Reflexions En Pointes Folles:

Réflexions en pointes folles Robert Lebel, 2001 *Guy Paiement, prophète du pays réel*, 2015-04-16T00:00:00-04:00 Le pape François encourage les chrétiens se risquer jusqu'aux périphéries sociales où vivent les gens ayant le plus soif de l'évangile. Toute la vie du jésuite Guy Paiement fut une réponse à cet appel en faveur de ceux et celles qui subissent l'injustice au quotidien. Pour souligner le cinquantième anniversaire de la disparition du grand intellectuel que fut Guy Paiement, le Centre Justice et Foi sous la direction de Lisabeth Garant rassemble en ce livre ses articles les plus mémorables. Dans un langage direct et saisissant, l'auteur livre des combats religieux, sociaux, politiques que n'auraient pas reniés les meilleurs moments des mouvements de contestation ayant secoué le Québec lors des dernières années.

Lakota America Pekka Hämäläinen, 2019-10-22. The first comprehensive history of the Lakota Indians and their profound role in shaping America's history. This first complete account of the Lakota Indians traces their rich and often surprising history from the early sixteenth to the early twenty-first century. Pekka Hämäläinen explores the Lakotas' roots as marginal hunter-gatherers and reveals how they reinvented themselves twice: first as a river people who dominated the Missouri Valley, America's great commercial artery, and then in what was America's first sweeping westward expansion as a horse people who ruled supreme on the vast high plains. The Lakotas are imprinted in American historical memory: Red Cloud, Crazy Horse, and Sitting Bull are iconic figures in the American imagination, but in this groundbreaking book they emerge as something different: the architects of Lakota America, an expansive and enduring Indigenous regime that commanded human fates in the North American interior for generations. Hämäläinen's deeply researched and engagingly written history places the Lakotas at the center of American history, and the results are revelatory.

Indigenous Continent: The Epic Contest for North America Pekka Hämäläinen, 2022-09-20. NATIONAL BESTSELLER. New York Times Book Review 100 Notable Books of 2022. Best Books of 2022. New Yorker. Kirkus Reviews Longlisted for the Andrew Carnegie Medal for Excellence. I can only wish that when I was that lonely college junior and was finishing *Bury My Heart at Wounded Knee* I'd had Hämäläinen's book at hand. David Treuer, *The New Yorker*. The single best book I have ever read on Native American history. Thomas E. Ricks, *New York Times Book Review*. A prize-winning scholar rewrites 400 years of American history from Indigenous perspectives, overturning the dominant origin story of the United States. There is an old, deeply rooted story about America that goes like this: Columbus discovers a strange continent and brings back tales of untold riches. The European empires rush over eager to stake out as much of this astonishing New World as possible. Though Indigenous peoples fight back, they cannot stop the onslaught. White imperialists are destined to rule the continent, and history is an irreversible march toward Indigenous destruction. Yet as with other long-accepted origin stories, this one too turns out to be based in myth and distortion. In *Indigenous Continent*, acclaimed historian Pekka Hämäläinen presents a sweeping counternarrative that shatters the most basic assumptions about

American history Shifting our perspective away from Jamestown Plymouth Rock the Revolution and other well trodden episodes on the conventional timeline he depicts a sovereign world of Native nations whose members far from helpless victims of colonial violence dominated the continent for centuries after the first European arrivals From the Iroquois in the Northeast to the Comanches on the Plains and from the Pueblos in the Southwest to the Cherokees in the Southeast Native nations frequently decimated white newcomers in battle Even as the white population exploded and colonists land greed grew more extravagant Indigenous peoples flourished due to sophisticated diplomacy and leadership structures By 1776 various colonial powers claimed nearly all of the continent but Indigenous peoples still controlled it as H m l inen points out the maps in modern textbooks that paint much of North America in neat color coded blocks confuse outlandish imperial boasts for actual holdings In fact Native power peaked in the late nineteenth century with the Lakota victory in 1876 at Little Big Horn which was not an American blunder but an all too expected outcome H m l inen ultimately contends that the very notion of colonial America is misleading and that we should speak instead of an Indigenous America that was only slowly and unevenly becoming colonial The evidence of Indigenous defiance is apparent today in the hundreds of Native nations that still dot the United States and Canada Necessary reading for anyone who cares about America s past present and future
