Reform and Rebellion in Afghanistan, 1919-1929 Leon B. Poullada, 1970 *Afghanistan's Political Stability* Ahmad Shaye Qassem, 2016-03-16 Political stability has been a central theme of policy for all governments and political systems in the history of modern Afghanistan Since its inception in the mid nineteenth century the country experimented with a diverse succession of political systems and state ideologies matched by few other countries political histories In the span of less than nine decades since independence in 1919 the Afghan state was substantially restructured at least a dozen times This volume looks at Afghanistan s historic relations with Central and South Asia ethno nationalism and development Soviet occupation and transformation of relations with Pakistan stability of the Islamic State and regional cooperation It examines how Afghanistan s different political systems reformed and readjusted policies to make them more conducive to political stability Yet political stability at best has remained a dream unrealized in Afghanistan The Soviet Withdrawal from Afghanistan Amin Saikal, William Maley, 1989-04-06 Nearly ten years of bloodshed and political turmoil have followed the Soviet invasion of Afghanistan in 1979 Soviet occupation not only proved a major trauma for the people of Afghanistan invasion ended the growth in superpower dentents that had characterised the late 1970s and in the Soviet Union the effects of escalating military costs and over 13 000 young military casualties have been felt at every level of society The decision to withdraw combat forces under the provisions of the Geneva Accords of April 1988 is one of the most dramatic developments in the international system since the end of the Second World War The effects of this decision will be felt not only in Afghanistan but in the Soviet Union in Southwest Asia and in the wider world The Soviet Withdrawal from Afghanistan has been designed to explore the background to the decision to withdraw and its broader implications The authors all established specialists examine the Geneva Accords the future for post withdrawal Afghanistan and the impact of withdrawal on regional states Soviet foreign and domestic policies the Soviet armed forces Sino Soviet relations and world politics They write from diverse disciplinary traditions while bringing together a shared sensitivity to the issues which complicate the Afghan question

Repression, Resistance, and Women in Afghanistan Hafizullah Emadi, 2002-08-30 Afghan women have faced an exhaustive struggle in the battle to change their status and improve their situation. Emadi takes a long look at the role of development and modernization policies implemented by the state in the pre and post Soviet eras under the Taliban and beyond. He finds that such policies have failed to bring about much needed change and improvement for women. Modernization strategies benefited only a small segment of urban women and left the plight of rural women unchanged. Although a small segment of middle and upper class women organized themselves and fought to bring about changes in their status and to end gender inequality, their efforts alone did not meet with much success. Islamic orthodoxy and orthopraxy in the Taliban era restricted women's freedom of movement access to education and medical care. Using personal accounts not readily available to researchers or scholars, Emadi explores the diverse factors that contributed to women's oppression both at home and in society. This study provides a detailed analysis of state policies toward women's emancipation within the context of a traditional Islamic society. It chronicles the course of the women's movement and women's organizations still active in the political arena and puts forth an alternative plan to involve women in the reconstruction process in both urban and rural areas.

An Intimate War Mike Martin, 2014-07-01 *An Intimate War* tells the story of the last thirty four years of conflict in Helmand Province Afghanistan as seen through the eyes of the Helmandis. In the West this period is often defined through different lenses: the Soviet intervention, the civil war, the Taliban, and the post 2001 nation building era. Yet as experienced by local inhabitants, the Helmand conflict is a perennial one involving the same individuals families and groups and driven by the same arguments over land water and power. This book based on both military and research experience in Helmand and 150 interviews in Pashto offers a very different view of Helmand from those in the media. It demonstrates how outsiders have most often misunderstood the ongoing struggle in Helmand and how in doing so they have exacerbated the conflict, perpetuated it and made it more violent, precisely the opposite of what was intended when their interventions were launched. Mike Martin's oral history of Helmand underscores the absolute imperative of understanding the highly local personal and non ideological nature of internal conflict in much of the third world.

Modern Afghanistan Amin Saikal, 2004-08-27 Afghanistan's recent history is a sad one: Soviet invasion in 1979, Pakistan backed internal conflict in the 1980s, the Taliban regime, and then the US invasion and the multi national occupation after the events of 11 September 2001. Why does

Afghanistan remain so vulnerable to domestic instability foreign intervention and ideological extremism In reconstructing the tempestuous narrative of modern Afghanistan Amin Saikal provides a sweeping new understanding of its troubled past and present He identifies the country s inability to develop stable political structures as stemming from the inter dynastic rivalry complicated by polygamy that scarred successive royal families from the end of the eighteenth century until the pro Soviet Communist coup of April 1978 all exacerbated by foreign interventions feeding on fragile domestic structures and the rise and fall of different ideological streams Here for the first time is an up to date analysis of the era of the Taliban s rule the effects of US domination in the country and attempts to negotiate a US withdrawal including talks about talks with the Taliban themselves This book which sets the crisis of Afghanistan in the context of the country s modern history and social structures makes a major and highly original contribution towards a better and more nuanced understanding of this ill fated land It is the definitive study of Afghanistan and its troubles in national regional and international contexts from 1747 to the present day

Aid Paradoxes in Afghanistan Nematullah Bizhan,2017-08-14 The relationship between aid and state building is highly complex and the effects of aid on weak states depend on donors interests aid modalities and the recipient s pre existing institutional and socio political conditions This book argues that in the case of Afghanistan the country inherited conditions that were not favourable for effective state building Although some of the problems that emerged in the post 2001 state building process were predictable the types of interventions that occurred including an aid architecture which largely bypassed the state the subordination of state building to the war on terror and the short horizon policy choices of donors and the Afghan government reduced the effectiveness of the aid and undermined effective state building By examining how foreign aid affected state building in Afghanistan since the US militarily intervened in Afghanistan in late 2001 until the end of President Hamid Karzai s first term in 2009 this book reveals the dynamic and complex relations between the Afghan government and foreign donors in their efforts to rebuild state institutions The work explores three key areas how donors supported government reforms to improve the taxation system how government reorganized the state s fiscal management system and how aid dependency and aid distribution outside the government budget affected interactions between state and society Given that external revenue in the form of tribute subsidies and aid has shaped the characteristics of the state in Afghanistan since the mid eighteenth century this book situates state building in a historical context This book will be invaluable for practitioners and anyone studying political economy state building international development and the politics of foreign aid

Flight Risk Forrest L. Marion, 2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the

Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value The State, Religion, and Ethnic Politics Ali Banuazizi, Myron Weiner, 1988-08-01 Contributors to the volume are established scholars in their fields and successfully focus on the pertinent issues with a good mix of facts analysis and theoretical orientation The contributions are pertinent and valuable to students of comparative politics generally as well as to specialists on the selected countries Choice
