The Redheaded Woman with the Black Black Heart Birk Sproxton, 1993 *Making it Home* Deborah Keahey, 1998-12-01 Traditional approaches to Prairie literature have focussed on the significance of the land in attempts to make a place into a home The emphasis on the importance of landscape as a defining feature ignores the important roles played by other influences brought to the land such as history culture gender ethnicity religion community family and occupation Deborah Keahey considers over 70 years of Canadian Prairie literature including poetry autobiography drama and fiction The 17 writers range from the well established like Martha Ostenso and Robert Kroetsch to newer writers like Ian Ross and Kelly Rebar Through their works she asks whether the Prairies are a physical or a political creation whether home is made by what you bring with you or what you find when you arrive and she incorporates the influences and effects far beyond landscape to understand what guides the home making process of both the writers and their creations Her study acknowledges that home is a complicated concept and making a place into a home place is a complicated process Informed by current linguistic feminist postcolonial and cultural theory Keahey explores these concepts in depth and redefines our understanding of place home and the relationship between them

Fresh Tracks Pamela Banting, 1998 This is an exceptionally forceful collection substantial evocative and enduring much like the region of Canada the writers are addressing Saskatoon Star Phoenix Contributors include Rudy Wiebe Guy Vanderhaeghe Karen Connelly Sharon Butala and others *Toward Defining the Prairies* Robert Wardhaugh, 2001-04-30 New ways of thinking about literature and history have radically changed how we think about or even define a region like the Prairie West In fact the very concept of defining has come into question by new theoretical approaches and it may now seem a hopeless endeavour But the process of defining can be just as important as the actual production of a definition *Toward Defining the Prairies* highlights recent approaches to thinking about the Prairie West Bounded by pieces from well known historian Gerald Friesen and Governor General's Award winning writer Robert Kroetsch these 13 essays are as diverse as the region itself In their examination of different aspects of Prairie history literature climate society culture and identity they help to provide a new understanding of this place and of the complexities of its definition
