing assumptions concerning the nature and significance of public opinion and politics out of doors in the early modern period and show us that the people mattered in politics and thus why we as historians cannot afford to ignore them Politics was more participatory in this undemocratic age than one might have thought The contributors to this volume show that there was a lively and engaged public sphere throughout this period from Tudor times to the Georgian era

Riot, Rebellion and Popular Politics in Early Modern England Andy Wood, 2017-04-20 Riot Rebellion and Popular Politics in Early Modern England reassesses the relationship between politics social change and popular culture in the period c 1520 1730 It argues that early modern politics needs to be understood in broad terms to include not only states and elites but also disputes over the control of resources and the distribution of power Andy Wood assesses the history of riot and rebellion in the early modern period concentrating upon popular involvement in religious change and political conflict especially the Reformation and the English Revolution relations between ruler and ruled seditious speech popular politics and the early modern state custom the law and popular politics the impact of literacy and print and the role of ritual gender and local identity in popular politics

The Permanence of the Political Joseph M. Schwartz, 1995-11-13 Why have radical political theorists whose thinking inspired mass movements for democracy been so suspicious of political plurality According to Joseph Schwartz their doubts were involved with an effort to transcend politics Mistakenly equating all social difference with the harmful way in which particular interests dominated marketplace societies radical thinkers sought a comprehensive set of true human interests that would completely abolish political strife In extensive analyses of Rousseau Hegel Marx Lenin and Arendt Schwartz seeks to mediate the radical critique of democratic capitalist societies with the concern for pluralism evidenced in both liberal and postmodern thought He thus escapes the authoritarian potential of the radical position while appropriating its more democratic implications In Schwartz's view a reconstructed radical democratic theory of politics must sustain liberalism's defense of individual rights and social pluralism while redressing the liberal failure to question structural inequalities In proposing such a theory he criticizes communitarianism for its premodern longing for a monolithic virtuous society and challenges the politics of difference for its failure to question the undemocratic

terrain of power on which difference is constructed In conclusion he maintains that an equitable distribution of power and resources among social groups necessitates not the transcendence of politics but its democratic expansion

Environment and Politics Timothy Doyle, Doug McEachern, 2007-08-31 Environment and Politics is a concise introduction to the study of environmental politics explaining the key concepts conflicts political systems and the practices of policy making The authors examine a diverse range of environmental problems and policy solutions within different nations and cultures This third edition expands the discussion of the differences in environmental politics between liberal democracies military dictatorships and one party states drawing on research conducted in Burma Thailand China and Iran Topics covered include the connections between green social movements and anti globalization movements the impact of globalization on NGOs the rise in local environmental governance and international bureaucratic regimes the global role of the World Bank and WTO the case of Kyoto the current phase of US unilateralism and its impact upon the global environment This text offers readers a greater understanding of international national and local environmental politics and looks at future developments for effective local and international environmental diplomacy and both global and region specific problem solving

Key Ideas in Politics Moyra Grant, 2003 Designed for AS and A2 students Key Ideas in Politics focuses on both historical and contemporary political themes and ideas providing the reader with the background to analyse important political questions It provides quick and easy to read summaries of key ideas and key thinkers enabling students to attain and assimilate knowledge quickly Features track the history of each idea the idea in action today the debate that that surrounds it and its practical application

Language and the Complex of Ideology Mohamed Douifi, 2018-06-26 This book undertakes a systematic analysis of the workings of ideology in discourse using an interdisciplinary approach that links language cognition and society Through examination of two corpora a collection of British newspaper articles and a set of political speeches the author examines Britain s involvement in the Iraq War 2003 and critically assesses the language practices which constructed a pro war ideology under Tony Blair s premiership Drawing on a constellation of concepts from van Dijk s socio cognitive model this book carries out both qualitative and quantitative analyses and conceptualises discourse as a nonlinear highly discursive and socio cognitive phenomenon This innovative work will appeal to students and scholars of Cognitive Linguistics Quantitative Linguistics Social Constructivism Critical Discourse Analysis Political Sciences and Communication Studies

After Politics Glen Newey, 2000-12-18 Why do political philosophers why away from politics After Politics The Rejection of Politics in Contemporary Liberal Philosophy offers a challenging and original critique of liberalism the dominant political philosophy of our time tackling key issues like state legitimacy value pluralism neutrality the nature of politics public reasons and morality in politics Analyzing major liberal theorists like Rawls Habermas Rorty Barry Gray Raz Larmore Ackerman and others Glen Newey argues that liberalism by passes politics because it ignores or misunderstands human motivation and elevates academic system building over political realities of conflict and power

The Precarious Balance Donald

Rothchild, Naomi Chazan, 2019-06-26 Since independence the political institutions of many African states have undergone a process of consolidation and subsequent deterioration. Constrained by external economic dependency and an acute scarcity of economic and technical resources, state officials have demonstrated a diminished capacity to regulate their societies. Public policies are agreed upon but ineffectively implemented by the weak institutions of the state. Although scholars have analyzed the various facets of state building in detail, little systematic attention has been given to the issue of the decline of the state and mechanisms to cope with state ineffectiveness in Africa. This book focuses especially on the character of the postcolonial state in Africa, the nature of and reasons for state deterioration, and the mechanisms and policies for coping with state malfunction. Scholars from Africa, the United States, Europe, and the Middle East combine a broad understanding of African political processes with expertise on specific regions. Their analytic and comparative perspective provides a comprehensive and timely treatment of this vital and heretofore neglected theme in African politics. *The Politics of Migration in Indonesia and Beyond* Riwanto Tirtosudarmo, 2019-01-22 This book examines the social and political dimensions of migration from a perspective between the realms of demography and politics. It approaches the issue of migration by highlighting the important power relations that have previously been neglected in studies in the area. The book starts by investigating Indonesian migration to provide an understanding of internal migration. It then looks beyond its national borders for a wider understanding of Asia and showcases several case studies both in Indonesia and beyond to illustrate the intricate politics of migration. Further, it considers the politics of migration from the sending country perspective and unravels the link between migration and security. The book provides reviews of the wider literature relating to population mobility and distribution and shows readers how to adopt a new perspective in the study of movement of people, an issue that is becoming increasingly important as movement of people unfolds globally in terms of both volume and direction. This book is a valuable resource for students, academics, and researchers in the area of demography and social politics, especially those interested in migration and refugees. It also offers insights for those interested in understanding decentralization in greater depth. *Political Analysis* Colin Hay, 2017-03-14 Political Analysis provides an accessible and engaging yet original introduction and distinctive contribution to the analysis of political structures, institutions, ideas, and behaviours, and above all to the political processes through which they are constantly made and remade. Following an innovative introduction to the main approaches and concepts in political analysis, the text focuses thematically on the key issues which currently concern and divide political analysts, including the boundaries of the political, the question of structure, agency, and power, the dynamics of political change, the relative significance of ideas and material factors, and the challenge posed by postmodernism, which the author argues the discipline can strengthen itself by addressing without allowing it to become a recipe for paralysis. Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 1 Ganesh Shivakoti, Ujjwal Pradhan, Helmi Helmi, 2016-09-01 Redefining Diversity and Dynamics of Natural Resources Management in Asia Volumes 1-4 brings together

scientific research and policy issues across various topographical area in Asia to provide a comprehensive overview of the issues facing the region Sustainable Natural Resources Management in Dynamic Southeast Asia Volume 1 pulls together regional experts in the field to look specifically at sustainability issues across the region to see what has been implemented what the impacts have been and what other options are available In the race to be a developed region many Southeast Asian countries have foregone natural resources through haphazard use As a result the people are faced with numerous environmental challenges particularly deforestation and forest degradation biodiversity loss and ecosystem degradation reduction in soil quality and decreases in the quantity of available water Community based forest management is the involvement of local communities in the protection conservation and management of public forests to prevent degradation through sustainable practices while still responding to the basic social and economic needs of local populations When the people who depend on forest resources for their livelihoods are jointly responsible for managing and protecting them they tend to do so in a more sustainable manner by focusing on the long term benefits rather than the immediate short term gains However when tenure rights are weak unclear or insecure or offer limited benefits people are incited in extracting more immediate benefits resulting in suboptimal forest management and the reduction of carbon stocks Features case studies that cover issues such as rising levels of deforestation forest degradation regional food security ecosystem degradation biodiversity loss conflicts over natural resource use water management issues and impacts on local communities Includes contributions from local researchers who are dealing with these issues first hand and on a daily basis Includes a comparative review on REDD implementation in different communities Focuses on sustainability issues across the region

Politics, Society, and the Media, Second Edition Paul Nesbitt-Larking, 2007-01-01 Politics Society and the Media is the first comprehensive political sociology of the media to be published in Canada Paul Nesbitt Larking draws upon a range of disciplines including cultural and media studies political economy social theory and political science to provide an analysis of the relationship between power and representation in Canada The framework for the book presents a model of the mutual interaction between politics and the media Attention is focused in the early chapters on how cultural ideological economic and governmental forces shape and condition the production of media in Canada Chapters on the work of Innis Grant McLuhan and their postmodern successors place the evolution of McLuhan s theoretical argument that the medium is the message at the heart of the book Canadian identity and how to understand Canadian media politically is the subject of a chapter on textual analysis Two extensive chapters follow on the media s influence and effects on politics In addition to standard topics on politics and the media this new edition offers much more an examination of the media on the politics of gender and aboriginal peoples the micro politics of the media workplace and an exploration of important media related considerations Throughout reference is made to relevant and compelling issues placed within the context of media theory

Social Relations and Urban Space Fiona Williamson, 2014 This book offers an insight into the social relationships and

topographies that fashioned both city life and landscape and serves as a useful counterpoise in a field that has largely focused on London This is a book about seventeenth century Norwich and its inhabitants At its core are the interconnected themes of social topographies and the relationships between urban inhabitants and their environment Cityscapes were and are shaped and given meaning during the practice of people s lived experiences In return those same urban places lend human interactions depth and quality Social Relations and Urban Space uncovers manifold possible landscapes including those belonging to the rich and to the poor to men to women to strangers and foreigners to political actors of both formal and informal means Norwich s inhabitants witnessed the tumultuous seventeenth century at first hand and their experiences were written into the landscape and immortalised in its exemplary surviving records This book offers an insight into the social relationships and topographies that fashioned both city life and landscape and serves as a useful counterpoise in a field that has largely focused on London FIONA WILLIAMSON is currently Senior Lecturer in History at the National University of Malaysia

Development as Theory and Practice David Simon, Anders Narman, 2014-09-25 The first book in the DARG series Development as Theory and Practice provides the only student textbook which addresses broad contemporary perspectives and debates on development and development cooperation It introduces the notions of development and what it means from different perspectives i e from the point of view of academics in the wake of the New World Order regional specialists detached from the field Third World students of development and development practitioners The second part of the book focuses on development aid and examines the changing relationship between donors and recipients and the effects of these relationships on the wider communities in these countries and current re evaluations of aid in principle and practice Development as Theory and Practice is an ideal course text for advanced undergraduate and postgraduate courses in development aid as part of degree programmes in Development Studies Geography Politics Sociology and Anthropology It will also be of interest to researchers and development practitioners and professionals

Reviewing **Redefining Politics People Resources And Power**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
