**Regeneration of War-torn Societies** Michael Pugh,2000 **Conflict Prevention and Peace-building in Post-War Societies** T. David Mason,James D. Meernik,2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts

Post-Conflict Power-Sharing Agreements Imad Salamey,Mohammed Abu-Nimer,Elie Abouaoun,2017-07-27 The book surveys comparative power sharing models implemented in societies that have faced identity conflicts with attention given to post conflict design It analyzes the success and pitfalls of international experiences before proposing a model for Syria Contributors address the central question which among the set of power sharing agreements that have helped settle protracted identity driven armed conflict can provide Syria with a platform for dialogue negotiation and conflict mitigation The comparative analysis advanced in this book extracts lessons from countries such as Bosnia Herzegovina India Iraq Lebanon Mali Northern Ireland the Philippines and Sudan The prospect of a post conflict distribution of power in Syria is then unraveled from different sectarian ethnic and regional perspectives The authors also address challenges of

peacebuilding such as violent extremism gender participation resettlements retributions transitional justice integration of armed groups and regional and international sponsorship      **War Economies and Post-war Crime** Sabine

Kurtenbach,Angelika Rettberg,2020-05-21 Even when armed conflicts formally end the transition to peace is not clear cut This comprehensive volume explores the mounting evidence which suggests that it is rather unlikely to see a clean break from violence to consent from theft to production from repression to democracy or from impunity to accountability The authors analyse the complex endeavour of transitioning out of war studying how it is often interrelated with other transformations such as changes in the political regime democratisation and in the economy opening of markets to globalisation They explore how in the same way as wars and conflicts reflect the societies they befall post war orders may replicate and perpetuate some of the drivers of war related violence such as high levels of instability institutional fragility corruption and inequality This book thus suggests that even in the absence of a formal relapse into war and the re mobilisation of former insurgents many transitional contexts are marked by the steady and ongoing reconfiguration of criminal and illegal groups and practices This book will be of great interest to students and researchers of political science and peace studies It was originally published as an online special issue of Third World Thematics      **The International**

**Committee of the Red Cross and its Mandate to Protect and Assist** Christy Shucksmith,2017-08-24 The purpose of this book is to consider the legality of the changing practice of the International Committee of the Red Cross ICRC It provides extensive legal analysis of the ICRC as an organisation legal person and humanitarian actor It draws on the law of organisations International Humanitarian Law International Human Rights Law and other relevant branches of international law in order to critically assess the mandate and practice of the ICRC on the ground The book also draws on more abstract human centric concepts including sovereignty as responsibility and human security in order to assess the development of the concept of humanity for the mandate and practice of the ICRC Critically this book uses semi structured interviews with ICRC delegates to test the theoretical and doctrinal conclusions The book provides a unique insight into the work of the ICRC It also includes a case study of the work of the ICRC in the Democratic Republic of Congo Ultimately the book concludes that the ICRC is no longer restricted to the provision of humanitarian assistance on the battlefield It is increasingly drawn into long term and extremely complicated conflicts in which civilians soldiers and non State actors intermingle In order to remain useful for the people on the ground therefore the ICRC is progressively developing its mandate This book questions whether on occasion this could threaten its promise to remain neutral impartial and independent Finally however it should be said that this author finds that the work of the ICRC is unparalleled on the international stage and its humanitarian mandate is a vital component for those embroiled in the undertaking of and recovery from conflict      **Travelling Models in African**

**Conflict Management** ,2014-05-01 Travelling Models offers a theoretical concept for comparative research on conflict management in Africa in processes of globalization how is change in one place related to developments in other places Why

are certain issues that are important in one place taken up in other places while others are not The authors examine how the travel of models enact changes particularly in African conflict situations most often in unexpected ways They look at what happens when a model has been put into practice at a conflict site and they pay attention to the forms of social re ordering resulting from this process The authors look among others at conflict managing models of power and revenue sharing mediation freedom of expression disaster management community involvement and workshopping Contributors are Andrea Behrends Lydie Cabane Veronika Fuest Dejene Gemechu Mutasim Bashir Ali Hadi Remadji Hoinathy Mario Kr mer Sung Joon Park Tinashe Pfigu Richard Rottenburg Sylvanus Spencer and Kees van der Waal The Introduction of this volume is being offered in Open Access
