**Reflective Practice in Education and Social Work** Robyn Ewing, Fran Waugh, David L. Smith, 2021-12-14 This book offers unique interdisciplinary insights into developing connections between reflective practice and employability particularly through the lenses of the education and social work professions It recognises the various meanings that can be applied to the notion of reflection and examines the challenges of using reflective practice in the workplace The chapters explore the tensions that arise from preparing professionals to be agents of change and concerned with social justice and equity Further the book provides much needed perspective on how diverse positions can be identified and leveraged and shared meanings negotiated in the creation of meaningful professional learning resources for early career teachers and social workers and across the career continuum Bringing together contributions from internationally renowned scholars *Reflective Practice in Education and Social Work* is essential reading for early career and experienced professionals in education and social work academics and practitioners seeking further professional development in reflective practice

*Faculty Development in the Health Professions* Yvonne Steinert, 2014-01-31 This volume addresses all facets of faculty development including academic and career development teaching improvement research capacity building and leadership development In addition it describes a multitude of ways ranging from workshops to the workplace in which health professionals can develop their knowledge and skills By providing an informed and scholarly overview of faculty development and by describing original content that has not been previously published this book helps to ensure that research and evidence inform practice moves the scholarly agenda forward and promotes dialogue and debate in this evolving field It will prove an invaluable resource for faculty development program planning implementation and evaluation and will help to sustain faculty members vitality and commitment to excellence Kelley M Skeff M D Ph D May 2013 In this text Steinert and her colleagues have provided a significant contribution to the future of faculty development In an academic and comprehensive way the authors have both documented past efforts in faculty development as well as provided guidance and stimuli for the future The scholarly and well referenced chapters provide a compendium of methods previously used while emphasizing the expanding areas deserving work Moreover the

writers consistently elucidate the faculty development process by highlighting the theoretical underpinnings of faculty development and the research conducted. Thus the book provides an important resource for two major groups: current providers and researchers in faculty development as well as those desiring to enter the field. Both groups of readers can benefit from a reading of the entire book or by delving into their major area of interest and passion. In so doing they will better understand our successes and our limitations in this emerging field. Faculty development in the health professions has now received attention for 6 decades. Yet dedicated faculty members trying to address the challenges in medical education and the health care delivery system do not have all the assistance they need to achieve their goals. This book provides a valuable resource towards that end.

[Clinical Education for the Health Professions](#) Debra Nestel, Gabriel Reedy, Lisa McKenna, Suzanne Gough, 2023-07-19. **The Lifelong Learning Journey of Health Professionals: Continuing Education and Professional Development** Filipe, Helena Prior, Lopez, Mildred Vanessa, 2024-03-06. Health professionals grapple with a critical challenge: the traditional Continuous Medical Education (CME) model falls short of fostering the unique skills and self directed learning required for a dynamic career. As medical practitioners navigate a world of new epidemiological models, technologies and strategies, the need for a transformative solution becomes evident. *The Lifelong Learning Journey of Health Professionals: Continuing Education and Professional Development* is a book that not only identifies the limitations of existing education models but also provides a comprehensive solution for ushering in a new era of lifelong learning. This compelling book advocates for a paradigm shift towards Continuous Professional Development (CPD), a contemporary concept that embraces non traditional learning formats. It dismantles the inadequacies of credit based training by emphasizing the importance of self direction and self assessment for adult learners. From core principles for designing a robust CPD system to exploring successful models, alternative credentials and the role of learning communities, the book offers a holistic approach to reshaping medical education.
