## Reflections On Revolutions:

Reflections on the Revolution in France Edmund Burke, 1821      *Reflections on the Revolution in France* Edmund Burke, 2016-08-31

Reflections on the Revolution in France An Intellectual Attacks against the French Revolution The proceedings in certain societies in London relative to that event in a letter intended to have been sent to a Gentleman in Paris by Edmund Burke Reflections on the Revolution in France is a political pamphlet written by the Irish statesman Edmund Burke and published in November 1790 One of the best known intellectual attacks against the French Revolution Reflections is a defining tract of modern conservatism as well as an important contribution to international theory Above all else it has been one of the defining efforts of Edmund Burke s transformation of traditionalism into a self conscious and fully conceived political philosophy of conservatism It may not be unnecessary to inform the reader that the following Reflections had their origin in a correspondence between the author and a very young gentleman at Paris who did him the honor of desiring his opinion upon the important transactions which then and ever since have so much occupied the attention of all men An answer was written some time in the month of October 1789 but it was kept back upon prudential considerations That letter is alluded to in the beginning of the following sheets It has been since forwarded to the person to whom it was addressed The reasons for the delay in sending it were assigned in a short letter to the same gentleman This produced on his part a new and pressing application for the author s sentiments The author began a second and more full discussion on the subject This he had some thoughts of publishing early in the last spring but the matter gaining upon him he found that what he had undertaken not only far exceeded the measure of a letter but that its importance required rather a more detailed consideration than at that time he had any leisure to bestow upon it However having thrown down his first thoughts in the form of a letter and indeed when he sat down to write having intended it for a private letter he found it difficult to change the form of address when his sentiments had grown into a greater extent and had received another direction A different plan he is sensible might be more favorable to a commodious division and distribution of his matter

**Reflections on the Revolution in France** Edmund Burke, 2018-10-14 Edmund Burke s Reflections on the Revolution in France is considered by many to be a masterpiece of political analysis and a compelling rationale against the French Revolution Originally written as a letter in response to a young Parisian and later expanded upon and published in book format in January 1790 the work has greatly influenced conservative and classic liberal intellectuals and stands as a powerful argument against violent revolutions lawlessness and unrest Prior to 1790 Burke was a well known member of the British House of Commons and a vocal supporter of the American Revolution His condemnation of the French Revolution shocked many of his peers and supporters Burke viewed the French Revolution as a violent and chaotic war without any guiding ideology or respect for the rule of law and feared it would lead to a situation that was both dangerous and corrupt Many of Burke s predictions came true as the Revolution devolved into bloodshed and anarchy with the Reign of Terror beginning in 1793 and then leading to the eventual

military dictatorship of Napoleon Bonaparte Burke's work stands as an enduring statement in support of tradition hereditary power property rights duty and the monarchy      Reflections on the French Revolution (selected) Edmund Burke, 1899

this knowledge alive and relevant      An Analysis of Edmund Burke's Reflections on the Revolution in France Riley Quinn, 2017-07-05 Edmund Burke's 1791 *Reflections on the Revolution in France* is a strong example of how the thinking skills of analysis and reasoning can support even the most rhetorical of arguments. Often cited as the foundational work of modern conservative political thought, Burke's *Reflections* is a sustained argument against the French Revolution. Though Burke is in many ways not interested in rational close analysis of the arguments in favour of the revolution, he points out a crucial flaw in revolutionary thought upon which he builds his argument. For Burke, that flaw was the sheer threat that revolution poses to life, property, and society. Sceptical about the utopian urge to utterly reconstruct society in line with rational principles, Burke argued strongly for conservative progress: a continual slow refinement of government and political theory which could move forward without completely overturning the old structures of state and society. Old state institutions, he reasoned, might not be perfect but they work well enough to keep things ticking along. Any change made to improve them therefore should be slow, not revolutionary. While Burke's arguments are deliberately not reasoned in the rational style of those who supported the revolution, they show persuasive reasoning at its very best.

**Reflections on the Revolution in France** Edmund Burke, Alan Wolfe, Darrin M. McMahon, Conor Cruise O'Brien, Jack N. Rakove, 2003. Presenting a scathing attack on the French revolution's attitudes to existing institutions, property, and religion, this work makes a cogent case for upholding inherited rights and established customs. It argues for piecemeal reform rather than revolutionary change and deplores the influence the revolution might have in Britain.
