

An aerial photograph of a wide river, likely the Mississippi, winding through a vast, green, hilly landscape. The river is light-colored, possibly due to sand or silt, and contrasts sharply with the surrounding dense green vegetation. The hills are rolling and extend into the distance under a pale sky.

Yankee Road James D. McNiven, 2015 **O America** William Least Heat-Moon, 2020-02-14 In 1848 an English physician Nathaniel Trennant accepts an offer to serve as doctor on a ship carrying immigrants to America When arriving in Baltimore Trennant stumbles onto its slave market and witnesses the horrors of human bondage One night in a boardinghouse he discovers under his bed a runaway slave Disturbed and angered by the selling of human lives he offers to help the young man escape a criminal action that will put the fugitive slave and physician into flight from both the law and opportunistic slave hunters Traveling by foot horse stage canal boat and steamer Nathaniel and Nicodemus explore the backcountry and forge a deep friendship as they encounter a host of memorable characters who reveal the nature of the American experiment one still in its early stages but already under the stress of social injustices and economic inequities **Karl Bodmer's America**

Revisited ,2013-07-05 Less than thirty years after Lewis and Clark completed their epic journey Prince Maximilian of Wied a German naturalist and his entourage set off on their own daring expedition across North America Accompanying the prince on this 1832-34 voyage was Swiss artist Karl Bodmer whose drawings and watercolors designed to illustrate Maximilian's journals now rank among the great treasures of nineteenth century American art This lavishly illustrated book juxtaposes Bodmer's landscape images with modern day photographs of the same views allowing readers to see what has changed and what seems unchanged since the time Maximilian and Bodmer made their storied trip up the Missouri River To discover how the areas Bodmer depicted have changed over time photographer Robert M Lindholm and anthropologist W Raymond Wood made several trips over a period of years from 1985 to 2002 to locate and record the same sites all the way from Boston Harbor where Maximilian and Bodmer began their journey to Fort McKenzie in modern day western Montana Pairing sixty-seven Bodmer works side by side with Lindholm's photographs of the same sites this volume uses the comparison of old and new images to reveal alterations through time and the encroachment of a built environment across diverse landscapes Karl Bodmer's America Revisited is at once a tribute to the artistic achievements of a premier landscape artist and a photographer who followed in his footsteps and a valuable record of America's ever changing environment **The Yankee Road: Tracing**

the Journey of the New England Tribe That Created Modern America James D. McNiven,2015-03-14 Who is a Yankee and where did the term come from Though shrouded in myth and routinely used as a substitute for American the achievements of the Yankees have influenced nearly every facet of our modern way of life Join author Jim McNiven as he explores the emergence and influence of Yankee culture while traversing an old transcontinental highway reaching from the Atlantic to the Pacific US 20 which he nicknames The Yankee Road The Yankee Road Tracing the Journey of the New England Tribe that Created Modern America combines fascinating history with a travel narrative taking the reader on a journey through the places Yankees and their descendants settled as they expanded westward Using a physical road to connect locations important to the Yankee cultural road McNiven takes us on twenty-two side trips into individual stories introducing readers to the origins of such large scale and diverse ideas as conservation public education telegraphy mass production religion and labor reform See familiar places and stories in a Yankee light such as the fight for women's rights in Seneca Falls and Walden Pond that Thoreau made famous Learn about less familiar venues like Route 128's technology companies that led to the creation of the computer industry and incidentally the Internet and to the Worcester suburb of Shrewsbury where two old women changed the world by making possible the birth control pill McNiven's first tour goes as far west as the Pennsylvania New York border with more stories to come As we travel The Yankee Road we will meet some of the men and women who made these ideas happen Harry Truman once said I like roads I like to move This is a road book Come on along

Twenty West Mac Nelson,2010-03-10 Gold Medalist 2009 Independent Publisher Book Awards in the Travel Essay category I know US 20 I live on it grew up near it commute to work on it and have run on it most mornings for twenty five

years It has become the Main Street of my life I am fond of it and want to tell its very American story from the Introduction Whether he s on foot in a car or even in a canoe Mac Nelson will delight readers with his rambling westward depiction of America as seen from the shoulders of its longest road US Route 20 As the 0 in its route number indicates US 20 is a coast to coast road crossing twelve states as it meanders 3 300 miles from Boston Massachusetts to Newport Oregon Nelson an experienced shunpiker travels west along the Great Road ruminating on history literature scenery geology politics wilderness the Great Plains and national parks whatever the most interesting aspects of a particular region seem to be Beginning with the great writers and founders of religion in the East who lived and wrote on or near US 20 including Anne Bradstreet Phyllis Wheatley and Sylvia Plath then crossing the plains to the forests mountains and deserts of the West Nelson s journey on this beloved road is personal and idiosyncratic serious and comic More than a mile by mile guidebook Twenty West offers a glimpse of a boyish and very American fascination with the road that will entice the traveler in all of us to take the long way home

Ecospatiality Lowell Wyse,2021-07-01 Ecospatiality explores modern and contemporary American prose literature through the lens of place showing how authors like William Least Heat Moon Willa Cather Richard Wright and Leslie Marmon Silko represent and reimagine real places in the world and the human environment relationships therein Building on the work of scholars in geography sociology ecocriticism and geocriticism this book articulates the theory of ecospatiality an understanding of place as simultaneously spatial ecological and historical In our current historical moment which is characterized by ongoing ecological collapse and a not unrelated increase in social disorder few issues are more urgent than the human relationship with our environments Whether we characterize this new epoch as the climate change era or the Anthropocene we can no longer ignore the fact that the places we live are rapidly changing in response to economic and environmental pressures Rather than thinking of place as a neutral site for social interaction we should recognize how it underpins and intertwines with human experience Fortunately literature can help us think through how place operates Lowell Wyse shows that texts can be understood as works of literary cartography Focusing on works of nonfiction and fiction whose primary settings are on the North American continent Ecospatiality demonstrates how these narratives rely on realistic literary geography to invoke and sometimes retell important aspects of environmental history within particular communities and bioregions

Water Borne Dan Rubinstein,2025-06-10 An unconventional SUP journey to discover how embracing blue space could improve our lives and our world In June 2023 writer Dan Rubinstein lashed camping gear to his stand up paddleboard and embarked on an improbable solo voyage from Ottawa to Montreal New York City Toronto and back to Ottawa along the rivers lakes and canals of a landlocked region Over 1 200 miles and 10 weeks he explored the healing potential of blue space the aquatic equivalent of green space and sought out others drawn to their local waters But the farther Rubinstein paddled the more he realized that being in on or around water does more than boost our mental and physical health and prompt stewardship toward the natural world He discovered that blue spaces are also a way to connect

with the kaleidoscopic cross section of people he met and the diverse geographies and communities he passed through Weaving together research interviews and an unmacho malodorous anticolonial adventure tale *Water Borne* shows us that we don't need an epic journey to find solutions to so many modern challenges Repair and renewal may be close at hand just add water

What the River Carries Lisa Knopp, 2012-05-18 In this informed and lyrical collection of interwoven essays Lisa Knopp explores the physical and cultural geography of the Mississippi Missouri and Platte rivers she has come to understand and cherish At the same time she contemplates how people experience landscape identifying three primary roles of environmental perception the insider the outsider and the outsider seeking to become an insider Viewing the waterways through these approaches she searches for knowledge and meaning Because Knopp was born and raised just a few blocks away she considers the Mississippi from the perspective of a native resident a dweller in the land She revisits places she has long known Nauvoo Illinois the site of two nineteenth century utopias one Mormon one Icarian Muscatine Iowa once the world's largest manufacturer of pearl mussel shell buttons and the mysterious prehistoric bird and bear shaped effigy mounds of northeastern Iowa On a downriver trip between the Twin Cities and St Louis she meditates on what can be found in Mississippi river water state lines dissolved oxygen smallmouth bass corpses family history wrecked steamboats mayfly nymphs toxic perfluorinated chemicals philosophies Knopp first encountered the Missouri as a tourist and became acquainted with it through literary and historical documents as well as stories told by longtime residents Her journey includes stops at Fort Bellefontaine where Lewis and Clark first slept on their sojourn to the Pacific Little Dixie Missouri's slaveholding hemp growing region as revealed through the life of Jesse James's mother Fort Randall Dam and Lake Francis Case the construction of which destroyed White Swan on the Yankton Sioux Reservation and places that produced unique musical responses to the river including Native American courting flutes indie rock Missouri River valley fiddling Prohibition era jazz jam sessions and German folk music Knopp's relationship with the Platte is marked by intentionality she settled nearby and chose to develop deep and lasting connections over twenty years residence On this adventure she ponders the half million sandhill cranes that pass through Nebraska each spring the ancient varieties of Pawnee corn growing at the Great Platte River Road Archway Monument a never broken tract of tallgrass prairie the sugar beet industry and the changes in the river brought about by the demands of irrigation In the final essay Knopp undertakes the science of river meanders consecutive loops of water moving in opposite directions which form around obstacles but also develop in the absence of them What initiates the turning that results in a meander remains a mystery Such is the subtle and interior process of knowing and loving a place What the River Carries asks readers to consider their own relationships with landscape and how one can most meaningfully and responsibly dwell on the earth's surface

Threading a Kayak down the Mississippi Dennis Van Norman, 2023-08-01 In 2005 Dennis Van Norman climbed into a kayak for the first time to spend an afternoon Huck Finning down the Mississippi River with his son and grandson Little did he know that what started as an innocent eight

mile kayaking introduction would eventually become a passion or an addiction He spent thirteen years from his sixties through his mid seventies kayaking the length of the Mississippi bit by bit traveling more than 2 500 river miles from northern Minnesota to the southern tip of Louisiana in a boat built for one Threading a Kayak down the Mississippi is the story of how one traveler fully experienced and embraced the Mississippi River and its surroundings In the vein of Jonathan Raban s Old Glory Dennis s account casts light on the Mississippi River s history geography and sociology but it is a book about more than the river itself it s also about the individuals and characters living along the Mississippi s shores From the local foods and music to the customs and history each experience is sandwiched between moments of pure serenity and those of sheer terror This is the story of a journey of discovery on the country s most celebrated waterway and an exploration of the wonderment joy and fear that will inevitably grab hold of you when you re sitting alone in a fourteen foot plastic boat on America s greatest river

Voyage of Rediscovery John Krist,2004 More than two centuries ago President Thomas Jefferson sent a hardy band of explorers on an unparalleled voyage of discovery across uncharted America Members of the Lewis and Clark expedition were the first U S citizens to cross the Continental Divide the first to reach the Pacific by land the first to map the landscape that would someday become central to the nation s identity They also were the last to describe the West before it underwent radical change at the hands of traders trappers soldiers and settlers As the 2003 2006 bicentennial of the expedition approached veteran journalist John Krist set out to retrace the explorers path hoping to answer a few deceptively simple questions What is it like on the trail today What was it like 200 years ago What can we learn about the West and about the nation itself by examining it through the unique lens of the explorers journals and letters Voyage of Rediscovery interweaves tales from the trail with analysis of some of the most compelling environmental issues facing the region Mixing adventure history science and sorrow it paints an evocative portrait of the modern American West and the people who call it home

QUALITATIVE INQUIRY UNDER FIRE Norman K Denzin,2009-08-15 This collection of recent works by Norman K Denzin provides a history of the field of qualitative inquiry

over the past two decades As perhaps the leading proponent of this style of research Denzin has led the way toward more performative writing toward conceptualizing research in terms of social justice toward inclusion of indigenous voices and toward new models of interpretation and representation In these 13 essays which originally appeared in a wide variety of sources and are edited and updated here the author traces how these changes have transformed qualitative practice in recent years In an era when qualitative inquiry is under fire from conservative governmental and academic bodies he points the way toward the future including a renewed dialogue on paradigmatic pluralism

The American Adrenaline Narrative
 Kristin J. Jacobson, 2020-06-01 The American Adrenaline Narrative considers the nature of perilous outdoor adventure tales their gendered biases and how they simultaneously promote and hinder ecological sustainability To explore these themes Kristin J Jacobson defines and compares adrenaline narratives by a range of American authors published after the first Earth Day in 1970 a time frame selected as a watershed moment for the contemporary American environmental movement The forty plus years since that day also mark the rise in the popularity and marketing of many things as extreme including sports jobs travel beverages gum makeovers laundry detergent and even the environmental movement itself Jacobson maps the American eco imagination via adrenaline narratives grounding them in the traditional literary practice of close reading analysis and in ecofeminism She surveys a range of popular and lesser known primary texts by American authors including best selling books such as Jon Krakauer's Into Thin Air and Aron Ralston's Between a Rock and a Hard Place and lesser known texts such as Patricia C McCairen's Canyon Solitude Eddy L Harris's Mississippi Solo and Stacy Allison's Beyond the Limits She also discusses such narratives as they appear in print and online articles and magazines feature length and short films television shows amateur videos social networking site posts fiction advertising and blogs Jacobson contends that these stories constitute a distinctive genre because unlike traditional nature travel and sports writing adrenaline narratives sustain heightened risk or the element of the extreme within a natural setting Additionally these narratives provide important insight into the American environmental imagination's connection to masculinity and adventure knowledge that helps us grasp the current climate crisis and how narrative understanding provides a needed intervention
