Reforming The Treaty On European Union:

Reforming the Treaty on European Union Alfred E. Kellermann, Bruno de Witte, Deirdre M. Curtin, Jan A. Winter, 2023-07-10 The studies collected in this work are the updated and revised versions of the reports and commentaries presented at an international conference on European Law held in September 1995 The aim of the conference was to stimulate informed reflection and debate on a number of fundamental issues relating to the impending revision of the Treaty on European Union and to discuss the sort of sensible legal options and realistic avenues of thought that could assist those involved with the work of the actual Intergovernmental Council IGC The contributions are grouped around three major themes an exploration of the framework of the revision debate general institutional questions the general architecture of the Union and the scope of the powers of the Community and the Union Questions that are addressed in this work are among others Is it possible in the near future to simplify the procedure for amending the Treaty on European Union Is the objective of the European Union in the long term to become a European superstate a constitutional order of States or merely an advanced type of international organization What are the chances and pitfalls of allowing increased differentiated integration The book concludes with a comprehensive summing up and annexed are the Reflection Group's Report of 5 December 1995 as well as an extensive table of legal provisions and a table of cases Reforming the European Union G.Wyn Rees, N. (Department Of Law, University Of Leicester) Neuwahl, P. (Department Of Politics, University Of Leicester) Lynch, 2014-05-12 Analyses the likely future of the EU following next year's Intergovernmental Conference IGC which is likely to be even more significant for the future of Europe than the Maastricht Treaty Since Maastricht it has become clear that future developments are less certain with regard to the EU and integration The IGC will have to try and resolve tensions such as widening Europe to include former communist countries whilst also trying to deepen Europe with increased political and economic integration providing a framework which is acceptable to a core of countries Benelux Germany France who favour more integration and an early move to monetary union with countries such as the UK which does not **Reforming the European Union** Daniel Finke, 2012-07-29 For decades the European Union tried changing its institutions but achieved only unsatisfying political compromises and modest incremental treaty revisions In late 2009 however the EU was successfully reformed through the Treaty of Lisbon Reforming the European Union examines how political leaders ratified this treaty against all odds and shows how this victory involved all stages of treaty reform negotiations from the initial proposal to referendums in several European countries The authors emphasize the strategic role of political leadership and domestic politics and they use state of the art methodology applying a comprehensive data set for actors reform preferences They look at how political leaders reacted to apparent failures of the process by recreating or changing the rules of the game While domestic actors played a significant role in the process their influence over the outcome was limited as leaders ignored negative referendums and plowed ahead with intended reforms The book's empirical analyses shed light on critical episodes

strategic agenda setting during the European Convention the choice of ratification instrument intergovernmental bargaining dynamics and the reaction of the German Council presidency to the negative referendums in France the Netherlands and Ireland

Theory and Reform in the European Union Dimitris N. Chrysoschoou,1999-06-12 Completely updated and newly available in paperback this book examines the relationship between theory and reform in the European Union in the light of the Amsterdam Treaty

The European Union's Common Agricultural Policy Reforms Marko Lovec,2016-08-02 This book engages in the controversies of the European Union's Common Agricultural Policy CAP reforms demonstrating how these are reiterated by mainstream theoretical approaches in the field The reforms that the European Union's CAP underwent during the last three decades were intended to make it less trade distorting more taxpayer friendly and more able to meet the new challenges of environmental concerns and rural development territorial cohesion The outcome of the reforms has however contradicted these objectives with the controversies being reiterated by the mainstream theoretical approaches in the field European Union's Common Agricultural Policy Reforms argues that these controversies are due to reductionist rationalist and idealist assumptions with regard to the object of inquiry applied by mainstream approaches It proposes an alternative critical approach that takes into account the role of real material factors Critical realism is not just an alternative explanation of CAP reforms but an alternative theory of how explanations can be made which enables readers to reflect upon and endorse the results of existing lines of research in proceeding towards deeper level theory

Brexit and the Future of the European Union Federico Fabbrini,2020-12-17 Brexit represents a momentous event for the European Union with important implications on the future of Europe While most scholarly attention has focused on the Brexit process and its consequences for the United Kingdom and UK EU relations Brexit has had important consequences also for the EU This book examines how the EU has changed during Brexit and because of Brexit while also reflecting on the developments of the EU besides Brexit and beyond Brexit As the book argues the UK withdrawal from the EU the first ever case of disintegration since the start of the European integration process creates an urgent need to reform the EU In fact while the EU institutions and its member states have remained united in their negotiations vis vis the UK Brexit has created transitional problems for the EU and exposed other serious fissures in its system of governance which need to be addressed moving forward As the EU goes through another major crisis in the form of the response to the Covid 19 pandemic the case for increasing the effectiveness and the legitimacy of the EU grows stronger In this context the book analyses the plan to establish a Conference on the Future of Europe examines its precedents and discusses its prospects As the book suggests that after Brexit the initiative to launch a Conference on the Future of Europe is a necessary step to renew the EU and relaunch integration
