Refugees From Revolution U S Policy And Third World Migration:

Refugees From Revolution Peter Koehn, 2019-06-26 This book relates social constraints and opportunities to micro level exile decision making It focuses on Cuban Indo Chinese Ethiopian Eritrean and Iranian exile communities in the United States The book analyzes the origins of these large groups of exiles and their treatment under US policy **Refugees and the Asylum Dilemma in the West** Gil Loescher, 2010-11-01 The Outlook for U.S.-China Relations Following the 1997-1998 Summits Peter H. Koehn, 1999 At the end of the 20th Century the focus of global attention and concern is on the future relationship between the world s most influential nation and its most populous one The series of high level meetings and the exchange of unusually long summit visits that occupied the center of the world stage in the late 1990s reveal that both sides recognize the other s global importance In the words of President Bill Clinton the role China chooses to play will powerfully shape the next century The years 1997 and 1998 will be remembered by many for the critically acclaimed summit visits of Jiang Zemin to the United States and Bill Clinton to China This book moves beyond the Clinton Jiang summits of 1997 1998 to explore long term prospects in light of recent developments Nineteen scholars from diverse disciplines including eight from China mainland institutions address the outlook for security relations in the Asia Pacific Region prospects for strategic partnership issues concerning Taiwan Tibet and trade the potential for information technology and educational exchanges future competition for natural resources changing images of each other and other critical dimensions of expanding non state relationships The interaction of China and the United States promises to constitute the world s most important bilateral relationship well into the 21st Century To be constructive and enduring relationships must be based on mutual understanding and respect This volume provides an opportunity to advance both foundations among students scholars policy makers and the attentive public in the East and the West The Expanding Roles of Chinese Americans in U.S.-China Relations Peter Koehn, Xiao-Huang Yin, Xiao-huang Yin, 2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of life in U S China relations The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks including families businesspersons community newspapers students lobbyists philanthropists and scientists and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U S China relations and to revealing the importance of migrants as actors in contemporary global politics The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement particularly in global civil society networks increasingly will determine the outcome of state to state relations between the United States and the PRC Transnational Mobility and Global Health Peter H. Koehn, 2018-09-05 Transnational Mobility and Global Health spotlights the powerful and dynamic intersections of human movement inequality and health The book explores the

interacting political economic social cultural and climatic drivers of health and migration proposing innovative ways to enhance global health and care provision in an era of transnational mobility As health security continues to rise up the agenda in international politics the book also analyses the political determinants of health and migration Within the framework of key drivers of unequal mobilities this book treats interconnected health and migration themes not covered elsewhere under one cover health tourism conflict induced and other vulnerable population movements humanitarian crises human rights the health development linkage migrant health care and health competency education The book also considers global health vulnerabilities in the wake of climate change and the biomedical ethical and governance challenges of emerging and reemerging infectious diseases Finally the book suggests ways of evaluating mobility influenced health outcomes and equity impacts and explores how the global circulation of health expertise could help to rectify care provider shortages The challenges to global health considered in this book are only likely to become more intense as the 21st Century surge in transnational migration continues Readers will gain interdisciplinary appreciation for the relevance of health for migration and of migration for global health Researchers students practitioners and policy makers interested in individual and population health sustainable development and migration studies will find this book a useful and inspiring guide to contemporary global challenges

Africans on the Move Fasil Demissie, 2016-03-17 The 20th century witnessed the large scale displacement and dispersal of populations across the world because of major political upheavals among them the two European wars decolonization and the Cold War These major events were followed by globalization which accelerated free trade and the mobility of capital new technologies of communication and the movement of people commodities ideas and cultures across the world This book explores the complexity of African migration and diaspora the discourse of diaspora engagement and new models of citizenship and transnationalism in the context of these issues This book was originally published as a special issue of African and Black Diaspora An International Journal

The UNHCR and World Politics Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High

Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today *Migrant Health and Resilience* Peter H. Koehn, Phyllis Bo-Yuen Ngai, Juha I.

Shalka, 2017-04-14 The fall of Saigon in April 1975 resulted in the largest and most ambitious refugee resettlement effort in Canada's history *Running on Empty* presents the challenges and successes of this bold refugee resettlement program It traces the actions of a few dozen men and women who travelled

to seventy remote refugee camps worked long days in humid conditions subsisted on dried noodles and green tea and sometimes slept on their worktables while rats scurried around them all in order to resettle thousands of people displaced by war and oppression After initially accepting 7 000 refugees from camps in Guam Hong Kong and military bases in the US in 1975 Canada passed the 1976 Immigration Act to establish new refugee procedures and introduce private refugee sponsorship In July of 1979 the federal government under Prime Minister Joe Clark announced that Canada would accept an unprecedented 50 000 refugees later increased to 60 000 more than half of whom would be sponsored by ordinary Canadians Running on Empty presents gripping first hand accounts of the government officials tasked with selecting refugees from eight different countries receiving and matching them with sponsors and helping churches civic organizations and groups of neighbours to receive and integrate the newcomers in cities towns and rural communities across Canada Timely and inspiring Running on Empty offers essential lessons for governments organizations and individuals trying to come to grips with refugee crises in the twenty first century

Immigration Judges and U.S. Asylum Policy Banks Miller, Linda Camp Keith, Jennifer S. Holmes, 2015 Although there are legal norms to secure the uniform treatment of asylum claims in the United States anecdotal and empirical evidence suggest that strategic and economic interests also influence asylum outcomes Previous research has demonstrated considerable variation in how immigration judges decide seemingly similar cases which implies a host of legal concerns not the least of which is whether judicial bias is more determinative of the decision to admit those fleeing persecution to the United States than is the merit of the claim These disparities also raise important policy considerations about how to fix what many perceive to be a broken adjudication system With theoretical sophistication and empirical rigor Immigration Judges and U S Asylum Policy investigates more than 500 000 asylum cases that were decided by U S immigration judges between 1990 and 2010 The authors find that judges treat certain facts about an asylum applicant more objectively than others facts determined to be legally relevant tend to be treated similarly by judges of different political ideologies while facts considered extralegal are treated subjectively Furthermore the authors examine how local economic and political conditions as well as congressional reforms have affected outcomes in asylum cases concluding with a series of policy recommendations aimed at improving the quality of immigration law decision making rather than trying to reduce disparities between decision makers

Biopolitics, Militarism, and Development David O'Kane, Tricia M. Redeker Hepner, 2009 Bringing together original contemporary ethnographic research on the Northeast African state of Eritrea this book shows how biopolitics the state led deployment of disciplinary technologies on individuals and population groups is assuming particular forms in the twenty first century Once hailed as the African country that works Eritrea s apparently successful post independence development has since lapsed into economic crisis and severe human rights violations This is due not only to the border war with Ethiopia that began in 1998 but is also the result of discernible tendencies in the high modernist style of social mobilization for development first adopted by the Eritrean government during the liberation

struggle 1961 1991 and later carried into the post independence era The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions policies and discourses Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted This insightful comparative volume places the Eritrean case in a broader global and transnational context *Crisis and Emergency Management* Ali Farazmand,2017-09-25 More than 12 years have passed since the publication of the first edition of *Crisis and Emergency Management* During that time numerous disasters from 9 11 to massive earthquakes in Iran and China to the giant Asian Tsunami Hurricane Katrina and the Fukushima Tsunami and ensuing nuclear meltdown have changed the way we manage catastrophic events With contributions from leading experts this second edition features 40 new chapters that address recent worldwide crises and what we have learned from emergency responses to them See What s New in the Second Edition Up to date concepts theories and practices Analysis of recent disasters and their effect on emergency management Policy and managerial lessons Suggestions for capacity building in crisis and emergency management The book covers a wide range of international issues using critical empirical and quantitative analyses It discusses various approaches to topics such as resolving political tension and terrorism issues the potential use of biological weapons and the role of public relations in crisis The author offers insight into organizational and community resiliency development a surprise management theory in practice for upgrading the knowledge and skills in managing crises and governing emergencies and better and more effective organizational political social and managerial coordination in the processes He presents case studies that enhance and advance the future theory and practice of crisis and emergency management while at the same time providing practical advice that can be put to use immediately Managing crises and governing emergencies in such an age of challenges demands a different kind of knowledge skills and attitudes that were not available yesterday This book gives you valuable information with applications at the macro micro organizational and interorganizational levels preparing you for emergency management in an increasingly globalized and uncertain world **Soldiers, Martyrs, Traitors, and Exiles** Tricia M. Redeker Hepner,2009-08-11 The first ethnography of the Eritrean struggle for independence documents the transnational dimensions of revolution and nation building from the dual perspective of both Eritrea and its U S diaspora **Cultures in Contact** Dirk Hoerder,2002-11-21 Analysis of migrations regional interregional continent wide and global and the resulting cultural interactions and societal changes [The Cambridge Survey of World Migration](#) Robin Cohen,1995-11-02 This extensive survey of migration in the modern world begins in the sixteenth century with the establishment of European colonies overseas and covers the history of migration to the late twentieth century when global communications and transport systems stimulated immense and complex flows of labour migrants and skilled professionals In ninety five contributions leading scholars from twenty seven different countries consider a wide variety of issues including migration patterns the

flights of refugees and illegal migration Each entry is a substantive essay supported by up to date bibliographies tables plates maps and figures As the most wide ranging coverage of migration in a single volume The Cambridge Survey of World Migration will be an indispensable reference tool for scholars and students in the field *Conflict and the Refugee Experience* Assefaw Bariagaber, 2016-05-23 One of the most serious threats to peace security and the sovereignty of nations in the post Cold War era is population migration A particularly volatile form of this threat is the global refugee problem and nowhere is this issue more severe than in Africa This book offers a comprehensive analysis of refugee experience in the Horn of Africa It includes an examination of the dynamics of flight from the country of origin settlement in exile and repatriation to the country of origin Such an integrative approach sets this book apart from other studies and will serve as a reader for courses on ethno national conflicts migration international politics security and African politics Development Discourses Prasenjit Maiti, 2005 This Collection Of Essays Seeks To Explore Common Lessons From Political Sociology And Development Studies And In This Process Tries To Resolve The Tension Between The Author S Academic And Practitioner Worldviews The Author Has Tried To Highlight One Principal Concern In This Volume That Development Is More Often Than Not A Multicultural Construct Of Everyday Politics That Is Context Bound And Predicated By Statements Of Informed Choices On The Part Of The Stakeholders And Or Beneficiaries Involved So Development Is More About Who Gets What When How Where And Why In Terms Of An Authoritative Allocation Of Values That Is Underpinned By Definitions Of Stakeholders Or Beneficiaries Or Affected Persons Such Definitions Are Power Statements That Are Scripted By Agencies That Generally Tend To View Development As An Unevenness That May Be Restructured In Terms Of Human And Physical Engineering As A Level Playing Ground Where Players Are Equipped With Uniform Access To Resources And Similar Opportunities This Is However A Contentious Issue Without Any Simple Answers Such An Interventionist Approach May Not Always Be Sponsored By The Mode Of Production Or The Marketplace Of Politics That By Definition Thrives On Discrepancies And Discriminations Among Unequally Affected Persons The Present Work Will Be Of Interest To Political Sociologists Economic And Social Historians Development Consultants Non Profit Professionals Social Workers Grassroots Activists Urban Planners Academics As Well As Researchers Working In The Development Sector *Transnational Competence* Peter H. Koehn, James N. Rosenau, 2015-11-17 In this timely new contribution Koehn and Rosenau develop their transnational competence framework and demonstrate the promise of its application across six critical professions teacher education engineering business management social work sustainable development encompassing agricultural sciences public administration and natural resources management and medicine health Transnational Competence offers higher education leaders around the world useful ideas for enhancing and transforming professional programs so that graduating practitioners will be prepared with the skills needed to manage horizon rising challenges that connect populations ecosystems and fields of study Aimed principally at higher education leaders and graduating professionals throughout the world Transnational Competence focuses on the

skills that tomorrow's practitioners will need to deal with what the authors term horizon rising transboundary challenges

The Other African Americans Yoku Shaw-Taylor, Steven A. Tuch, 2007-08-02 America's black population is becoming increasingly diverse and the presence of Caribbean and especially African immigrants continues to grow throughout the country. *The Other African Americans* seeks to broaden our understanding of these groups by exploring the changing intraracial dynamics among African Americans as new immigrants settle in the U.S. and become Americans. This edited volume of original research provides historical and contemporary information on African and Caribbean individuals and families addressing particular topical areas covering the most salient issues facing these immigrants today.
