subway the sewage system tunnels crypts and the subsoil itself relate to the whole of the city in a body of works published after 1985 the year of the deadliest earthquake in the capital's history The texts belong to the most important genres in urban literature the novel the short story and the crónica and demonstrate the crucial role played by the underground in contemporary imaginings of the megalopolis as it condenses and confronts the tensions that run through them This central idea is developed through four analytical chapters focusing on the political ecological historical and aesthetic dimension of subterranean imaginaries Refranero legal mexicano Mauricio Atri, 2005 *Fraseología, Diatopía y Traducción / Phraseology, Diatopic Variation and Translation* Pedro Mogorrón Huerta, Antonio Albaladejo-Martínez, 2018-11-15 In all languages humans frequently use linguistic combinations called phraseological units PUs in communicative acts These PUs are characterized by their institutionalized fixation and in many cases by their opacity Traditionally the work on phraseology has placed the emphasis on the total fixing of components and structures of verbal expressions Variation in PUs is currently an uncontested fact and has been extensively studied and analyzed In addition in the case of languages like Spanish English French spoken in many countries new creations or diatopic variants arise While these diatopic expressions have been collected or analyzed in their territory of influence no comprehensive collection showing all the expressions and contrastive analysis to observe the similarities and differences between these diatopic creations with all their idiosyncratic and cultural references have been made so far The content of this volume deals with numerous linguistic lexicographic and translational problems in the context of language variation in general as well as specifically related to diatopic variation The aim is to make progress in these challenging and highly interesting areas which still pose many comprehension and translation problems I Speak of the City Mauricio Tenorio-Trillo, 2015-02-24 In this dazzling multidisciplinary tour of Mexico City Mauricio Tenorio Trillo focuses on the period 1880 to 1940 the decisive decades that shaped the city into what it is today Through a kaleidoscope of expository forms *I Speak of the City* connects the realms of literature architecture music popular language art and public health to investigate the city in a variety of contexts as a living history textbook as an expression of the state as a modernist capital as a laboratory and as language Tenorio's formal imagination allows the reader to revel in the free flowing richness of his narratives opening startling new vistas onto the urban experience From art to city planning from epidemiology to poetry this book challenges the conventional wisdom about both Mexico City and the turn of the century world to which it belonged And by engaging directly with the rise of modernism and the cultural experiences of such personalities as Hart Crane Mina Loy and Diego Rivera *I Speak of the City* will find an enthusiastic audience across the disciplines Como decía la abuela Margarita Jiménez Arreola, 2021 Estereotipos y roles de género en el refranero popular Anna M. Anzzolin,2024-05 Honorable Mention for the 2025 LASA Mexico Section for Best Book in the Humanities During Porfirio Díaz's thirty year rule Mexico dealt with the press in disparate ways in hopes of forging an informed and above all orderly citizenry Even as innumerable journalists were sent to prison on exaggerated and unfair charges of defamation or slander Díaz's government subsidized multiple newspapers to expand literacy and to aggrandize the image of the regime In Guardians of Discourse Kevin M Anzzolin analyzes the role and representation of journalism in literary texts from Porfirian Mexico to argue that these writings created a literate objective refined and informed public By exploring works by Porfirian writers such as Emilio Rabasa Angel del Campo Rafael Delgado Laura Méndez de Cuenca and Salvador Quevedo y Zubieta Anzzolin demonstrates that a primary goal of the lettered class was to define and shape the character of public life establish the social position of citizens and interrogate the character of civil institutions These elite letrados whom Anzzolin refers to as guardians of discourse aimed to define the type of discourses that would buttress the transformed Mexico of the Díaz regime to forge a truly national literature that could be discussed among an expanded coterie of lettered thinkers In addition these Porfirian guardians hoped to construct an extensive and active public able to debate political and social issues via a press befitting a modern nation state and create a press that would be independent illuminating and distinguished Through an innovative look at Mexico's public sphere via literary fiction in the Porfirian era Anzzolin contributes to our knowledge of Mexican and Latin American political cultural and literary history in the late nineteenth and early twentieth centuries **The Oxford Handbook of History and Material Culture** Ivan Gaskell,Sarah Anne Carter,2020-04-07 Most historians rely principally on written sources Yet there are other traces of the past available to historians the material things that people have chosen made and used This book examines how material culture can enhance historians understanding of the past both worldwide and across time The successful use of material culture in history depends on treating material things of many kinds not as illustrations but as primary evidence Each kind of material thing and there are many requires the application of interpretive

skills appropriate to it These skills overlap with those acquired by scholars in disciplines that may abut history but are often relatively unfamiliar to historians including anthropology archaeology and art history Creative historians can adapt and apply the same skills they honed while studying more traditional text based documents even as they borrow methods from these fields They can think through familiar historical problems in new ways They can also deploy material culture to discover the pasts of constituencies who have left few or no traces in written records The authors of this volume contribute case studies arranged thematically in six sections that respectively address the relationship of history and material culture to cognition technology the symbolic social distinction and memory They range across time and space from Paleolithic to Punk

The Origins of Macho Sonya Lipsett-Rivera, 2019-06-15 With limited resources to contextualize masculinity in colonial Mexico film literature and social history perpetuate the stereotype associating Mexican men with machismo defined as excessive virility that is accompanied by bravado and explosions of violence While scholars studying men s gender identities in the colonial period have used Inquisition documents to explore their subject these documents are inherently limiting given that the men described in them were considered to be criminals or otherwise marginal Nineteenth and twentieth century resources too provide a limited perspective on machismo in the colonial period The Origins of Macho addresses this deficiency by basing its study of colonial Mexican masculinity on the experiences of mainstream men Lipsett Rivera traces the genesis of the Mexican macho by looking at daily interactions between Mexican men in the seventeenth and eighteenth centuries In doing so she establishes an important foundation for gender studies in Mexico and Latin America and makes a significant contribution to the larger field of masculinity studies
