**The Cambridge Anthology of British Medieval Latin: Volume 1, 450-1066** Carolinne White, 2024-02-01 This anthology presents in two volumes a series of Latin texts with English translation produced in Britain during the period AD 450 1500 Excerpts are taken from Bede and other historians from the letters of women written from their monasteries from famous documents such as Domesday Book and Magna Carta and from accounts and legal documents all revealing the lives of individuals at home and on their travels across Britain and beyond It offers an insight into Latin writings on many subjects

showing the important role of Latin in the multilingual society of medieval Britain in which Latin was the primary language of written communication and record and also developed particularly after the Norman Conquest through mutual influence with English and French The thorough introductions to each volume provide a broad overview of the linguistic and cultural background while the individual texts are placed in their social historical and linguistic context

*A Short History of the Renaissance in Northern Europe* Malcolm Vale, 2020-04-02 The concept of a Renaissance in the arts in thought and in more general culture North of the Alps often evokes the idea of a cultural transplant which was not indigenous to or rooted in the society from which it emerged Classic definitions of the European Renaissance during the 14th 15th and 16th centuries have seen it as what was in effect an Italian import into the Gothic North Yet there were certainly differences divergences and dichotomies between North and South which have to be addressed Here Malcolm Vale argues for a Northern Renaissance which while cognisant of Italian developments displayed strong continuities with the indigenous cultures of northern Europe But it also contributed novelties and innovations which often tended to stem from and build upon those continuities *A Short History of the Renaissance in Northern Europe* while in no way ignoring or diminishing the importance of the Hellenic and Roman legacy seeks other sources and different uses of classical antiquity for a rather different kind of Renaissance if such it was in the North
