River Road To China The Mekong River Expedition 18661873:

River Road to China Milton Osborne, 2007-12-01 A compelling finely researched account of an adventure that was hailed as one of the grandest explorations of the nineteenth century The Washington Post A New York Times Notable Book In 1866 six Frenchmen set out on a dangerous mission to seek a trade route up the Mekong During the two years that followed they would journey through more than four thousand miles of unmapped territory from the tropical heat of the swamps of Vietnam and Cambodia to the bitter cold of the mountain ranges of southwestern China Their historic expedition is the dramatic subject of *River Road to China* a story of courage endurance and determination in the face of unpredictable dangers and near insurmountable odds This edition has been updated to include a new postscript by the author and more than thirty full color illustrations by the expedition's artist The highest of high adventure Osborne's documentation is flawless The New Yorker As exciting as it is historically illuminating A tale of heroism that has seldom been duplicated spurred by the continuing fatal attraction of the Great River The New Republic *River Road to China* Milton E. Osborne, 1976 Narrative of the nineteenth century expedition along the Mekong River *River Road to China* Milton E. Osborne, 1996 **The Mekong: A**

Socio-legal Approach to River Basin Development Ben Boer, Philip Hirsch, Fleur Johns, Ben Saul, Natalia Scurrah, 2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing **Negotiated Power in Late Imperial China** Jennifer Rudolph, 2010-02-28 *Negotiated Power in Late Imperial China* The Zongli Yamen and the Politics of Reform explores the nature and functioning of reform during the nineteenth century of China's Qing dynasty 1644 1911 By analyzing the bureaucratic modes of management that developed around the creation and evolution of the Zongli Yamen or Foreign Office 1861 1901 the book demonstrates the vitality of not only the Chinese State but also the institutional traditions of its Manchu rulers Drawing on precedent and the flexibility of the administrative system in their efforts to manage the conduct of foreign

affairs high Qing ministers transformed opportunities for institutional dynamism into the reality of a functioning central Zongli Yamen with a foreign affairs field administration supporting it in the provinces In the process they altered the governmental hierarchy and changed the definition of institutional power in the multi faceted area of foreign affairs and more generally for the Qing bureaucracy As the most significant example of institutional development in China s critical period of the nineteenth century the Zongli Yamen s experience serves as valuable background for understanding reform efforts in late imperial China and beyond

Asian Borderlands Charles Patterson Giersch,2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry

Colonial Cambodia's 'Bad Frenchmen' Gregor Muller,2006-04-07 Colonial Cambodia s Bad Frenchmen provides a captivating analysis of the gradual establishment of French colonialism in the late nineteenth century Drawing on new materials from French Vietnamese and Cambodian archives it reconstructs a time during which France struggled to give meaning and substance to its Protectorate over Cambodia It traces the lives of failed colonists most notably Thomas Caramen who all constituted a challenge to the colonial enterprise by muddling its social cultural and racial boundaries In its consideration of

the critical role played by these colonists this compelling book shifts away from governor generals grand discourses and the simple view of colonialism as colonizers versus colonized to explore how things actually worked themselves out on the ground It examines in particular the civilizing mission and educational initiatives the slow destruction of the indigenous justice system the policing of sexual relations between colonisers and colonized the theft of Cambodian land and taxes by the colonizing power and the brutal repression of resistance wherever and whenever it appeared Overall Muller reveals the crucial role played by indigenous middlemen and marginal Europeans in the rise of the colonial state and tells the fascinating tale of a Frenchman who came to represent everything that the colonial state dreaded *Cambodia and the West, 1500-2000* T. O. Smith, 2018-03-19

This volume brings together an interdisciplinary team of established and emerging scholars from the disciplines of history political science and communication studies to provide a historical reappraisal of Cambodia s relationships with the West Contributors to the volume examine moments of historical import in Cambodia s history from the sixteenth to the twenty first century These include Cambodia s first contacts with European mercantilism the establishment of formal French colonialism and commercialism British peace enforcement and diplomacy after the Second World War independence modernisation and the onset of the Cold War and the United Nations peace process and the Khmer Rouge genocide tribunal of more recent times The result is a unique and significant new analysis of some of Cambodia s most controversial interactions with the West demonstrating how far the West has shaped the development of Cambodia in the contemporary epoch *Vietnamese Source Materials concerning the 1827 Conflict between the Court of Siam and the Lao Principalities 2* Ngaosrivathana, Mayoury, 2001

Critical Landscape Planning during the Belt and Road Initiative Ashley Scott Kelly, Xiaoxuan Lu, 2021-09-29 This open access book traces the development of landscapes along the 414 kilometer China Laos Railway one of the first infrastructure projects implemented under China s Belt and Road Initiative BRI and which is due for completion at the end of 2021 Written from the perspective of landscape architecture and intended for planners and related professionals engaged in the development and conservation of these landscapes this book provides history planning pedagogy and interdisciplinary framing for working alongside the often opaque planning design and implementation processes of large scale infrastructure It complicates simplistic notions of development and urbanization frequently reproduced in the Laos China frontier region Many of the projects and sites investigated in this book are recent firsts in Laos Laos s first wildlife sanctuary for trafficked endangered species its first botanical garden and its first planting plan for a community forest Most often the agents and accomplices of neoliberal development the planning and design professions including landscape architecture have little dialogue with either the mainstream natural sciences or critical social sciences that form the discourse of projects in Laos and comparable contexts Covering diverse conceptions and issues of development including cultural and scientific knowledge exchanges between Laos and China nature tourism connectivity and new town planning this book also features nine planning proposals for Laos generated through this research initiative

since the railway's groundbreaking in 2016. Each proposal promotes a wider landscape approach to development and deploys landscape architecture's spatial and ecological acumen to synthesize critical development studies with the planner's capacity, if not naive predilection to intervene on the ground. Ultimately, this book advocates the cautious engagement of the professionally oriented built environment disciplines such as regional planning, civil engineering, and landscape architecture with the landscapes of development institutions and environmental NGOs.

Cambodia Captured Jim Mizerski, 2016-01-01
This book accurately chronicles the creation of the French Protectorate of Cambodia through the accounts of the people who actually participated in its inception and in the context of the political intrigues of that time and place involving Cambodia, Siam, France, and Great Britain. In the same decade of the 1860s, two other related treaties complicated and then resolved the protectorate treaty. Drawing on the same historical context, this new book commemorates the 150th anniversary in 2016 of the beginning of photography in Cambodia, presenting over 145 rare engravings, maps, and the remarkable first photographs captured at Angkor and Phnom Penh by John Thomson and Emile Gsell decades before photographic film was even invented. On February 26, 1866, John Thomson arrived at Angkor Wat to capture the first photographs there. Four months later, Emile Gsell's historic photographs at Angkor also marked the beginning of the French expedition led by Commander Doudart de Lagrèze to explore the then uncharted Mekong River from Cambodia to the north of China, one of the great and most courageous expeditions of exploration in recent centuries. In the end, France captured Cambodia, Siam captured Angkor, King Norodom captured the crown and the throne of Cambodia, and for at least a short time, the independence of the kingdom. John Thomson and Emile Gsell captured the first photographs at Angkor, and Ernest Doudart de Lagrèze was captured by duty, adventure, and the affection of a little Cambodian boy named Chhun.

Before the Killing Fields Leslie Fielding, 2007-10-24
This is a gripping portrait of a country poised between peace and war. In the mid-1960s, Cambodia's position within South East Asia was highly vulnerable. The Americans were embroiled in war in Vietnam; the Viet Cong were gaining clandestine control over Cambodian frontier areas, while the Cambodian government, under the leadership of a charming but difficult Head of State, Prince Norodom Sihanouk, wanted nothing more than to preserve their neutrality and keep out of the war. Highly distrustful of any perceived foreign interference, the Cambodians had even rioted and attacked the American and British Embassies in Phnom Penh, and their debris was still strewn on the streets when Leslie Fielding arrived in the city. Yet, against this grim and dramatic backdrop, the daily round of international foreign policy somehow had to continue, and *Before the Killing Fields* offers a compelling and fascinating account of how this was achieved. As well as a political history, this is also a portrait of an exotic but overlooked country at a critical stage in its development. Violence, intrigue, and even the supernatural mingle with issues of day-to-day management and office morale. From diplomatic meetings conducted in opium dens and dancing lessons with beautiful princesses at the Royal Palace to candid portraits of the rest of the international community of Phnom Penh, *Before the Killing Fields* is an illuminating insight into a lost world.

Qing Governors and

Their Provinces R. Kent Guy, 2015-08-03 During the Qing dynasty 1644-1911 the province emerged as an important element in the management of the expanding Chinese empire with governors those in charge of these increasingly influential administrative units playing key roles R Kent Guy's comprehensive study of this shift concentrates on the governorship system during the reigns of the Shunzhi Kangxi Yongzheng and Qianlong emperors who ruled China from 1644 to 1796 In the preceding Ming dynasty 1368-1644 the responsibilities of provincial officials were ill defined and often shifting Qing governors in contrast were influential members of a formal administrative hierarchy and enjoyed the support of the central government including access to resources These increasingly powerful officials extended the court's influence into even the most distant territories of the Qing empire Both masters of the routine processes of administration and troubleshooters for the central government Qing governors were economic and political administrators who played crucial roles in the management of a larger and more complex empire than the Chinese had ever known Administrative concerns varied from region to region Henan was dominated by the great Yellow River which flowed through the province the Shandong governor dealt with the exchange of goods ideas and officials along the Grand Canal in Zhili relations between civilians and bannermen in the strategically significant coastal plain were key and in northwestern Shanxi governors dealt with border issues Qing Governors and Their Provinces uses the records of governors appointments and the laws and practices that shaped them to reconstruct the development of the office of provincial governor and to examine the histories of governors appointments in each province Interwoven throughout is colorful detail drawn from the governors biographies Indo-Islamic society André Wink, 1990 This third volume of Andre Wink's acclaimed and pioneering Al Hind The Making of the Indo Islamic World takes the reader from the late Mongol invasions to the end of the medieval period and the beginnings of early modern times in the late fifteenth and early sixteenth century It breaks new ground by focusing attention on the role of geography and more specifically on the interplay of nomadic settled and maritime societies In doing so it presents a picture of the world of India and the Indian Ocean on the eve of the Portuguese discovery of the searoute a world without stable parameters of pervasive geophysical change inchoate and instable urbanism highly volatile and itinerant elites of nomadic origin far flung merchant diasporas and a famine and disease prone peasantry whose life was a gamble on the monsoon Regions and National Integration in Thailand, 1892-1992 Volker Grabowsky, 1995 Contains the papers presented at the Sixth International Symposium on Southeast Asia Studies at Passau University in June 1992 Pref The Mekong, a River and Its People John Hoskin, 1991
