Memoirs of a Playground Cop Rene Ortega, 2010-12-20 Most students lack any form of discipline or restraint in the classroom Parents condone their children's behavior School administrators exhibit a god complex and school police officers are caught in between the web of school politics that often interferes in enforcing the law equally to all Today students adverse behavior in the classroom no longer constitutes a delinquent conduct as per classroom discipline management rules but rather an act that has manifests itself into a criminal offense Students are empowered to act bad when their own parents themselves refuse to correct their children's maladaptive behavior by blaming others for their shortcomings And this problem is further exasperated by school administrators who either use a strong arm tactic to curtail the problem or a too soft a hand to make an impression to get a child to exhibit positive behavior in the classroom School administrators have a God complex where they walk around their campus expecting everyone including school police officers to do their bidding School administrators try to instill their own brand of justice by picking and choosing which students are to be charged with a criminal offense while others are allowed to continue their maladaptive behaviors School police officers find themselves in a very precarious situation where they must wear different hats to address different issues that arise in the classroom School police officers are like band aides that are placed on a wound it is a cure all fix all approach to making problems go away unfortunately when dealing with the school community school police officers and law enforcement in general cannot use a band aide to make things better as police work in a school setting is a web of complex issues that fosters misunderstanding among members of the school and law enforcement communities **Cornfields to Gold Medals** Don Showalter, 2023-06-27 Blending personal narrative with practical guidance Cornfields to Gold Medals delivers well traveled leadership principles for on and off the court Coach Don Showalter's rise to international recognition as a coach can be traced to his time at the helm

of USA Basketball's Junior National Team where he went 62-0 and brought home 10 gold medals. Yet for all his international success he remains grounded in the Midwestern values that shaped his character. Principles have made him a passionate ambassador for the sport of basketball and one of its great teachers. *Cornfields to Gold Medals* is an all-American story that takes the reader on Showalter's life journey through the sport he has coached for nearly half a century. It begins humbly on a family farm perched atop the rolling hills of southeastern Iowa and extends to gymnasiums in every corner of the world. Interspersed in this compelling personal narrative are 10 lessons in leadership strategies Showalter employed throughout his 44 years coaching young athletes. Each is accompanied by key points in how to teach the lesson and shares effective strategies for readers to implement in daily practice. Rooted in heartland principles of community, hard work, and service, this essential book offers leaders insight into guiding others and time to reflect on what is truly important. **How to Resist**

It identifies, defines, describes, analyzes, and suggests actions to take toward a highly pervasive social phenomenon that social scientists should have recognized at least a century ago. Somehow the social scientific community has always overlooked this phenomenon even though it affects if not envelops a large majority of people in modern society. This

phenomenon is likely one of the leading causes of frustration stress fatigue disappointment disillusionment depression unhappiness anger quarrels road rage violence substance abuse domestic abuse neurosis and perhaps even suicides in modern civilization This is the phenomenon of afriations Don t try to look that term up in any source other than this text It s a term the author had to coin for this concept which has yet to be academically identified Yet afriats are probably the most complained about topic of conversation and for tens of millions of Americans they cause some of our most dreaded problems With the simple understanding of afriations and a basic knowledge of how to interact with afriats we can avoid much of the stress and grief caused by afriations
