Rivalries In Ethiopia:

Rivalries in Ethiopia. By Elizabeth P. MacCallum ... Introduction by Newton D. Baker. [With a Map.]. World Peace Foundation (BOSTON, Mass.), Newton Diehl BAKER, Elizabeth Pauline MacCallum, 1935 Rivalries in Ethiopia Elizabeth Pauline MacCallum, 1935 Strategic Rivalries in World Politics Michael P. Colaresi, Karen Rasler, William R. Thompson, 2008-01-10 International conflict is neither random nor inexplicable It is highly structured by antagonisms between a relatively small set of states that regard each other as rivals Examining the 173 strategic rivalries in operation throughout the nineteenth and twentieth centuries this book identifies the differences rivalries make in the probability of conflict escalation and analyzes how they interact with serial crises arms races alliances and capability advantages The authors distinguish between rivalries concerning territorial disagreement space and rivalries concerning status and influence position and show how each leads to markedly different patterns of conflict escalation They argue that rivals are more likely to engage in international conflict with their antagonists than non rival pairs of states and conclude with an assessment of whether we can expect democratic peace economic development and economic interdependence to constrain rivalry induced conflict **Internal Rivalries and Foreign Threats** Sven Rubenson, Ê¼AmsÄ¼lu Ê¼Aklilu, Merid Wolde Aregay, Samuel Rubenson, Contains all of the locatable official letters written by the Ethiopian Kings of the period or by governors on their behalf Also included in the 235 documents are semi official and private letters that impinged on the affairs of state The letters are presented in the original languages with accompanying English translations An introductory essay provides historical context for the period covered Originally published in 2000 by Addis Ababa U Press Annotation copyrighted by Book News Inc Portland OR *The History of Ethiopia* 'Bisi Oyegoke, 1982 **The East African Community** Jean-Marc Trouille, Helen Trouille, Penine Uwimbabazi, 2021-05-24 This book brings together African and European experts from a variety of disciplines to examine the origins and current state of the East African Community EAC Over the course of the book the authors analyse the rich tapestry of intraregional relations in East Africa the EAC s similarities with the European Union and the future challenges faced by the organisation Widely regarded as the most advanced and successful regional integration scheme in Africa the EAC is an intergovernmental organisation consisting of Burundi Kenya Rwanda Tanzania and Uganda and since 2016 South Sudan It is the oldest among Africa s regional economic communities and among the continent s most promising growth areas with a long history of integration punctuated by several false starts and traumas that have profoundly affected its body politics When initially set up the EAC model bore a striking resemblance to the process undergone by the European Union Now as the EAC continues to establish its own identity this book argues that whilst Europe s history may provide useful insights for EAC member states the EAC experience could in turn also offer lessons for the European Union Covering key dimensions such as integration co operation development trade and investments this book highlights the intricate and complex relationships between East African states and it will be of interest to researchers

Rivalries in World Politics William R. Thompson, Kentaro Sakuwa, Prashant Hosur Suhas, 2021-11-20 Strategic rivalries are contests between states that view one another as threatening competitors and treat each other as enemies A disproportionate amount of interstate conflict is generated by a relatively small number of these pairs of states engaged in rivalries that can persist for years Thus to understand interstate peace and conflict it is useful to know how rivalries work in general and more specifically In the past two decades a strenuous effort has been mounted to introduce the concept of rivalry and demonstrate its utility in unraveling conflict situations Yet all rivalries are not exactly alike We need to move to a more rewarding differentiation of how they differ in general Principal rivalries are those antagonisms that are most significant to the decision makers in a state The main distinction on issues about which rivals dispute are positional and spatial concerns Positional rivalries contend over regional and global influence Spatial rivals contend over which state deserves to control disputed territory Interventionary rivalries predominate in sub Saharan Africa Their primary focus involves neighboring states attempting to influence who rules and how co ethnics are treated This book updates the inventory of strategic rivalries from 1816 to 2020 Principal rivalries are identified for the first time and cover the same period A theory stressing the two main types of rivalry positional and spatial is elaborated and tested Regional variations on the origins and terminations of spatial rivalry are explored and interpreted In addition attention is paid to fluctuations in the intensity of positional rivalries by examining the working of the contemporary major power triangle United States Soviet Union Russia and China and more generally the dynamics of regional power that are rising in terms of their relative capability and status in the system Variations in cooperation and termination dynamics both in general and according to rivalry type are also examined Overall the emphases of the book are split between demonstrating the utility of distinguishing among rivalry types and examining selected rivalry dynamics

The Ethiopian Feudal Army and Its Wars, 1868-1936 Teferi Teklehaimanot, 1971

War and Peace in International Rivalry Paul Diehl, Gary Goertz, 2010-06-02 This book provides the first detailed analysis of international rivalries the long standing and often violent confrontations between the same pairs of states The book addresses conceptual components of rivalries and explores the origins dynamics and termination of the most dangerous form of rivalry enduring rivalry since 1816 Paul Diehl and Gary Goertz identify 1166 rivalries since 1816 They label sixty three of those as enduring rivalries These include the competitions between the United States and Soviet Union India and Pakistan and Israel and her Arab neighbors The authors explain how rivalries form evolve and end The first part of the book deals with how to conceptualize and measure rivalries and presents empirical patterns among rivalries in the period 1816 1992 The concepts derived from the study of rivalries are then used to reexamine two central pieces of international relations research namely deterrence and democratic peace studies The second half of the book builds an explanation of enduring rivalries based on a theory adapted from evolutionary biology punctuated equilibrium The study of international rivalries has become one of the centerpieces of behavioral research on international conflict This

book by two of the scholars who pioneered such studies is the first comprehensive treatment of the subject It will become the standard reference for all future studies of rivalries Paul F Diehl is Professor of Political Science and University Distinguished Teacher Scholar University of Illinois He is the coeditor of *Reconstructing Realpolitik* and coauthor of *Measuring the Correlates of War* Gary Goertz is Assistant Professor of Political Science University of Arizona and is the coauthor with Paul Diehl of *Territorial Change and International Conflict* *The Oxford Handbook of U.S. National Security* Derek S. Reveron, Nikolas K. Gvosdev, John A. Cloud, 2018-05-01 National security is pervasive in government and society but there is little scholarly attention devoted to understanding the context institutions and processes the U S government uses to promote the general welfare The Oxford Handbook of U S National Security aims to fill this gap Coming from academia and the national security community its contributors analyze key institutions and processes that promote the peace and prosperity of the United States and by extension its allies and other partners By examining contemporary challenges to U S national security contributors consider ways to advance national interests The United States is entering uncharted waters The assumptions and verities of the Washington consensus and the early post Cold War have broken down After 15 years of war and the inability of two presidents to set a new long term U S foreign policy approach in place the uncertainties of the Trump administration symbolize the questioning of assumptions that is now going on as Americans work to re define their place in the world This handbook serves as a how to guide for students and practitioners to understand the key issues and roadblocks confronting those working to improve national security The first section establishes the scope of national security highlighting the important debates to bridge the practitioner and scholarly approaches to national security The second section outlines the major national security actors in the U S government describes the legislative authorities and appropriations available to each institution and considers the organizational essence of each actor to explain behavior during policy discussions It also examines the tools of national security such as diplomacy arms control and economic statecraft The third section focuses on underlying strategic approaches to national security addressing deterrence nuclear and cyber issues and multilateral approaches to foreign policy The final section surveys the landscape of contemporary national security challenges This is a critical resource for anyone trying to understand the complex mechanisms and institutions that govern U S national security Scare Tactics Michael P. Colaresi, 2005-12-29 Why do international situations spiral out of control and into war Why do conflicts finally wind down after years if not decades of tension Various faults in conventional thinking ranging from relying on indeterminate predictions to ignoring the interaction between domestic and international events have impeded adequate explanations for the continuation escalation and dampening of rivalry conflict In *Scare Tactics* The Politics of International Rivalry Michael P Colaresi explains how domestic institutions and interactions among nations converge to create incentives for either war or peace Specifically domestic pressure to continue a rivalry and resist capitulating to the enemy can be exacerbated in situations where elites benefit from fear mongering a process Colaresi refers

to as rivalry outbidding When rivalry outbidding becomes fused with pressure to change the status quo even a risky escalation may be preferable to cooperation or rivalry maintenance The eventual outcomes of such dynamic two level pressures if unchecked are increased conflict destruction and death Colaresi contends however that if leaders can resist pressures to escalate threats and step up rivalries a deteriorating status quo can instead spur cooperation and peace

African Realism? Errol A. Henderson, 2015-03-19 African Realism explains Africa's international conflicts of the post colonial era through international relations theory It looks at the relationship between Africa's domestic and international conflicts as well as the impact of factors such as domestic legitimacy trade and regional economic institutions on African wars Further it examines the relevance of traditional realist assumptions e.g. balance of power the security dilemma to African international wars and how these factors are modified by the exigencies of Africa's domestic institutions such as neopatrimonialism and inverted legitimacy This study also addresses the inconsistencies and inaccuracies of international relations theory as it engages African international relations and especially its military history

Dynamics of Regional Politics William Howard Wriggins, 1992 Dynamics of Regional Politics explores the patterns of international conflict and cooperation in four geographical subsystems the Horn of Africa the Persian Arabian Gulf the South Asian subcontinent and Southeast Asia Wriggins's book argues that to understand how the end of the Cold War will affect these areas it is necessary to look closely at their individual dynamics over time to differentiate characteristics that are intrinsic to the regions from those caused by the Cold War involvement of the United States and the Soviet Union

The China-led Belt and Road Initiative and its Reflections Mehdi Parvizi Amineh, 2022-07-12 This book analyzes the origins and the impacts of China's Belt and Road Initiative BRI on diplomacy economy trade investment finance and security among selected host countries and regions in Asia Africa and the European Union By examining the geopolitical economy of BRI activities it concisely describes the impact of the rise of China and its BRI policy strategy on the reshaping of world order and global governance This volume explores the BRI by addressing several key questions including Why did the Chinese leadership set up the BRI What are the activities of BRI projects in the participating countries and related regions What are the challenges to the successful implementation of the BRI in the various countries and regions Moreover through its analysis of the abovementioned questions it provides novel contributions to the ongoing scholarly debates between Chinese and non Chinese scholars among others the debate surrounding the rise of China and its impact on global governance Featuring an extensive variety of expert contributors this study will be an essential reading for students and scholars of International Relations and Global Political Economy as well as Chinese politics and those with an interest in the Belt and Road Initiative more broadly

Managing U.S.-soviet Rivalry Alexander L. George, 2019-03-04 This book examines the lessons of the U S Soviet experiment with detente in the 1970s with particular attention to the effort to develop a basis for cooperating in crisis prevention It provides a reconceptualization of the problem of moderating U S Soviet rivalry

Media Ethics Beyond Borders Stephen J.A.

Ward,Herman Wasserman,2010-06-15 Explores the construction of an ethics for news media that is global in reach and impact This title includes the essays that provide theoretical perspectives on major issues and applies the ideas to specific countries contexts and problems It offers a source of ethical thought and analysis on questions raised by contemporary global media **Imperialist Rivalries in Ethiopia** William Koren,1935 **Return to Zanzibar** Roger Webber,2013-12-01

Zanzibar was to be a profound influence on my early life it became home to me this was the world I knew and the place I would always be naturally drawn back to Zanzibar was one of those special places with even the name evoking ideas of an enchanted land I was fortunate to live there at a time when it was a peaceful autonomous island spared from the revolution that later tore it apart Starting from his early days spent in this exotic island when it was an independent Sultanate Roger Webber goes on to describe his travels throughout Africa covering a period of 66 years and nearly every country in that vast continent It includes the great journey from Cairo to Cape travelling up the Nile and later on passage down the other great river of Africa the Congo In Return to Zanzibar Roger begins with his memories of an island explored in detail recounting every aspect of its geography and history and examining how this small country had so much influence over such a large part of the continent Following Zanzibar s amalgamation with Tanganyika to form Tanzania in which many of the ways of the original country disappeared Roger returned as a doctor to be faced with epidemics that were ravaging East Africa at that time From this base he explored surrounding countries and much of the rest of the continent Return to Zanzibar is a personal story of Africa in all its many facets
